LA COUNTY
**Homeless
Services
& Housing**

About HSH

For the first time, there is one department in Los Angeles County entirely focused on preventing and addressing homelessness. The LA County Board of Supervisors voted to create the Department of Homeless Services & Housing (HSH) in April 2025, and the department officially launched January 1, 2026.

Our goal is simple and urgent: move people into housing and deliver the services they need while, in the process, earning trust in our communities.

All Together Now

With the new department, you can expect more **collaboration**, **coordination**, and **clear accountability**.

HSH aligns resources for housing and homeless services with:

- People with lived experience of homelessness
- Service providers
- Other County departments
- Cities and Councils of Government
- Unincorporated communities
- Tribal governments
- Governing bodies

System Coordination
& Engagement brings
programs,
providers, public
systems, people
with lived
experience and
communities
together to create a
robust system to end
homelessness

Strengthening the Homeless Response System through Partnerships

System Coordination Team (ECHO Team)

System Coordination / ECHO 101

What System Coordination does?

- Convene partners to identify bottlenecks and standardize solutions
- Provide clear and transparent information about the homeless system
- Escalate cross-agency barriers and drive system improvement and follow-through

What System Coordination does not?

- Directly control program management or slots/beds/units
- Case Conferencing
- Promise same-day fixes when the barrier requires contracts, funding, or policy changes

On October 18, 2022, the Board of Supervisors adopted a motion directing ARDI to work with the Los Angeles Homeless Services Authority (LAHSA) to assess gaps in the County social service system and the relationship between the rise in **Latinos Experiencing Homelessness (LEH)**.

Task Force on Latinx PEH Report

- Published in 2025
- Includes 64 recommendations focused on:
 - Preventing Homelessness
 - Improving Financial Security
 - Improving Service Delivery
 - Removing Impediments to Wellness
 - Serving Vulnerable Subpopulations – Immigrants, Indigenous Migrants, Seniors, TGI/LGBTQ+
- Board motion directed recommendation implementation in May 2026

Seeking Community Input

The May 2026 Board motion directs the County to partner with Latino and immigrant-serving CBOs [and people with lived experience] to identify service delivery gaps for each recommendation.

System Resource Maps

LA COUNTY
**Homeless
Services
& Housing**

Purpose of System Map

- Clarity about programs and resources that are available as of July 1, 2026
- Information about services available across the County for subpopulations
- Transparency about eligibility, referral pathways and match decision making for resources- including key shifts in FY27
- A tool to support system navigation efforts

Framework for System Map

- Program or resource name
- Who's eligible
- How do they access it or make referrals
- Who Matches and how is it prioritized
- Services Provided

Categories for System Mapping

Pillar

What It Means

Connect

Resources that help people experiencing homelessness access information, navigation, outreach, coordinated entry, and connections to services.

Interim Housing

Temporary housing and shelter options that provide immediate safety and stability while individuals work toward permanent housing.

Permanent Housing

Long-term housing solutions, including permanent supportive housing, rapid rehousing, affordable housing, and other pathways to housing stability.

Prevention

Programs and services that help individuals and families avoid homelessness

Stabilize

Ongoing supports that help people maintain housing, improve well-being, increase self-sufficiency, and prevent returns to homelessness.

Example of System Map

What's Next

- Maps will include attachments with contact details for some resources
- Final System Maps for Adults, TAY and Families will be distributed widely in July 2026
- *Potential of adding slots/capacity to System Maps*
- Special populations System Maps will be created in Summer 2026
- System Maps will be updated as resources or information changes
