Advertising Costs

CMS 15-1, s. 2136

Allowable to the extent they are reasonable, appropriate and helpful in developing, maintaining and furnishing covered services. These costs must be common and accepted occurrences in the mental health field. The allowability of each cost depends on the facts and circumstances, as well as the amounts ordinarily paid by comparable institutions.

Cost for presentation of a good public image, directly or indirectly related to client care, are allowable. These costs may include: recruitment of staff; professional contacts with physicians, hospitals, public health agencies, nurses' associations, state and county Psychiatric Societies, and similar groups and institutions in order to inform them of the provider's covered services. An example is the listing of the facility in a telephone directory of similar facilities in an area.

Unallowable Advertising Costs include: Fundraising; advertising of a general nature designed to invite physicians to utilize the provider's facilities in their capacity as independent practitioners; advertising to the general public to increase patient utilization of the provider's facilities.

CMS 15-1, s. 602.1, 602.2, 604, 606

Unrestricted grants, gifts and income from endowments are funds, cash or otherwise, given to a provider without restriction by the donor as to their use.

UNRESTRICTED GRANTS, GIFTS, AND INCOME FROM ENDOWMENTS-GENERAL RULE

Unrestricted contributions are not deducted from costs in computing allowable costs. These funds are considered the property of the provider to be used, as it deems appropriate. These funds generally give the provider a means of recovering costs which are not otherwise recoverable, such as costs related to bad debts of patients not covered under Medicare.

RESTRICTED GRANTS, GIFTS, AND INCOME FROM ENDOWMENTS –
Restricted or designated grants, gifts, and income from endowments are funds, cash or otherwise, which must be used only for a specific purpose designated by the donor. This does not refer to unrestricted grants, gifts, or income from endowments which have been restricted for a specific purpose by the provider.

*RESTRICTED GRANTS, GIFTS AND INCOME FROM ENDOWMENTS –
GENERAL RULE*

Restricted contributions, where the cost or group(s) of costs designated covers services rendered to all patients, including Medicare beneficiaries, operating costs applicable to all patients are reduced by the amount of the restricted grants, gifts, or income from endowments thus resulting in a reduction of allowable costs. For example, if a specific donation was made to cover the costs of medical social services for all patients, the costs of medical social services would be reduced by the amount of the donation to arrive at allowable costs.
