Program Description

The Homeless Outreach & Mobile Engagement (HOME) program provides field based outreach, engagement, and treatment to people with severe and persistent mental illness who are experiencing unsheltered homelessness. Services provided are tailored to each individual and can include addressing basic needs; clinical assessments and case management; street psychiatry and medication management; initiation of outpatient conservatorship and/or inpatient hospitalization; and linkage to any additional appropriate services.

Target Population

HOME serves people 18 and over who are experiencing chronic unsheltered homelessness and who have profound mental health needs and associated impairments. These vulnerable and disengaged individuals struggle with securing appropriate food, clothing, and shelter due to their mental illness. In addition, they may have critical deficits in hygiene and communication, and are generally highly avoidant of services. They are unable to live safely in the community and require specialized mental health services in order to secure and sustain housing.

Referrals

Most referrals are submitted by generalist homeless outreach providers who identify individuals with high service needs, severe impairment, and require more specialized and intensive support than general outreach teams can provide. Members of the public may initiate a **referral to a general homeless outreach team** through the Los Angeles Homeless Outreach portal at www.LA-HOP.org. Individuals will be triaged to a HOME team if the person meets the aforementioned criteria. Homeless outreach providers should complete the **HOME Team Referral Form** found [at our website](#) and email it to home@dmh.lacounty.gov.

HOME does not provide emergency services. Please utilize 911, 988, or the DMH 24/7 Help Line for emergency services.
