Updating Practitioner Information?

Submit Updates Using the Rendering Provider Form AND PRM

The Practitioner Maintenance Unit of the Provider Support Office has seen a significant drop in the number of requests to update Rendering Provider information in the Integrated System (IS).

As a reminder, it is important to keep all practitioner and provider information up to date in both the IS and the Integrated Behavioral Health Information System (IBHIS) regardless of whether your legal entity is live in IBHIS or still submitting new original claims through the IS. Updating rendering providers in the IS ensures that replacement claims and new claims prior to your program’s Go-LIVE date in IBHIS are submitted with the most accurate information. The same is true for legal entities and programs of service live in IBHIS, plus it ensures that your claims will process correctly when you go live.

In order to keep both systems updated and current, providers must continue submitting practitioner updates using both the online Rendering Provider Form and the online Practitioner Registration and Maintenance (PRM) Application. The table below contains links to the online forms providers must use to request updates to practitioner information.

System	Online Form for Updates	Links
IS	Rendering Provider Form	http://dmhpaa.dmh.lacounty.gov/ActionForm.aspx <ul style="list-style-type: none"> • Providers should use the IS280 Report for 5 or more taxonomy deletions and license updates. • IS290 Report for 5 or more terminations
IBHIS	PRM	https://extra.dmh.lacounty.gov/PRM/Security/SignIn.aspx
