**DESCRIPTION:** The TGI Cultural Transformation Training aims to educate service providers on the needs and experiences of transgender, gender expansive, and intersex (TGI) communities. It acknowledges the need for cultural transformation to ensure inclusivity, given the historical exclusion of TGI individuals in service and program development. The training seeks to provide participants with the education and tools to create a culture that recognizes, values, and affirms TGI experiences. A 90-minute technical assistance/booster is offered to all participants upon completion of the training.

**TARGET AUDIENCE:** DMH and legal entity case management staff that provide housing related services

**OBJECTIVES:** As a result of attending this training, participants should be able to:

1. Create a foundational understanding about the difference between sex, gender, and sexuality by unpacking language and exploring dominant societal expectations.
2. Utilize sexual orientation, gender identity, and gender expression (SOGIE) as a framework for understanding disproportionate impact and implementing inclusive practices.
3. Develop an awareness of implicit bias, stigma, intersectionality, and psychosocial considerations.
4. Identify and explain gender exploration, transition, and your role in gender-affirming mental health and care.
