INTRODUCTION

This Guide, prepared by DMH, lists and defines the compliant codes that DMH believes reflects the services it provides throughout its system, whether by directly-operated, contracted organizational providers, or individual/group network providers. This analysis does not, however, absolve Providers, whether individuals or agencies from their responsibility to be familiar with nationally compliant codes and to inform and dialogue with DMH should they believe differences exist.

Brief History

Since the inception of the DMH's first computer system in 1982, DMH directly-operated and contract staff have reported services using Activity Codes. These Activity Codes were then translated into the types of mental health services for which DMH could be reimbursed through a variety of funding sources. On April 14, 2003, health care providers throughout the Country implemented the HIPAA Privacy rules. This brought many changes to DMH's way of managing Protected Health Information (PHI), but did not impact the reporting/claiming codes. On October 16, 2003, all health care providers throughout the USA are required to implement the HIPAA Transaction and Codes Sets rules or be able to demonstrate good faith efforts to that end. These rules require that providers of health care services anywhere in the USA must use nationally recognized Procedure Codes to claim services.

HIPAA Objectives and Compliant Coding Systems

One of the objectives of HIPAA is to enable providers of health care throughout the country to be able to be conversant with each other about the services they were providing through the use of a single coding system that would include any service provided. In passing HIPAA, Legislators were also convinced that a single national coding system would simplify the claims work of insurers of health. Two nationally recognized coding systems were approved for use: the Current Procedural Terminology (CPT) codes and the Level II Health Care Procedure Coding System (HCPCS). The CPT codes are five digit numeric codes, such as 90804 and the HCPCS are a letter followed by four numbers, such as H2012.

Definitions found in this Guide are from the following resources: CPT code definitions come from the CPT Codes Manual; HCPCS codes are almost exclusively simply code titles absent definition so these definitions were established either exclusively or in combination from one of these sources – 1) Title 9 California Code of Regulations, Chapter 11, Specialty Mental Health Services, 2) State Department of Health Care Services (DHCS) Letters and Informational Notices, or 3) DHCS State Plan Amendments.

STRUCTURE OF GUIDE

Activity: Title of the procedure code which defines the activity the practitioner provided.

Method of Delivery: Identifies the allowable ways in which the practitioner may conduct the activity.

- ✓ In person
- ✓ Telephone
- ✓ Telehealth
- ✓ N/A

Service Contact: Identifies the allowable person or persons for whom the practitioner may claim their time of contact. The Service Contact may or may not be the client, but all claimed services must ultimately be directed toward serving the client.

- ✓ Client
- ✓ Significant Support Person
- ✓ N/A

Service Function Code (SFC): Utilized for Cost Report information systems, identifies the specific type of service provided under a Mode of Service. Service Function Codes are necessary for classifying services provided and service cost data at a specific level.

Allowable Discipline(s): Identifies the disciplines permitted to use the procedure code as well as the applicable taxonomies associated with that discipline. Not all staff listed in the Allowable Discipline(s) column may claim to Medicare and/or other private insurance. Refer to Discipline/Categories/Taxonomies Section for additional information about allowable disciplines.

Comments: Provides additional information about the use of the code including:

- **Authorization Requirements:** Some services require prior authorization or concurrent review. If indicated, the procedure code will be denied without prior authorization/concurrent review.
- **Roll-Up Procedure Codes:** DHCS/Medi-Cal only accepts a limited set of Procedure Codes. LACDMH “rolls-up” the Procedure Codes submitted by Providers to the more generic HCPCS Procedure Codes allowable by DHCS/Medi-Cal. If the Procedure Code utilizes one of the following Roll-Up codes, there is no requirement to send the claim to Medicare prior to sending to Medi-Cal:

✓ H0032	✓ H2017	✓ T1017*
✓ H0034	✓ H2019*	

*These codes also can bypass claiming to Other Health Coverage (OHC)

Other Items:

- Except for those services funded entirely by CGF or Mental Health Services Act (MHSA), there are no codes that identify payer information, such as PATH. Payer information will be maintained by funding plan/funding source.
- Medicare does not reimburse for travel and documentation time, so in order to appropriately claim to both Medicare and Medi-Cal total service time for the Practitioner must be broken out into face-to-face and other time for most services. Face-to-face time is the time spent providing a service directed towards the client with the client present.
 - ✓ Only the psychotherapy codes are selected based on face-to-face time.
 - ✓ Psychological Testing, Evaluation & Management Medication Support Services and Group Services (with the exception of Collateral Group) all require face-to-face time.
 - ✓ No other Mental Health, Medication Support, or Targeted Case Management Services require face-to-face time, but if it occurs, it should be indicated.
 - ✓ Collateral and No-Contact – Report Writing should always be reported with “0” face-to-face time.
 - ✓ Face-to-face time is always “0” for telephone contacts.
 - ✓ Telemental health services are considered face-to-face given that the client is visually present.

ABBREVIATIONS

- **CGF** – County General Funds
- **CPT** – Current Procedural Terminology; codes established by the American Medical Association to uniquely identify services for reporting and claiming purposes.
- **DMH** – Los Angeles County Department of Mental Health or Department; also known as the Local Mental Health Plan (LMHP)
- **ECT** – Electroconvulsive Therapy
- **HCPCS** – Health Care Procedure Coding System

- **SFC** – Service Function Code
- **STP** – Special Treatment Patch
- **TCM** – Targeted Case Management

DISCIPLINE/CATEGORIES/TAXONOMIES

Rendering Providers/Practitioners may only provide services consistent with their education/licensure (scope of practice), length of experience and/or job description. All disciplines must minimally have a high school diploma or equivalent. The discipline controls what procedure codes the practitioner can utilize while the category (specific subsets of the discipline) is what is entered into the Network Adequacy: Provider & Practitioner Administration (NAPPA) application. DHCS/Medi-Cal has provided instruction on which taxonomies may and may not be used by disciplines based on whether or not the discipline can claim to Medicare. DHCS uses taxonomies to determine if a claim should go to Medicare prior to being sent to Medi-Cal. Claims by practitioners on a taxonomy beginning with any of the following three-digit prefixes must go to Medicare first:

- ✓ 363 (Nurse Practitioner/Physician Assistant) ✓ 208 (Physician) ✓ 103 (Psychologist)
- ✓ 364 (Clinical Nurse Specialist) ✓ 207 (Physician) ✓ 104 (Social Worker)

Comments: Roll-Up Procedure Code is H2010. The selection of E/M service codes should be based on the level of the medical decision making or the total time for E/M services performed on the date of the encounter. See Appendix for additional information on the use of these codes.

Total time* includes face-to-face and non face-to-face time (e.g. documentation, review of records, ordering medications/tests). LACDMH has not implemented the prolonged service add-on codes due to the complexity of the add-on codes and the lack of impact on Medi-Cal claiming. For this reason, the Guide to Procedure Code lists 99205 as 60+ minutes and 99215 as 45+ minutes.

APPENDIX: EVALUATION & MANAGEMENT CRITERIA

Evaluation and Management (E&M) procedure codes are utilized by SD/MC Physicians, Nurse Practitioners, Physician Assistants and AP Pharmacists when providing Medication Support Services for the purpose of medication evaluation and prescription.

The E&M procedure code should be selected based on (see grid #1 below):

- **Location of service** – 1. Office/Other Outpatient Services, 2. Home, or 3. Domiciliary/Rest Home/Custodial Care Services
- **Type of client** – 1. New (someone who has not been seen by an MD/DO/NP within the past three years within a Legal Entity) or 2. Established
- **Components of evaluation**
 - **Office or Other Outpatient Services:** Medical Decision Making (see grid #2 below) or Total Time
 - **Other E/M Services:** History, Examination and Medical Decision Making (see grid #3 below)

1. SUMMARY OF GUIDELINE DIFFERENCES

Component(s) for Code Selection	Office or Other Outpatient Services	Other E/M Services <i>Home, Domiciliary, Rest Home (e.g. Boarding Home), or Custodial Care Services</i>
Code	99202, 99203, 99204, 99205, 99212, 99213, 99214, 99215	99324, 99325, 99326, 99327, 99328, 99334, 99335, 99336, 99337, 99341, 99342, 99343, 99344, 99345, 99346, 99347, 99348, 99349, 99350
History and Examination	Not used in code selection	Use key components (history, examination, MDM)
Medical Decision Making (MDM)	May use MDM or total time on the date of the encounter	Use key components (history, examination, MDM)
Time	May use MDM or total time on the date of the encounter	Not used in code selection

2. LEVELS OF MEDICAL DECISION MAKING (MDM)

Code	Level of MDM	Elements of Medical Decision Making		
		Number and Complexity of Problems Addressed	Amount and/or Complexity of Data to be Reviewed and Analyzed	Risk of Complications and/or Morbidity or Mortality
99202 99212	Straightforward	Minimal	Minimal or none	Minimal
99203 99213	Low	Low	Limited	Low
99204 99214	Moderate	Moderate	Moderate	Moderate
99205 99215	High	High	Extensive	High

EVALUATION & MANAGEMENT CRITERIA (continued)

3. HISTORY, EXAM & MDM CRITERIA

	Determining Factors	Types and Elements of each Type
History	<p>Refers to the amount of history that is gathered which is dependent upon clinical judgment and on the nature of the presenting problem(s).</p>	<p>Problem focused - chief complaint, brief history of present illness or problem</p> <p>Expanded problem focused – chief complaint, brief history of present illness, problem pertinent system review</p> <p>Detailed – chief complaint, extended history of present illness, problem pertinent system review extended to include a review of a limited number of additional systems, pertinent past/family/and or social history directly related to the client’s problems</p> <p>Comprehensive – chief complaint, extended history of present illness, review of systems that is directly related to the problem(s) identified in the history of the present illness plus a review of all additional body systems, complete past/family/social history</p>

Additional Organ Systems include: Eyes, Ears/Nose/Mouth/Throat, Cardiovascular, Respiratory, Gastrointestinal, Genitourinary, Musculoskeletal, Skin, Neurologic, Hematologic/Lymphatic/Immunologic. Additional Body Systems include: Head (including the face), Neck, Chest (including breasts and axilla), Abdomen, Genitalia/Groin/Buttocks, Back, Each Extremity</p>	<p>Problem focused – a limited examination of the affected body area or organ system</p> <p>Expanded problem focused – a limited examination of the affected body area or organ system and other symptomatic or related organ system(s)</p> <p>Detailed – an extended examination of the affected body area(s) and other symptomatic or related organ system(s)</p> <p>Comprehensive – a general multisystem examination or a complete examination of a single organ system</p>
Medical Decision Making	<p>Refers to the complexity of establishing a diagnosis and/or selecting a management option based on 1) the number of diagnoses and/or management options 2) the amount and/or complexity of medical records, diagnostic tests and/or other information that must be obtained, reviewed, analyzed 3) the risk of significant complications, morbidity, and/or mortality associated with the presenting problem (s), diagnostic procedure(s) and/or possible management options</p>	<p>Straightforward – minimal diagnoses and/or management options, minimal or no data to be reviewed, minimal risk of complications</p> <p>Low complexity - limited diagnoses and/or management options, limited data to be reviewed, low risk of complications</p> <p>Moderate complexity - multiple diagnoses and/or management options, moderate data to be reviewed, moderate risk of complications</p> <p>High complexity - extensive diagnoses and/or management options, extensive data to be reviewed, high risk of complications</p>

APPENDIX: PROCEDURE CODE MODIFIERS

Refer to the IBHIS Addendum Guide to Procedure Codes for a complete list of allowable procedure code-modifier combinations. Contract providers submitting electronic claims to the Department must attach the letter modifiers in the claims transmission.

Modifier	Definition	Description & Instructions
59	Distinct procedural service	<p>A duplicate service is identified based on identical values in each of the following fields:</p> <ul style="list-style-type: none"> ✓ Medi-Cal Client Index Number (CIN) ✓ Program of Service (Provider Number) ✓ Date of Service ✓ Practitioner ✓ "Roll-up" Procedure Code ✓ Total Duration <p>If a service appears to be a duplicate service but is not, a duplicate override modifier must be added to the Procedure Code to allow the claim to pass through when submitted to DHCS. The 59 modifier should be added to the Procedure Code when the will appear as a duplicate based on the Roll-Up Procedure Code.</p>
76	Repeat procedure by the same physician	<p>A duplicate service is identified based on identical values in each of the following fields:</p> <ul style="list-style-type: none"> ✓ Medi-Cal Client Index Number (CIN) ✓ Program of Service (Provider Number) ✓ Date of Service ✓ Practitioner ✓ Procedure Code ✓ Total Duration <p>If a service appears to be a duplicate service but is not, a duplicate override modifier must be added to the Procedure Code to allow the claim to pass through when submitted to DHCS. The 76 modifier should be added to the Procedure Code when the service will appear as a duplicate based on the submitted Procedure Code.</p>
GT	Via interactive audio and video telecommunications service	<p>Must be placed on the procedure code for all telemental health services. Telemental health services include the use of video teleconferencing solutions in order to provide services to a client who is at a location different from the practitioner.</p>
HE	Mental health program	<p>May be used with some procedure codes based on requirements from DHCS.</p>
HK	Specialized mental health programs for high-risk populations	<p>Must be utilized to indicate Intensive Care Coordination (ICC) and Intensive Home Based Services (IHBS). Also, may be utilized by directly-operated providers using IBHIS to indicate a COS service was provided to a specific individual.</p>
HQ	Group setting	<p>Must be included on some group procedure codes in order to distinguish from individual services.</p>
HX	Funded by court/local agency	<p>Contracted providers must use the HX modifier on procedure codes for services that should not be claimed to Medi-Cal (whether based on the insurance status of the client or based on the service provided).</p>
SC	Telephone Services	<p>Must be placed on the procedure code for all telephone services. Some procedure codes are not telephone allowable meaning they may not be used for telephone services; only those procedure codes specifically identified as telephone allowable may be claimed as a telephone service.</p>
