

# 2025 ANNUAL REPORT

LOS ANGELES COUNTY  
REGIONAL PARK AND  
OPEN SPACE DISTRICT

# Introduction

RPOSD was established with the passage of Proposition A in 1992 and continues its mission “**to enrich and empower the communities of Los Angeles County through innovative grantmaking for parks and open space**” reinforced by the approval of Measure A in 2016 by Los Angeles County voters. As a special district, RPOSD’s boundaries align with those of the County of Los Angeles and the County’s Board of Supervisors serve as its Board of Directors. RPOSD is mandated by a measure approved by nearly 75% of voters to collect taxes within these boundaries and then administer grant funds for the County’s 88 cities, local park agencies, and nonprofits towards enhancing, refurbishing, and creating new park projects.

Kathryn Barger  
Supervisory District 5

Fiscal Year 2024-2025 marked a transformative chapter for RPOSD. With equity at the heart of every initiative, RPOSD advanced its mission to ensure that all communities have access to safe and vibrant parks across Los Angeles County. Here are notable highlights of the fiscal year:

Between August 29, 2024, and January 23, 2025, we hosted Annual Allocation Work Plan Workshops to introduce and guide grantees through the new process. Previously, each grant project required a separate application. Under the new process, grantees now submit a single application incorporating Work Plans, simplifying the process and improving efficiency across the board.

We continue our long-standing commitment to parks, conservation, and community resilience with the historic awarding of \$17 million in grants through the Measure A Acquisition Competitive Grant Program! Thirteen projects,

ranging from vibrant urban pocket parks to expansive open space conservation were selected from the competitive grant period from Summer 2024.

This marks the largest parkland expansion in the Regional Park and Open Space District's 31-year history, adding 623 acres of new parkland across Los Angeles County. Over half of the funding is dedicated to high park need communities, as identified in the LA County Parks Needs Assessment, helping address long-standing disparities in access to green space.

These transformative acquisitions will revitalize neighborhoods, restore wildfire-impacted natural areas, and ensure lasting benefits for residents, wildlife, and ecosystems for generations to come.

## Investments in Program Grants

Through our Youth and Veteran Job Training Program, we funded the training and placement of 165 youth and veterans as the next generation of park and recreation professionals. In addition, 20,181 Los Angeles County residents benefitted from outings and programs aimed to increasing access to our parklands through our funding for our Recreation Access Program.

To learn more of our recent funding towards educational and interpretive programs and job training and placement programs, go to our website and click on Community Impact: “Explore Funded Programs,” tab.

## Grants Management System Replacement

In mid-2025, RPOSD successfully concluded a competitive Request for Proposals process and selected a new contractor to develop and implement a modern grants management system. This marks the final step towards developing a streamlined, data-driven, and equitable grantmaking system.

## \$4.5 Million RESTORE Program Launched

In the aftermath of the devastating January 2025 wildfires on April 10, 2025, we launched the RESTORE Program (Recovery and Emergency Support for Trails, Open Space, and Recreation), a \$4.25 million initiative to support the recovery and rebuilding of public parks, trails, and open spaces in the hardest-hit communities across Los Angeles County.

RESTORE provides targeted, non-competitive grants to cities, agencies, and nonprofit landowners to help restore damaged recreational infrastructure, trail repairs, reforestation of open spaces, and the implementation of best practices in wildfire resilience.

Beyond physical improvements, RESTORE also empowers recipients to plan and implement projects that can be strategically leveraged with Measure A and other funding sources—amplifying impact and accelerating progress toward a more resilient and equitable park system.

**\$4.25 MILLION RESTORE PROGRAM  
LAUNCHES TO REBUILD PARKS AND  
TRAILS AFTER JANUARY WILDFIRES!**

**RESTORE**  
Program Guidelines  
RECOVERY AND EMERGENCY SUPPORT FOR  
TRAILS, OPEN SPACE, AND RECREATION

Funded by  
**Measure A**  
April 2025

RPOSD's **RESTORE** (Recovery and Emergency Support for Trails, Open Space, and Recreation) **Program** provides targeted non-competitive grants to cities, agencies, and nonprofit landowners to help restore damaged recreation infrastructure, repair trails, reforest open spaces, and implement best practices in wildfire resilience. Check our website for program guidelines, timeline, and eligibility details!

### MAINTENANCE & SERVICING

Formula-based allocations for maintenance and servicing of grant-funded projects.

### PROGRAM INNOVATION & OVERSIGHT

Needs Assessment updates, innovative technologies, and operations of RPOSD.

### CATEGORY 5

Youth and Veteran Job Training and Placement Opportunities Program  
Grants, to be awarded through a competitive process

### CATEGORY 1

Community-Based Park Investment Program  
Formula-based allocations of funds for grants to each Study Area.\*

### CATEGORY 4

Regional Recreational Facilities, Multi-use Trails, and Accessibility Program  
Grants, to be awarded through a competitive process.

### CATEGORY 2

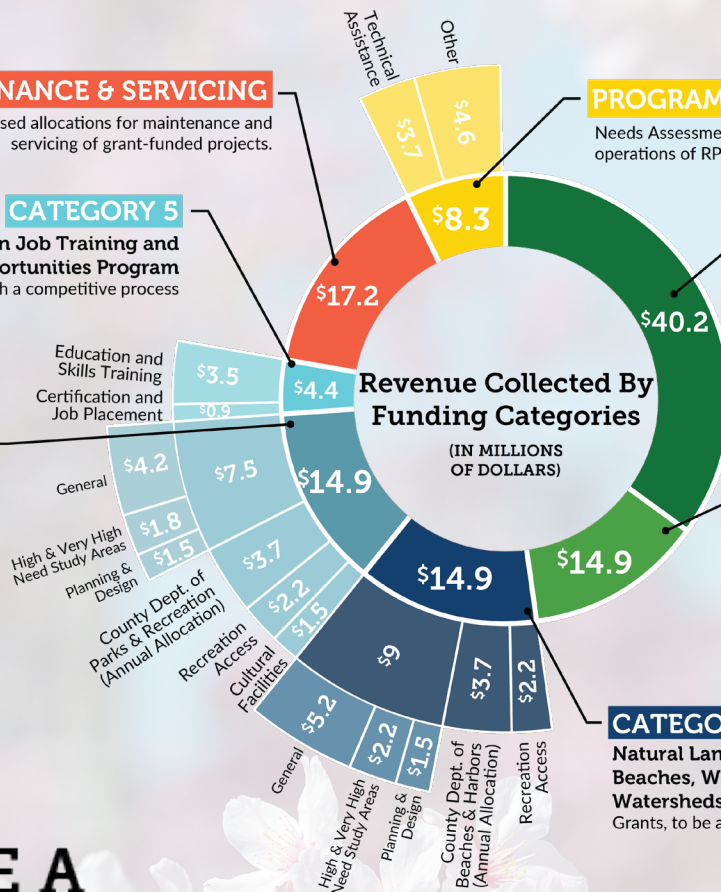

Safe, Clean Neighborhood Parks, Healthy Communities, and Urban Greening Program  
Formula-based allocations of funds for grants to High and Very-High Need Study Areas.

### CATEGORY 3

Natural Lands, Open Spaces and Local Beaches, Water Conservation, and Watersheds Protection Program  
Grants, to be awarded through a competitive process.

## Revenue Collected By Funding Categories

(IN MILLIONS OF DOLLARS)

# MEASURE A REVENUE COLLECTED \$117M for 2025

Numbers on this chart reflect the revenue collected from Measure A direct assessments for the fiscal year. For details on allocation and expenditure, refer to Appendix I.

Note: The District's Board of Directors may allocate up to 2% of total funds for eligible projects each year (up to \$2.3M total for 2025).

# Highlights from the Fiscal Year of 2024-2025

**Over \$50 Million** in non-competitive Measure A grants awarded Allocations funds allocated

**70 Measure A-funded park projects** completed across LA County

**Over 600 Acres of new parkland** acquired through \$17 Million in competitive Measure A funding, half of which were awarded to communities with high and very-high park-need

**\$4.25 Million allocated** to help devastated communities recover, rebuild, and reimagine public parks and natural areas via RPOSD's **first-ever disaster recovery program: RESTORE** (Recovery and Emergency Support for Trails, Open Space, and Recreation).

**\$15 million invested** to date through RPOSD's Technical Assistance Program

**Over 22,000 residents**—mostly children and families—were connected to nature through the Recreation Access Program, with trips to the Angeles National Forest, LA Zoo, County beaches, local parks, and cultural destinations.

**Over 150 youth and veterans** trained in conservation and parks careers, earning hands-on experience, certifications, and access to life-changing apprenticeship opportunities.

## A Look Ahead...

What is on the horizon for Fiscal Year 2025-2026:

- ❖ Launch of RPOSD's new Grants Management System
- ❖ Release and award of next cycle's Measure A funding for three competitive grant programs:
  - ✦ Planning & Design
  - ✦ Natural Lands, Local Beaches, Water Conservation & Protection
  - ✦ Regional Recreation, Multi-use Trails & Accessibility
- ❖ Hosting of the LA County Park Funding Summit 2025 to bring together funders, park agency and community partners to highlight the breadth of local and state funding available for parks, open space, and climate resilience over the next year
- ❖ Launch of the LINK program, a mini-grant solicitation aimed at empowering non-profit organizations and community-based organizations (CBOs) across Los Angeles County

## Share A Park Story

Do you remember the thrill of running around the jungle gym at your local park?

Or perhaps you and your pup made some furry friends at the dog park?

Maybe you love cycling through the sunny trails of Los Angeles County?

We would love to hear all about your park adventures!

Every park has its own unique stories...

**...Yours could be featured in our  
newsletter or website!**

Just send us your story along with a photo, and let's celebrate the joy of parks together!

<https://rposd.lacounty.gov/our-stories/>

## Stay Connected!

Don't miss out on all the exciting updates and news! Subscribe to our mailing list via email or follow us on social media to stay in the loop and be part of our vibrant community. Our social media handle is **@rposd** and we are on Facebook, Instagram, and more. We can't wait to share all the great things we have in store for you!

Subscribe to RPOSDdevelopments, our quarterly newsletter!

## ***Introduction***

---

At the Los Angeles County Regional Park and Open Space District (RPOSD), we believe in transparency and accountability for every dollar spent under Measure A. Our commitment to the public shines through on our website, where you can explore detailed annual reports, independent financial audits, and insights from our public oversight advisory board. RPOSD takes pride in sharing comprehensive information about each funded project, including its location, footprint, objective, status, outcome, matching funds, and the relevant funding programs that make these initiatives possible.

Disclaimer: While RPOSD strives to deliver the most accurate and up-to-date information, please note that grant details may evolve due to unforeseen circumstances. If you have any questions or need further assistance, feel free to reach out to us at [info@rposd.lacounty.gov](mailto:info@rposd.lacounty.gov) or call (626) 588-5060.

## ***Technical Assistance Program***

---

One of RPOSD's main strategies in achieving park equity is the Technical Assistance Program (TAP). RPOSD established the program to provide support and free resources to eligible entities with jurisdiction over the High and Very High park-need areas in the County.

The first cycle of the TAP allocations wrapped in March 2025, marking a major milestone in RPOSD's mission to expand park access in communities with limited green spaces. In that round, RPOSD allocated over \$9 million in technical assistance funding to 30 TAP eligible agencies, funding a total of 42 projects to increase park access in high park-need communities.

The second cycle of TAP funding launched in mid-June 2025, providing an additional \$6.4 million for planning, design, and acquisition projects that will create new parks in the County's most park-deficient neighborhoods.

Park Need by Study Area	
VL	Very Low
L	Low
M	Moderate
H	High
VH	Very High

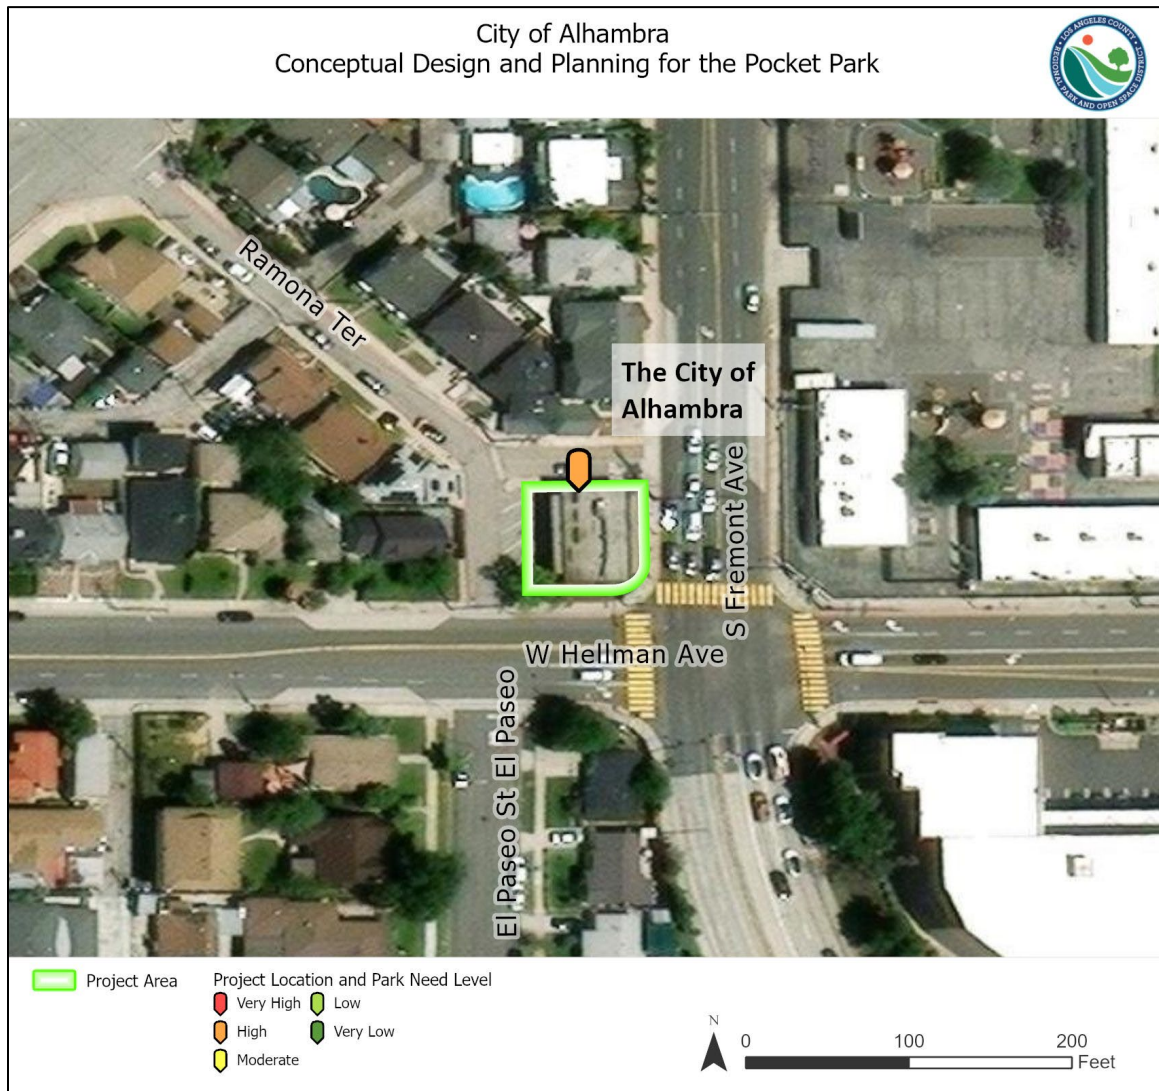

### Summary of FY24-25 Awarded Technical Assistance Program Grants

#	Study Area ID	Need Level	Grantee	Project Name	Awarded Amount

## ADOPTED

BOARD OF SUPERVISORS  
COUNTY OF LOS ANGELES

June 10, 2025

The Honorable Board of Directors  
County of Los Angeles  
383 Kenneth Hahn Hall of Administration  
500 West Temple Street  
Los Angeles, California 90012

1-P June 10, 2025

A handwritten signature in black ink that reads "Edward Yen".

EDWARD YEN  
EXECUTIVE OFFICER

Dear Directors:

### **ADOPT THE 2025 ANNUAL PLAN OF REVENUES AND EXPENDITURES, REALLOCATE AND TRANSFER PRIOR YEAR EXCESS FUNDS (ALL DISTRICTS - 3 VOTES)**

#### **SUBJECT**

Approval of the recommended actions will adopt the 2025 Annual Plan of Revenues and Expenditures of the Los Angeles County Regional Park and Open Space District (RPOSD).

#### **IT IS RECOMMENDED THAT THE BOARD:**

1. Find that the proposed actions are not subject to the California Environmental Quality Act (CEQA) for the reasons cited.
2. Adopt the 2025 Plan of Revenues and Expenditures providing Available Excess Funds (Excess Funds) in the amount of \$18,000 for Administrative Fund, which will be available in Fiscal Year (FY) 2025-26 (as shown in Attachment I).
3. Reallocate prior year Excess Funds in the amount of \$4,163,483 (as shown in Attachment II).

#### **PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION**

Section 21(j) of the 1996 Safe Neighborhood Parks Act (1996 Proposition) requires RPOSD to prepare and adopt an Annual Plan of Revenues and Expenditures following an independent audit. This plan must be approved by your Board before the fiscal year ends. The Annual Plan serves two key purposes:

First, the Annual Plan provides financial assurance, specifically that RPOSD manages its revenues and debt in a manner that ensures sufficient funding for the \$859,000,000 in capital outlay project expenditures identified in the Safe Neighborhood Parks Propositions of 1992 and 1996 (1992 and 1996 Propositions). These expenditures were required to be funded by the end of FY2008-2009. RPOSD has successfully repaid its bond debt incurred in funding these expenditures.

Second, the Annual Plan identifies any available excess revenues and designate the amount of such excess. Pursuant to the 1996 Proposition, these excess funds may be allocated for new projects, maintenance, and servicing of those projects, and administrative reimbursement to RPOSD.

Approving the recommended actions will formally adopt the 2025 Annual Plan of Revenues and Expenditures, authorize the allocation of \$18,000 in Available Excess Funds for administration in FY 2025-26, and approve the reallocation of \$4,163,483 in prior-year Excess Funds.

## AVAILABLE EXCESS FUNDS AND REALLOCATION OF FUNDS

The 1996 Proposition requires the Board to approve the Annual Plan of Revenues and Expenditures. Based on the external financial review prescribed by the propositions, an external financial consultant has determined that \$18,000 in Available Excess Funds will be allocated to the Administrative Fund for use in FY2025-2026.

As the 1992 and 1996 Propositions have sunset, no tax revenue is collected, with only minimal new revenues from fine and penalty payments.

RPOSD recommends your Board approve the reallocation of \$4,163,483 in prior-year Excess Funds (Attachment II). This reallocation ensures that uncommitted funds from previous years remain available for Board-approved expenditures. Excess revenue refers to the amount by which all revenues (excluding bond proceeds) exceed capital outlay, debt services, maintenance and servicing, and administrative costs. Available excess revenue is the portion of excess revenue from the prior year that can be used in the next fiscal year without impairing RPOSD's ability to fund all capital outlay projects or repay bonds.

Under the 1992 and 1996 Propositions, Excess Funds may be awarded to incorporated cities, non-profit organizations Joint Power Authorities from five areas of regional significance (Los Angeles River, Baldwin Hills, Santa Monica Mountains, Wildlife Corridor, and Ballona Creek), the County of Los Angeles, California State Agencies, and Federal Agencies. Proposition A Excess Funds are awarded at the discretion of each Board member for priority projects in your district. Regional Park and Open Space District (RPOSD) to meet the standard eligibility requirements. All funded projects must comply with public access and other obligations established in these Propositions.

## 2025 PLAN OF REVENUES AND EXPENDITURES

The attached Annual Plan (Attachment I) is a forecast of the financial activities of RPOSD through FY 2028-29. The Plan confirms that sufficient funds will be available to meet the obligations under the 1992 and 1996 Propositions.

The Annual Plan reflects actual revenues and expenditures for FY 1993-94 through FY 2023-24, estimated revenues and expenditures for FY 2024-25, and projections for FY 2025-26 through FY 2028-29. The projections for future years are based on the following assumptions:

- No further collection of assessment revenues except for fine and penalty payment;
- Expected interest rates and their impact on RPOSD investment earnings; and
- Anticipated capital outlay project expenditures.

## ALLOCATION OF EXCESS FUNDS

Based on the independent financial review, no new Excess Funds will be available for capital outlay projects in FY 2025-26. Attachment II shows the reallocation of unspent funds by Supervisorial District. Under the 1996 Proposition, Excess Funds shall be allocated or reallocated in each fiscal year until they are encumbered under project agreements. Table 2 also displays allocations of Maintenance and Servicing (M&S) for Excess-funded projects and Administration Fund.

Since 1999, RPOSD has declared \$392,614,160 in Excess Funds, with \$388,450,677 already allocated as of January 31, 2025. The remaining \$4,163,483 is still available for allocation in the current fiscal year and is included in the recommended reallocation (Attachment II).

### **Implementation of Strategic Plan Goals**

The recommended actions further the Board approved County Strategic Plan to Foster Vibrant and Resilient Communities (North Star 2), Focus Area Goal: Sustainability to focus on environmental justice, particularly in communities that have long endured industrial contamination, and “Our County” Sustainability Plan’s 12 broad, aspirational, and cross-cutting goals that embrace positive change and address sustainability issues regionally and to Realize Tomorrow’s Government Today (North Star 3), Focus Area Goal: Internal Controls and Process to strengthen our internal controls and processes while being cognizant of efficiency to continue good stewardship of the public trust and fiscal responsibility.

### **FISCAL IMPACT/FINANCING**

RPOSD’s Annual Plan, as recommended, has no impact on the County General Fund. All expenditures of RPOSD will be offset by its revenues through benefit assessments and special taxes.

With the sunset of the 1992 and 1996 Propositions, no new assessments are being collected, except for fines and penalties. As a result, RPOSD must prioritize administrative sustainability over declaring Excess Funds for capital projects. To ensure continued operations and implementation of Propositions of 1992 and 1996, RPOSD will use Parks Fund revenues to cover administrative costs first, before allocating funds for other uses; and preserve the Administrative Fund balance, ensuring long-term financial stability to support ongoing project maintenance as mandated.

Declaring small amounts of Excess Funds for capital projects or maintenance and servicing (M&S) is no longer practical due to limited post-sunset revenues. Small allocations, often less than \$100 per grantee, create significant administrative inefficiencies and tracking challenges. Instead, funds will be redirected to administrative needs, ensuring that RPOSD remains financially stable and capable of meeting its long-term obligations.

### **FACTS AND PROVISIONS/LEGAL REQUIREMENTS**

#### PLAN OF REVENUES AND EXPENDITURES

Section 21(i) and (j) of the 1996 Proposition require RPOSD to contract with an independent auditor

to complete an annual audit of RPOSD finances as of the end of each fiscal year. The audit report, issued by January 1 each year, serves as the basis for the Annual Plan of Revenues and Expenditures.

RPOSD is required to prepare the Annual Plan to cover the entire period of the RPOSD benefit assessment, which was first levied in FY 1993-94 and was extended by the 1996 Proposition through FY 2018-19. The Plan also includes an additional five-year period for anticipated delinquent revenue collections and grant administration expenditures, plus another five years to account for capital project completion timelines. The Annual Plan must demonstrate that sufficient funds are available to finance all capital projects required under the 1992 and 1996 Propositions; and that RPOSD meets its debt obligations.

With the unspent funds at the end of FY 2024-25, RPOSD will continue to administer projects, programs, and financial obligations beyond sunset of Propositions, in compliance with voter mandates.

#### DETERMINATION OF EXCESS FUNDS

Under Section 24(a) of the 1996 Proposition, Excess Funds are determined annually based on an independent audit. Excess revenue is the amount by which total revenues (excluding bond proceeds) exceed expenditures for capital projects, debt services, maintenance, and administration. Each year, the independent financial consultant determines the portion of Excess Funds that may be allocated in the following fiscal year without impeding the completion of capital projects required under the 1992 and 1996 Propositions and without affecting RPOSD's ability to issue or repay bonds. In each year, 80% of the Available Excess as identified in the Plan of Revenue and Expenditures approved by the Board shall allocate 80% of available excess funds to capital projects and 20% to maintenance and servicing for previously funded projects.

#### AVAILABLE EXCESS FUNDS FOR CAPITAL PROJECTS

In addition to the above section which requires 80% of Available Excess to be used for capital projects and 20% of Available Excess for maintenance and servicing, Section 24(b) of the 1996 Proposition requires that 10% of the capital project allocation be awarded through competitive grants. The remaining 90% be evenly distributed between: Regional open space and recreation projects, and regional park and recreation facilities, as determined by RPOSD. If Excess Funds allocated to capital projects are not encumbered within the fiscal year, they must be reallocated in the following year.

For the 2025 Plan, there are no Available Excess Funds for capital projects for FY 2025-26.

#### MAINTENANCE & SERVICING (M&S) FUND FOR PROJECTS FUNDED WITH EXCESS FUNDS

Section 24(a) requires that 20% of Excess Funds be allocated to maintenance and servicing of projects funded by these Excess Funds. Starting in FY 2013-14, after the minimum 80% allocation to capital projects expired, the Annual Plan began calculating M&S at 20% of Excess Funds to ensure long-term upkeep of completed projects.

For the 2025 Annual Plan, no new allocations are being made to M&S for Excess-Funded Projects in FY 2025-26. Given the sunset of the 1992 and 1996 Propositions and the limited remaining revenue from fine and penalty payments, prioritizing the Administrative Fund ensures RPOSD can continue maintaining and servicing previously funded projects over the long term.

## **ENVIRONMENTAL DOCUMENTATION**

The proposed administrative actions are not subject to the California Environmental Quality Act (CEQA) in that the actions do not meet the definition of a project according to Sections 15378 (b)(2) of the State CEQA Guidelines. This is because the actions are continuing administrative activities of government grants.

## **CONTRACTING PROCESS**

As required by the 1996 Proposition, RPOSD prepared the attached Annual Plan with the assistance of an independent financial consultant, the Public Resources Advisory Group (PRAG). The County of Los Angeles, Treasurer and Tax Collector, Office of Public Finance obtained Board approval to enter into a Master Agreement for financial advisory services with three firms selected through a Request for Proposals process. One of these firms, PRAG, had previously advised RPOSD regarding its bonding capacity for additional capital improvement projects and was retained for consultation on the 2000 through 2024 Plans. PRAG was retained pursuant to the Treasurer and Tax Collector's Master Agreement for consultation on the 2025 Plan.

## **IMPACT ON CURRENT SERVICES (OR PROJECTS)**

The attached Annual Plan has no impact on current services, nor does it authorize specific expenditures. It is merely a forecast of annual RPOSD financial activities through the anticipated life of the benefit assessment revenue.

## **CONCLUSION**

Your Board's approval of the attached 2025 Plan of Revenues and Expenditures prior to the end of the current fiscal year will meet the requirements of the 1996 Proposition.

For any questions on this Board letter, please contact Mark Glasscock at [mglasscock@rposd.lacounty.gov](mailto:mglasscock@rposd.lacounty.gov) or (626) 588-5031, or Johanna Hernandez at (626) 588-5370 or [bjl@parks.lacounty.gov](mailto:bjl@parks.lacounty.gov).

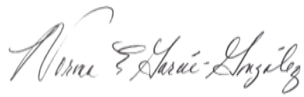

The Honorable Board of Directors

## **I. THE SAFE NEIGHBORHOOD PARKS ACTS - THE 1992 PROPOSITION A AND THE 1996 PROPOSITION A**

---

### **A. THE 1992 PROPOSITION A**

The Los Angeles County Regional Park and Open Space District (District) was formed and annual assessments are levied pursuant to the California Public Resources Code and the Landscaping and Lighting Act of 1972. On November 3, 1992, the District was established when voters approved the Safe Neighborhood Parks Proposition of 1992 (“1992 Proposition”). The District was established for the preservation of beaches, parks and wetlands; the construction, renovation and improvement of new and existing recreational facilities; and the restoration of rivers, streams and trails in the County. The District’s boundaries are coterminous with those of the County, encompassing 4,083 square miles and containing more than 2.3 million parcels. The District is governed by the County of Los Angeles Board of Supervisors, with the District’s day-to-day operations administered by the County Department of Parks and Recreation. The 1992 Proposition “capped” the assessment at \$9.39 per benefit point per year. The 1992 Proposition A assessment was first levied and collected by the District in Fiscal Year (FY) 1993-94. The 1992 Proposition allowed for assessment collections over a 22-year period with the final assessment scheduled for FY 2014-15.

### **B. THE 1996 PROPOSITION A**

On November 5, 1996, voters approved an additional assessment with the passage of the Safe Neighborhood Parks Proposition of 1996 (the “1996 Proposition”). The additional assessment supplemented the existing assessment to fund comparable improvements to those adopted in the 1992 Proposition. However, the 1996 Proposition amended the 1992 assessment “to the extent and with the effect that the portion of any vacant parcel of land, and the vacant portion of any partially improved parcel of land, in excess of two and one-half acres (2.5) shall not be assessed.” To clarify any inconsistencies between the two Propositions, the 1996 Proposition further added that:

“It is the intent of this resolution that the method of assessment with respect to both the 1992 Assessment and the Additional Assessment be identical in all respects. Any such discrepancies, differences or variations in the method of assessment shall be resolved in favor of the Engineer’s Report with respect to the Additional Assessment.”

Finally, the 1996 Proposition “capped” the additional assessment at \$5.07 per benefit point per year. The 1996 Proposition assessment was first levied and collected by the District in FY 1997-98. The 1996 Proposition A allowed for assessment collections over a 22-year period with the final assessment scheduled for FY 2018-19.

## C. THE ASSESSMENT/PLEDGED REVENUES

The District's budget and accounting systems have been structured in accordance with the revenue flow and accounting requirements provided by the Propositions. The District's primary revenue source is the assessments that are levied annually on each of the approximately 2.3 million parcels within the District (except for uninhabited agricultural lands, cemeteries, utilities and other exempt parcels). Assessment revenues and interest earnings are generally distributed in the following manner: a minimum of 80% (but not more than 85%) of the assessments will be used for the payment of debt service on bonds, notes and other obligations issued by the District and for the direct, capitalized costs incurred on approved Projects; 15% of the assessments will be used for the maintenance and servicing of completed Projects; and approximately 5% of the assessments will be used to pay for the District's ongoing administrative expenses.

Section 23 (a) of both Propositions state that in each of the first twenty (20) years after the first assessment were levied and collected, a minimum of eighty percent (80%) of all proceeds of the assessment levied and collected shall be used for capital outlay purposes.

Section 21 (b) of the 1996 Proposition provides: Consistent with subsection (a) of Section 23, proceeds of the Additional Assessment shall be used for payment of actual administrative costs associated with carrying out the purposes of the District, by the District and recipient Public Agencies.

Section 21 (a) of the 1992 Proposition provides for payment of actual administrative costs but due to restrictions under Section 23 (a) where a minimum of 80% of revenues collected has to be spent on capital outlay projects during the first 20 years of the Proposition, and 15% has to go to maintenance projects, only 5% can be allocated to administrative costs.

FY 2012-13 was the 20<sup>th</sup> year of the 1992 Proposition. The 2013 Plan recommended to the Board of Supervisors changes in the distribution of revenues for the 1992 Proposition, and the 2014 Plan started implementing the changes in the distribution of assessment revenues after the 20<sup>th</sup> year. The 2025 Plan continues to implement the changes. Accordingly, administrative expenses, which has exceeded 5% of the revenues and is projected to do the same in the future, has been reimbursed for actual costs beginning FY 2013-14 from the 1992 Proposition and beginning in FY 2017-18 from both Propositions. With the restriction for capital projects having been lifted, the distribution of revenues will be as follows:

- (1) Reimbursement of actual administrative costs;
- (2) Up to 20% to maintenance and servicing fund; and
- (3) The balance, if any, to capital projects including payment of debt service.

## **D. RATE AND METHOD OF ASSESSMENT/BENEFIT POINTS**

The rate and method of apportionment for use in levying annual assessments for various categories of property area, as set forth in the Engineer's Report for County of Los Angeles Landscaping and Lighting District No. 92-1, was adopted by the Board of Supervisors on March 17, 1992, and modified on June 18, 1996, to include the additional assessment. Pursuant to the Engineer's Report, the level of each assessment is based on the size and use of each parcel and the resulting benefit each parcel would receive from the proposed Projects. The estimation of such benefit was quantified in benefit points. Pursuant to the Proposition, the annual rate of each assessment was limited to \$9.39 per benefit point for the 1992 Proposition and \$5.07 per benefit point for the 1996 Proposition. The annual assessment for any parcel was levied at the amount to equal the annual rate determined by the Board of Supervisors multiplied by the number of benefit points applicable to each parcel. In each year, the assessments were levied at the maximum allowable annual rates.

The overall level of the District's assessments had increased as parcels were subdivided, and vacant property was developed. Properties owned by public agencies, such as cities, the County, the state or the federal government, were not assessed except when such property had not been devoted to public use. Rights-of-way owned by utilities, railroad operating rights-of-way, uninhabited agricultural lands, cemeteries and certain other properties were also exempt from the assessments. Some individuals who qualified for the California Property Tax Postponement Program, which generally provides for the postponement of certain payments by individuals 62 years of age or older of property taxes attributable to residential dwellings, also qualified for postponement of payment of assessments levied by the District. Allegations of errors of assessment, including circumstances that had not precisely fit the intent of the Propositions, were reported to a committee appointed by the County Board of Supervisors. This committee was responsible for and made recommended corrections or adjustments that were consistent with the concept, intent and parameters of the Propositions and the District's program of levying and collecting the assessments. Except for any proposed corrections and adjustments of the committee that were appealed to and adjusted by the County Board of Supervisors, the proposed corrections and adjustments were incorporated into the assessment roll.

---

## II. BENEFIT POINTS INVENTORY

---

The calculation of assessment revenues involved a review and inventory of parcels, use codes, and determination of benefit points within the District. The first step in this process was to determine the current inventory of benefit points.

The benefit point inventory provided by the Auditor-Controller is summarized by assessor use codes in Appendix A. For purposes of the revenue forecast, the assessor use codes for regular parcels are grouped into six major categories: developed residential, developed non-residential, undeveloped residential, undeveloped non-residential, recreational, and institutional land uses.

The information provided by the Auditor-Controller for the tax roll in FY 2018-19 showed that the cumulative benefit points total 5,622,317 from the 2,361,322 parcels existing in the tax rolls of Los Angeles County. The cumulative benefit points produced a revenue total of \$28,505,149 for FY 2018-19.

As mentioned in the previous section on Rates and Methods of Assessment, properties owned by public agencies, such as cities, the County, the state or the federal government, were not assessed except when such property is not devoted to public use. Rights-of-way owned by utilities, railroad operating rights-of-way, uninhabited agricultural lands, cemeteries, common areas, sliver parcels, and certain other properties were also exempt from the assessments. The District did not submit for enrollment assessments that are less than \$0.01. Additionally, the District did not submit for enrollment assessments for parcels for which the acreage information needed to calculate benefit points could not be determined by the Department of Public Works Flood Control Database. Parcels with missing information were initially identified by the Auditor-Controller in a Benefit Points Exception Report; most of these exceptions fall into two categories: 1) invalid or missing use codes and 2) missing land acreage. Notwithstanding, District staff had developed and implemented a system to procure the missing information for the exceptions, thereby allowing for benefit-point calculations and enrollment submission for the majority of the exceptions (many of the parcels for which information is not procured are no longer in existence). These aggressive efforts of District staff had considerably reduced the cumulative number of exceptions.

---

### III. PROJECTION OF REVENUES AND RELATED ASSUMPTIONS

---

#### A. ASSESSMENT REVENUE ASSUMPTIONS

Based on information provided by the Los Angeles County Auditor-Controller, the District adjusted the assessment assumptions to account for appeals, parcel enrollment losses, delinquencies, and County collection/administrative fees. These assumptions are summarized below:

1. Appeals Rate. The Propositions allow for adjustments to assessments based on inaccurate acreage, inaccurate assessor use codes, conservancy properties, etc. Based on actual appeals data for FY 2017-18, the appeals rate was equal to 0.192% of the gross assessment levy. Assessment appeals were shown as adjustments to the tax roll. Where adjustments could be included in the normal system-generated tax billing, they were included in an “override” file that would be run in the following tax year.
2. Parcel Enrollment Losses. The report adjusted the assessment assumptions to account for losses which occurred between the Auditor-Controller’s submittal of direct assessments to the County and the reconciliation of parcels which were actually enrolled on the secured tax roll. Based on the existing Auditor-Controller program calculation of benefit points and the actual amounts enrolled for FY 2018-2019, the revenue loss after adjustment was \$2.45 or 0.000009%.
3. Delinquency Assumptions. For purposes of this report, the delinquency rate based on the FY 2017-18 tax ledgers of 1.935% was used. In the revenue projections, the report has included the standard 10% redemption penalty fee as well as an average annual delinquency interest rate of 18%. The report has used the County’s existing assumptions regarding delinquency recovery rates of 91% over 5 years based on a “sliding scale” of 45% recovery for Year 1, 22% for Year 2, 11% for Year 3, 9% for Year 4, and 4% for Year 5. The actual County delinquency interest rate is 1.5% per month (or 18% annualized). However, the 9% delinquency interest rate assumption is premised on straight-line collections through the FY. Thus, delinquency interest rates are assumed to be 9% for collections of past due assessments of the first year, 18% for the second year, 27% for the third year, 36% for the fourth year, and 45% for the fifth year. Note that the report has not made any adjustments in revenue projections for the Property Tax Postponement Program, the 5-Year Payment Plan, or for any revenues generated by County foreclosure actions. The result of these conservative assumptions was to assure that the report’s cash flow projection was non-speculative in nature.
4. Auditor-Controller Collection and Administrative Fees. The Auditor-Controller charges the District for services from the Systems Division and another from the Tax Division to put the District assessments in the tax rolls. Additional accounting and auditing charges are also billed by the Auditor-Controller for various services

rendered to the District. To date, all these services were borne entirely by the District administration fund and does not affect collection of revenues.

## **B. INTEREST REVENUE ASSUMPTIONS**

District funds earn interest at the rates paid in the County of Los Angeles Treasurer's Pooled Investments. Revenue from interest on District funds is projected for future years by applying lower interest rates to projected fund balances. When the District was using bond proceeds to fund projects, the assessment funds were accumulating and earning more interest. The District effectively expended all remaining bond proceeds in FY 2004-05. As a result, projects have been solely funded by assessment revenues since FY 2005-06. As the District pays down the balance of the projects funded by the propositions, the assessment revenue project fund is decreased, hence interest earnings from the reduced principal are also reduced.

## IV. PROJECT COSTS AND PHASING ASSUMPTIONS

The update to the expenditure program consisted of three separate steps. The first step was to update the program with actual expenditures for prior years. The second step consisted of updating the expenditure program with estimated actual expenditures for the current fiscal year. Finally, the third step involved projecting the remaining expenditures for the life of the program.

The forecast for remaining project expenditures were further adjusted to take into account current encumbrances of \$4,540,290 for such expenditures as of December 31, 2024, and commitments to grants totaling \$8,212,110 as of December 31, 2024. The current encumbrance reflects funds set aside to cover the committed grants for outside agencies which have not yet been spent. For the purposes of the projection, the amount of future encumbrances is assumed to remain constant as long as the remaining expenditures are higher than that amount and to decline to match remaining expenditures thereafter. The effective result is equivalent to an assumption that project expenditures are accelerated slightly, and the approach minimizes the possibility of underfunding the unpaid grant balances in any year. Table 1 below shows historical actual expenditures through FY 2023-24, estimated actual for FY 2024-25 and FY 2025-26. The table shows that bond proceeds were phased out in FY 2004-05. It also shows that some grants are projected to be spent through FY 2024-25 and FY 2025-26 but may extend further into the future.

---

## V. EXCESS FUNDS

---

As the capital funding requirements have been satisfied, allocations for grants in furtherance of the purposes of the Propositions can be made from “excess” revenues.<sup>1</sup> Under the 1996 Proposition, the County’s independent financial consultant annually determines what portion of the excess revenues from the prior year can be made available for other projects in the next fiscal year without impairing the District’s ability to finance all of its planned capital outlay projects or its ability to issue or repay bonds, notes or indebtedness. According to the 1996 Proposition, 80% of the “available excess” shall be made available to the Board of Supervisors for its use on other projects.

The 1996 Proposition, in Section 21 (j), requires that the District consult with an independent financial consultant in preparation of each year’s Plan of Revenues and Expenditures. For the 1997 baseline Plan of Revenues and Expenditures, a consulting team, Taussig Associates, was retained by means of a Board-authorized solicitation of proposals, and the same team was employed for the preparation of the 1998 and 1999 Plans. The District, subsequently through a contract with the County of Los Angeles Treasurer and Tax Collector, engaged the services of the Public Resources Advisory Group. This group served as an independent financial consultant for the years 2000 through 2024. This year, the District’s consulting services were also provided by the same group.

The 1996 Proposition, in Section 24 (a), also requires the independent financial consultant to determine what amount of excess funds, if any, from the prior year’s audited financial statements are available for allocation. The resulting excess funds may be made available in the next fiscal year without impairing the District’s ability to service its debt and without impairing the District’s ability to finance all \$859,000,000 in capital outlay projects. The resulting excess funds called “Available Excess,” as determined each year by the independent financial consultant, are then available for use by the District to fund eligible capital outlay projects.

With the lifting of restrictions imposed by Section 23 (a) on capital projects beginning the 21<sup>st</sup> year of the 1992 Proposition (FY 2013-14) and 1996 Proposition (FY 2017-18), Section 24 (a) can be implemented fully to provide 20% of 80% of Excess Fund determined by the consultant for maintenance and servicing (M&S) of projects funded by Excess Funds. The 2025 Plan reflects the changes in projection of revenues allocated to Excess Funds. In the calculation of maintenance and servicing fund for Excess Funds-funded projects, revenues accumulated and part of reserves in prior year declaration of excess funds were excluded. Only new revenues collected after the 20<sup>th</sup> year is subject to calculation of M&S for Excess Funds-funded projects. The Plan reserves 20% from 20% of Available Excess, previously utilized as a safety measure to provide fiscal responsibility during uncertain times, for the administrative fund to help defray shortfall in District revenues after sunset of both Propositions.

<sup>1</sup>“Excess” is defined in Section 24(a) of the 1996 Proposition as the excess of (1) assessment revenues collected pursuant to this resolution and the 1992 Order plus investment earnings thereon, and any other revenues of the District (excluding bond proceeds or any other evidences of indebtedness, but including collections of delinquent assessments and interest and penalties thereon), all cumulative to the date of the independent audit, over (2) amounts expended for capital outlay (excluding capital outlay funded with bond proceeds or other borrowed funds), and amounts expended, or allocated for maintenance and servicing, administrative costs and debt-service, all cumulative to the date of the independent audit.

Table 2 below depicts past allocations and projected allocations of the “available excess” for grants, assuming that District expenditures in future years are as projected. If expenditures of the District lag behind projections, as they have consistently done in the past, then additional allocations of excess funds will be recommended next fiscal year. Interest earnings for excess funds revert to the assessment grant fund and form part of the base in the determination of available excess for the following year.

It should be noted that with the expiration of Proposition 1996 in FY 2018-19, the sources of available revenues with which to declare available excess is coming to an end. As a result of adjustments discussed above to assist the District, and ultimately the County, to recover administrative costs of continuing to diligently monitor and to manage unexpended funds and projects in perpetuity, the declaration of future available excess funds will depend on changes in administrative expenses and the actual delinquencies and interest and penalties thereon to be collected. Should these costs rise and/or collection of delinquencies and related revenues materialize differently than projected, it is quite possible that there may be no available excess funds to be declared in future years.

**Table 2**  
**Excess Funds Deposits (x \$1000)**

<b>Fiscal Year</b>	<b>Excess Funds Determined</b>	<b>Maintenance &amp; Servicing Fund</b>	<b>Administration Fund</b>
1999-00	8,000

**NEW EXCESS FUNDS FOR DEPOSIT IN FY2025-26**

**UNALLOCATED FUNDS RECOMMENDED FOR REALLOCATION**

\* Highest priority regional open space and recreation projects

**4,163,483**

**PROP A – Proposed Allocations as of January 31, 2025**

<sup>1</sup> Include assessment collected, delinquencies, interest and penalties and investment earnings in assessment fund.

<sup>2</sup> Total Assessment-Related Revenue (100%) less M&S Allocation (15%) less Admin Allocation (5%). After twenty years of Prop A, the Admin Allocation will follow the actual cost of Admin fund if it is more than 5% of the Total Assessment-Related Revenue. Likewise, M&S allocation will be increased to 20%. As a result, revenue to fund the capital projects and debt service can go below 80%.

<sup>3</sup> Project and Debt Service Allocation (80%) less amounts expended for debt service and capital outlay excluding capital outlay funded with bond proceeds or other borrowed funds.

<sup>4</sup> Provision of fund to ensure the District's ability to fully finance all capital outlay projects funded by Prop A 1992 and 1996 by the end of fiscal year 2008-09 and ability to issue or fully repay bonds, notes or other evidences of indebtedness, in future years.

<sup>5</sup> Portion of the Excess determined by the Independent Financial Consultant as available in the next fiscal year without impairing the District's ability to fully finance all capital outlay projects funded by Prop A 1992 and 1996 by the end of fiscal year 2008-09 and ability to issue or fully repay bonds, notes or other evidences of indebtedness, in future years. Maximum 80% of this may be allocated.

<sup>6</sup> 64% (80% of the 80%) of Available Excess shall be allocated for capital projects.

<sup>7</sup> 16% (20% of the 80%) of Available Excess shall be allocated for maintenance and servicing of those capital projects funded by the Available Excess. This M&S allocation will be implemented after the twenty years of Prop A 1992.

<sup>8</sup> The Plan reserves the entire 20% unallocated Available Excess for the District's Administrative Fund.
