

HOLD SUBMISSION OF FY 2024-25 CLAIMS

The California Department of Health Care Services (DHCS) updated the code set used for claiming specialty mental health services to Medi-Cal. DHCS added new procedure codes, changed the duration of some procedure codes, and inactivated procedure codes that did not align with Medicare claiming standards. These changes went into effect July 1, 2024. As a result, the Los Angeles County Department of Mental Health (LACDMH) must update the Integrated Behavioral Health Information System (IBHIS) claims adjudication system to support these changes.

While IBHIS is being updated, all Legal Entity (LE) contract providers are to refrain from submitting claims for Fiscal Year (FY) 2024-25 (dates of service July 1, 2024, or later) until further notice. LACDMH will notify providers when IBHIS is ready to accept FY 2024-25 claims in a separate communication.

These updates do not impact claims for service dates prior to July 1, 2024. Providers may continue to submit claims for dates of service on or before June 30, 2024, without interruption.
