About

Family Preservation (FP) is a collaborative effort between the Los Angeles County Department of Mental Health (LACDMH), Children and Family Services (DCFS), Probation and community based agencies (Lead Agencies). Overall, Family Preservation is funded by and under the authority of DCFS.

FP exists to strengthen and preserve families that are at either risk or already experiencing problems in the family functioning. The goal is to assure the emotional, social, educational, cultural, and spiritual development of children in a safe and caring environment.

Program Goals

- Assure that children are safe and secure in their homes.
- Empower families to resolve their own problems, effectively utilize community services, and advocate for their children with schools and other agencies.
- Develop and enhance the functioning of families by building on identified family strengths and implementing the principles of the Integrated Core Practice Model (ICPM).
- Assess the family's needs in order to ensure that family strengths and problems are identified as early as possible, including screening for mental health needs.
- Reduce system recidivism and out-of-home placement.
- Continually work with the family towards their long-term goals, in order to break unhealthy multi-generational patterns.

Family Preservation Team Members

- Family
- DCFS Children's Social Worker (CSW)
- Lead agency In-Home Outreach Counselor (IHOC)
- DMH Mental Health Therapist
- Probation

Services provided by the family preservation agency are consistent with the ICPM. They may include:

- **In home outreach counseling** – takes place in the home to help you increase self-awareness, improve family relationship, etc.
- **Teacher and Demonstrator (T&D)** – homemaking instructions can help you successfully manage and maintain your home and meet the needs of your child.
- **Parent training** – provides instruction and practice in parenting skills.
- **Child focused activities** – provides different activities and outings to youth.
- **Supplemental adult role model** – provides a positive adult role model to the children.
- **Auxiliary funds** – provides a one-time additional funding for resources needed to keep the family together. This resource must be approved by the DCFS regional office administrator.

Family Preservation Mental Health Services

The goal of the Mental Health component in Family Preservation is to support the objectives of FP by offering a range of outpatient mental health services to children and their parents/caregivers. The treatment goal is to alleviate mental health symptoms and improve family, school & community functioning. Services are child & family centered and can be provided in an office, home or school.
