The Community Planning Team (CPT)

Background

- CPT is DMH's process for engaging a diverse stakeholder group that provides input, feedback and recommendations about critical issues and service gaps that are MHSA and Non-MHSA related
- Goal of the CPT is to build capacity for existing community/stakeholder groups' (e.g. SALTs, UsCCs, Peer Advisory, Co-Chairs and Liaisons) to represent critical issues that impact their communities
 1. Monthly stakeholder meetings for SALTs, UsCCs and Advisory Groups are supported with facilitation to gather their feedback to share with the CPT.
 2. Outreach and Engagement staff are working on strategies to increase stakeholder and community participation in CPT and monthly stakeholder meetings
- CPT creates a space for stakeholders to discuss new proposals for programs and services that may address service gaps identified during the CPT meetings.

CPT GOALS ACCOMPLISHED IN TWO PARTS

WHO

HOW

- Gather Multiple stakeholder groups
- Demographic and cultural diversity
- People with Lived Experience as consumers, family members, caregivers, and peers

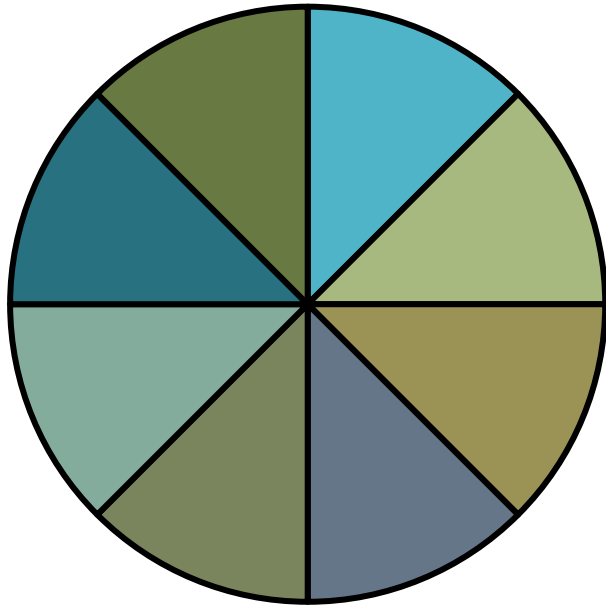

- Meaningful engagement opportunities: input and recommendations through larger group sessions and 4 smaller focused workgroups
- Concrete supports for equitable participation for all groups

CPT DESIGN
