## Summary Corrective Action Plan

The intent of this form is to assist departments in writing a corrective action plan summary for attachment to the settlement documents developed for the Board of Supervisors and/or the County of Los Angeles Claims Board. The summary should be a specific overview of the claims/lawsuits' identified root causes and corrective actions (status, time frame, and responsible party). This summary does not replace the Corrective Action Plan form. If there is a question related to confidentiality, please consult County Counsel.

Date of incident/event:	March 27, 2015
Briefly provide a description of the incident/event:	On March 27, 2015, a County tree in the parkway in front of 3927 Croton Avenue fell and injured several people who were washing a dog in the front yard.

1. Briefly describe the root cause(s) of the claim/lawsuit:

A work order request was submitted months before the tree fell to the Tree Trimmer Working Supervisor to further evaluate the tree. This work order was not updated, completed, or closed out in a timely manner.

The subject Silver Maple tree was inspected as part of a County administered Tree Trimming Contract. The contractor notified Public Works on January 20, 2015, that the Silver Maple tree needed to be removed. Public Works did not remove the dying tree.

There was a substantial amount of ivy on the trunk of the subject tree. The base (or root flair) of a tree needs lots of air and ivy prevents it from getting air. Clinging ivy cuts off needed circulation, contributing to the decay of the tree.

2. Briefly describe recommended corrective actions:

(Include each corrective action, due date, responsible party, and any disciplinary actions if appropriate)

Immediately following the incident, RMD Urban Forestry Crews were instructed to remove trees previously identified for removal in a timely manner but no later than 4 weeks.

The Public Works Tree Program was clarified to create a greater sense of urgency to remove diseased and distressed trees identified for removal.

Tree Program instructions reflecting the above were committed to written memorandums on February 17 and 22, 2016, and reviewed with Tree Program staff. These instructions will also be incorporated into the Parkway Tree Planting and Maintenance Guidelines by October 1, 2016.

Appropriate disciplinary measures were dispensed to the Tree Program Senior Civil Engineer, a Tree Trimmer District Supervisor and a Tree Trimmer Workign Supervisor.

By November 1, 2016, Public Works will develop a formal procedure for communicating and documenting tree trimming contract scope changes. As well, Public Works will incorporate a checklist of basic tree-related hazards to standardize all tree inspections for in-house work and for work performed through tree trimming contracts.

Public Works has begun to notify adjacent property owners to remove climbing vines on parkway trees.

3. Are the corrective actions addressing Department-wide system issues?

- ☐ Yes - The corrective actions address Department-wide system issues.
- ☒ No - The corrective actions are only applicable to the affected parties.
