

DEADLINE FOR VOID REPORT EXTENDED TO DECEMBER 17, 2021

As a result of delays compiling void claim data for Fiscal Year (FY) 2020/2021, Legal Entity (LE) and Fee-for-Service (FFS) providers were not furnished with Void Reporting Access files from the Department of Mental Health (DMH) as scheduled. Void Reporting data is provided to LE and FFS providers in the form of Access database files placed in their respective Electronic File Transfer (EFT) reporting folders. In order to expedite delivering the data to providers, DMH manually compiled the data for each LE and FFS provider. With this correction, Void Reporting Access files were placed in the EFT folders on November 12 and 13, 2021 for each LE and FFS provider that submitted a void request during the reporting period.

To offset the delays with making the application available, DMH has authorized an extension to the deadline for submission of the report. The new deadline for submitting the completed report and Attestation Form signed by someone listed on the contract as authorized to sign documents on behalf of the agency or provider is **December 17, 2021**.
