About

Wraparound is an intensive mental health program that is a child-focused, family-centered, strengths-based, and needs-driven planning process. This process provides access to an array of comprehensive mental health services.

Wraparound is a team-based, collaborative process for helping children and youth with special mental health needs. Families learn to identify and use their strengths and community resources to address their individual needs.

How Can Wraparound Help?

- Provides supportive and mental health services.
- Helps children and families develop new skills.
- Helps families exit the DCFS/Probation system.
- Helps children return home/stay home.
- Guides parents to obtain resources and services from schools, legal systems, and health services.
- Provides linkages to community resources that will help families build a brighter future.
- Supports families in crisis 24/7.

Who Works with My Family?

Your family will work with a Wraparound team of at least four individuals consisting of the following:

Facilitator: organizes meetings and ensures that the family plan is working. This person will help assess your family's strengths, goals, and needs and develop an initial safety and crisis plan with your family.

Child and Family Specialist (CFS): works with the youth to improve behaviors, supporting positive life changes. Also, the CFS can identify appropriate resources for the youth's healthy development.

Parent Partner: serves to support the parents/caregivers, helps in assessment and planning, provides resources (i.e., food banks, housing, and shelters), and most importantly empowers parents/caregivers.

Mental Health Clinician: provides mental health services (individual and family therapy) to address emotional needs and participates in Child and Family Team (CFT) meetings.

Psychiatrist (as needed): provides medication support.

What to Expect?

- CFT meetings to create strategies to support your family and track progress.
- CFT meetings take place in your home or another location of your choosing.
- Work collaboratively with a team in developing individualized goals for your family.
- For your family's voice to be respected and prioritized throughout the process.
- Identify and enlist formal and informal supports.
