2. Pest Exclusion

Pest Exclusion – High Risk

Authority: Mandated program – California Code of Regulations (CCR), Section 3160.

Program Result: Provided protection for agricultural and natural resources by effectively enforcing both State and federal regulations established against the introduction and spread of exotic pests and diseases. County agricultural inspectors and dog teams sought out and, at need, interdicted unauthorized and non-compliant agricultural shipments at the Los Angeles Airport and other high-risk facilities, such as postal carriers, express carriers, air and sea ports, and produce specialty markets. Shipments infested with quarantine pests and/or in violation of established quarantines are required to be treated, returned or destroyed under the supervision of County agricultural inspectors.

Program Result: Provide protection for the California commercial citrus industry and private citrus trees by preventing the spread of ACP, host of the Citrus Greening Disease, by effectively enforcing State regulations established against the introduction and spread of the ACP by means of commercial citrus movement. County agricultural inspectors seek out and gain compliance from Citrus packers, handlers, sellers, and transporters and hold unauthorized and/or non-compliant consignments to control the spread of this pest. Shipments in violation of established quarantines are required to be treated, returned or destroyed under the supervision of County agricultural inspectors.

5. Seed

Authority: Mandated program – CCR, Section 52361.

Program Result: Ensured accurate identification and viability of seeds available for purchase by consumers and industry. Poor quality seeds can cost farmers and home gardeners alike considerable amounts of time, money and resources by way of reduced yields, poor crop quality, contamination by weeds, or other unwanted species. By enforcing the California Seed Law labeling requirements, the Department is able to ensure that consumers receive the desired product.

Operational Measures				
Number of AHB complaints received	1,653	1,586	1,405	1,450

Explanatory Note(s):

(1) Complaints are handled by phone. If they cannot be resolved in this manner, an inspector will make a site inspection. All AHB colonies are treated and removed by property owner or an abatement notice is issued requiring owner to remove. The Department's goal as the overseeing agency is to ensure each complaint is resolved.

9. Pesticide Use Regulation

Authority: Mandated program – CFAC, Section 22872 (B)(5), Section 11501, 2272 and 2279.

Provides direct services, regulatory oversight and local administration of pesticide use enforcement; develops an annual statistical report of Los Angeles County's agricultural production.

Total episodes investigated	291	314	315	305
Pesticide related incidents	257	161	171	165

Explanatory Note(s):

(1) State mandated requirements establish the core of the County's pesticide regulatory program. All episode investigations must be completed within 120 days (the overall State achievement is 80%). A reduction in pesticide related illnesses would indicate a successful overall regulatory program. However, the majority of the reported illnesses associated with pesticide usage in the County emanates from the businesses that regularly use antimicrobials (hotels, restaurants, hospitals, etc.) which are not routinely regulated.

10. Pest Detection

Authority: Mandated program – CFAC, Section 5101, Division 1, Chapter 3, Article 1, Section 401, Page 1 "A," Page "B."

Operational Measures				
New felony filings	11,317	8,748	10,698	11,000
Total felony workload	19,333	14,189	14,228	15,000
New misdemeanor filings	11,624	13,328	16,644	17,000
Total misdemeanor workload	20,606	22,296	21,142	22,000

Percent of requests for services handled ⁽³⁾	100%	100%	100%	100%

Explanatory Note(s):

- (1) The "Workload Difficulty Index" is derived from the following factors: 1) the quantity and relative difficulty of cases carried by an attorney from month to month; 2) the quantity and relative difficulty of new cases assigned to an attorney each month; 3) the quantity and relative difficulty of court appearances made by an attorney each month; and 4) the quantity and relative difficulty of trials performed by an attorney each year.
- (2) The Department's recommended minimum continuing legal education training goal is a program designed to encourage attorneys to meet their California State Bar MCLE requirement under more stringent guidelines specifically tailored to the demands of a criminal defense specialist working in a public defender's office. For an attorney to meet this goal they must attend and complete, annually, a minimum of six hours of "live" MCLE-approved course work presented by either the Alternate Public Defender (APD) and/or the Public Defender. This course work may be part of, or in addition to, the State Bar's mandated 25 hours of training over a 3-year period (no annual minimum hours required). By encouraging attorneys to: 1) more evenly spread their MCLE training over the State Bar's 3-year compliance period; 2) attend actual seminars instead of reviewing taped programs; and 3) focusing over two-thirds of their coursework on training specifically designed for public defenders, the APD will enhance the level of representation provided to all clients.
- (3) Measures the Department's ability to accept appointment in cases where a client qualifies for the APDs indigent defense services. Any measure below 100 percent represents a Service Availability Deficit (SAD) and indicates insufficient staffing to meet demand for service.

Percent of requests for services handled ⁽³⁾	100%	100%	100%	100%

Explanatory Note(s):

- (1) The “Workload Difficulty Index” is derived from the following factors: 1) the quantity and relative difficulty of cases carried by an attorney from month to month; 2) the quantity and relative difficulty of new cases assigned to an attorney each month; 3) the quantity and relative difficulty of court appearances made by an attorney each month; and 4) the quantity and relative difficulty of trials performed by an attorney each year.
- (2) The Department’s recommended minimum continuing legal education training goal is a program designed to encourage attorneys to meet their California State Bar MCLE requirement under more stringent guidelines specifically tailored to the demands of a criminal defense specialist working in a public defender’s office. For an attorney to meet this goal they must attend and complete, annually, a minimum of six hours of “live” MCLE-approved course work presented by either the Alternate Public Defender and/or the Public Defender. This course work may be part of, or in addition to, the State Bar’s mandated 25 hours of training over a 3-year period (no annual minimum hours required). By encouraging attorneys to: 1) more evenly spread their MCLE training over the State Bar’s 3-year compliance period; 2) attend actual seminars instead of reviewing taped programs; and 3) focusing over two-thirds of their coursework on training specifically designed for public defenders, the APD will enhance the level of representation provided to all clients.
- (3) Measures the Department’s ability to accept appointment in cases where a client qualifies for the APDs indigent defense services. Any measure below 100 percent represents a SAD and indicates insufficient staffing to meet demand for service. n/a = not available.

Authority: Non-mandated, discretionary program.

The Organizational Grants and Professional Development program provides financial support, technical assistance, and professional development services to 400 nonprofit arts organizations annually. Programs assist and strengthen nonprofit organizations and municipal programs to provide arts services to enrich the lives of Los Angeles County residents. All applications undergo a rigorous peer panel review and scoring process to determine the quality of proposed projects and services, which are then approved by the Board of Supervisors. Grantees are provided additional opportunities, which include in depth leadership training for executive, artistic and managing directors; workshops on advancement and capacity building topics such as human resources, marketing, board development and fundraising; grant application workshops; and scholarships for arts administrators to take courses at the Center for Nonprofit Management and Long Beach Nonprofit Partnership, and to attend local conferences. In FY 2015-16, the Board of Supervisors authorized a three-year demonstration program called the Community Impact Arts Grant (CIAG). The CIAG program provides financial support for exemplary arts projects produced by nonprofit organizations whose primary mission is outside of the arts.

Explanatory Note(s):

(1) The Department's timeline goals are based upon average turnaround times for those projects that are able to proceed without interruption due to either the need to respond to a Board motion or a permanent or temporary departure of key audit staff. As such, these general standards are the Department's internal goals and are not mandated by any outside or internal requirements. The following is an example of the typical timeframe: 1) provide the contractor with a draft report 11 weeks after fieldwork completion; 2) meet with the contractor within three weeks of providing the draft report; 3) allow three weeks to revise the report and issue the final draft; and 4) allow the contractor 30 days to respond to the findings listed in the final report.

4. Countywide Disbursements Services

Authority: Mandated program – California Government Code Sections 911, 6001, 5.40, 5.42, 26390, 29741-29742, 29800-29803, 29806 and 29850-29853; California Welfare and Institutions Code Section 15000; and County Codes 2.10 and 408.020.

The Countywide Disbursements Services program is responsible for issuing (mailing) payments on behalf of all County departments and certain special districts. The program is also responsible for retaining supporting payment records (e.g., warrant registers and negotiated warrants, etc.) to support expenditure information.

Program Result: County departments, special districts, vendors, and constituents receive accurate and timely payments and the recipients of County payments understand from the warrant the goods or services for which they are being paid.

Number of 1099 forms issued	15,607	15,755	14,991	15,511

Explanatory Note(s):

- (1) Affected by production issues, Superior Court (August 2016) and a building power outage (July 2015) caused the mailing of warrants to be delayed. Percentages are not reflective of special mail runs which are held for additional processing by issuing department/program (i.e. boarding homes and institutions, uniform allowance, etc.).
- (2) On 6/5/2017, began using the USPS Address Forwarding Service, which will reduce the number of Post Office returns.
- (3) Participation in the Direct Deposit program has increased due to the implementation of the Vendor Self Service program (implemented in 2013), the efforts made to solicit participation by the Direct Deposit Unit, and the release of the Direct Deposit website streamlining the application process. The Direct Deposit Mandate will be implemented in FY 2017-18, which will see an increase in vendor and property tax payments.
- (4) B-Notices are usually received in October for prior tax year.

5. Countywide Payroll Services

Authority: Mandated program - United States Government Code Title 26; California Government Code Sections 11550-11563, 28101-28160, 30051-30056, and 30061; and County Code Titles 5 and 6, and Title 2, Section 2.10.020.

Explanatory Note(s):

- (1) Clients include every County employee, every County department, IRS, SSA, State FTB, Los Angeles County Employees Retirement Association, and all other deduction agencies including credit unions, benefit providers, child support recipients, garnishment creditors, etc. Overall, results were positive. Most popular recommendations were to improve staff knowledge and provide follow-up training on eHR topics and procedures.
- (2) A majority of payments are made five days after each semi-monthly payroll. Premiums with contracted insurance carriers are made on the first of the month with the remaining balance paid on the 25th of the month.

6. Office of County Investigations (OCI) and Children's Group Home Ombudsman

OCI

Authority: Mandated program - United States Federal Sentencing Guidelines Section 8B2.1(b)(5); California Penal Code Section 830.13; and County Code Section 2.10.

OCI is responsible for conducting criminal and administrative investigations of alleged fraud and misconduct committed by County employees, contractors, and vendors. OCI responds immediately to all Board special requests for investigations, and investigates and reports on allegations of fraud reported to the County Fraud Hotline or referred by other sources. In addition, OCI provides countywide consulting services, policy development, training, and fraud monitoring and prevention services.

Program Result: County departments operate more efficiently and collaboratively in detecting, preventing, and stopping fraud. Employees, vendors, and the public are informed of mechanisms for reporting misconduct within County government, resulting in increased detection of fraud and reduced fiscal losses and liability to the County. OCI's functions enhance public trust in County government operations and promote fiscal best practices.

Number of Board special requests received	2	1	1	6
Number of County employees trained on fraud awareness or investigation techniques	550	1,044	187	700

Explanatory Note(s):

- (1) In prior years OCI engaged in individual, proactive fraud detection investigations (i.e., using data mining technology, sting operations, etc.). During FY 2016-17, OCI staff were integral contributors to a workgroup developing a data lake infrastructure, and redeployed investigative resources to develop a fraud risk scoring model as part of the data lake project's proof of value pilot. This model was used to proactively rank and identify vendors and contractors with fraud risk factors, or identify those that require additional follow-up. This project will eventually result in a more comprehensive continuous monitoring capability and obviate the need for ad-hoc preventative audits.
- (2) Completed investigations include cases that are substantiated, not substantiated, or closed/not investigated after completion of a preliminary review.

Children's Group Home Ombudsman

Authority: Non-mandated, discretionary program.

The Children's Group Home Ombudsman's primary purpose is to serve as an advocate and problem solver for children placed in group homes who believe that their personal rights have been violated. The Ombudsman is independent from the agencies that place children in homes. Children are encouraged to contact the Ombudsman, via the hotline e-mail, or in person during outreach visits, who will look into the issues that are raised and provide assistance in resolving problems.

Program Result: Children's requests for Ombudsman assistance result in resolution of their issues in a timely manner and ensure their rights are protected.

Explanatory Note(s):

(1) Based on those who responded to the annual survey.

(2) Rating scale is as follows: below 60% = Unsatisfactory, 60-69% = Improvement Needed, 70-79% = Competent; 80-89% = Very Good; and 90% and above = Outstanding.

(3) Due to the implementation of the eCAPS Procurement Module, this reflects only accounting-based encumbrances.

8. Systems Programs (Countywide Information Technology (IT) Development and Maintenance and IT Network and Personal Computer (PC) Support Services)

Countywide IT Development and Maintenance Program

Authority: Mandated program support for separately reported mandated programs (i.e., Accounting and Reporting, Property Tax, Countywide Payroll, and Disbursements programs).

The Countywide IT Development and Maintenance program develops, installs, and maintains automated systems which support operations of the Department and provide business services for all other departments through countywide programs which include the following major automated systems: eCAPS; eHR; Secured Tax Roll (STR) System and property tax systems.

- (1) Numbers and percentages are for Property Tax Systems, the only remaining legacy system.
- (2) Uptime is a composite of all Auditor-Controller applications.
- (3) Redefined as IT major development and/or production support/maintenance projects for the Enterprise systems, i.e., eCAPS, eHR, eTax, Information Delivery.

IT Network and PC Support Services

Authority: Non-mandated, discretionary program.

While the IT Network and PC Support Services are not specifically mandated, IT's many functions support the performance of both mandated and non-mandated programs. IT develops, installs, and maintains the departmental network of servers and desktop computers; monitors network connectivity; implements and maintains various software applications relating to messaging and office productivity; implements backup and disaster recovery procedures to ensure business continuity; implements security features mandated by the Chief Information Security Officer; and supports the Administration program.

Program Result: Auditor-Controller staff has reliable access to necessary work files and the departmental network, and supporting services and applications (e.g., printing, email, Records Management System, Help Desk support, etc.) are consistently available during normal work hours.

Number of service calls to the Help Desk	5,480	5,133	4,908	5,000

Explanatory Note(s):

- (1) Lower percent attributable to the following factors: a) higher number of service calls; b) since migrating from physical servers to eCloud virtual servers and the Internal Services Department (ISD) Countywide E-Mail System (CES), some issues require ISD involvement, which lengthens response time; and c) one staff reassigned to assist on high priority eForms projects.
- (2) Lower percent attributable to the following factors: a) Since migrating from physical servers to eCloud virtual servers and ISD CES, some issues require ISD involvement, which lengthens response time; and b) one staff reassigned to assist on high priority Office 365 assignments.

9. Property Tax

Authority: Mandated program - State Controller OMB 87; California Government Code Sections 30051-30056 and 30067; California Revenue and Taxation Code Sections 75, 1647-49, 4655, 4658, 5102 and 5452-5454; and California Health and Safety Code Division 24.

The Property Tax program determines property tax allocations; distributes and accounts for property taxes collected; and issues overpayment refunds to taxpayers. Throughout the year, additions and changes to the tax roll are processed which result in new or corrected tax bills or refunds. Taxes once collected are apportioned and distributed to nearly 2,300 local agencies (one percent general tax levy, debt service, and direct assessment accounts) including the County, cities, school districts, education revenue augmentation fund, special districts, and successor agencies.

Program Result: Property owners in Los Angeles County receive an accurate, timely, and understandable property tax bill or refund, and all affected agencies receive an accurate apportionment and distribution of property tax.

Community prosecution includes a number of programs, three of which are highlighted below.

The Abolish Chronic Truancy (ACT) program enforces compulsory education laws by focusing on parents' responsibility and accountability to get children to (and keep them in) school. The Juvenile Offender Intervention Network (JOIN) program provides swift intervention (before court filing) through an accountability-based program for juveniles ages 10-17 who have committed a fileable, non-violent, first-time offense. The multi-agency Code Enforcement Unit, active since 2005, has made it possible for County inspectors to gain entry into previously inaccessible properties, thereby allowing inspectors to issue citations, and/or refer cases to the District Attorney's Office for investigation, remediation and/or prosecution.

Program Result: The ACT Program has improved school attendance for elementary school age children by an average of five school days per participating child/per school year. JOIN has decreased the number of Juvenile court cases countywide and has successfully diverted youth into a program of supervision and accountability with very low recidivism rates. Code Enforcement programs have increased remediation of code violations by property owners in unincorporated areas of Los Angeles County.

Ford Theatre

DEPARTMENTAL PROGRAM SUMMARY AND PERFORMANCE MEASURES

1. John Anson Ford Theatre (Ford)

Authority: Non-mandated, discretionary program.

The Ford is one of the oldest and historically significant performing arts venues in Los Angeles. Located in a 32-acre County regional park, the Ford is operated by the County of Los Angeles through a partnership between the Department of Parks and Recreation and the Ford Theatre Foundation, its nonprofit steward. It presents a diverse roster of events representing music and dance styles reflective of the communities that comprise Los Angeles County. Ford programs nurture artists, arts organizations and audiences through initiatives designed to encourage participation in the arts.

Program Result: County residents receive access to affordable, high quality performing arts programming that reflects the cultural and geographic diversity of the County. By animating and activating the historic amphitheatre of a County park, the Ford also strengthens the capabilities of performing artists and arts organization in the County, and brings different segments of the community together for transformative arts experiences that inspire, empower and ignite cultural exchange.

Performance Measures	Actual 2014-15	Actual 2015-16 ⁽²⁾	Actual 2016-17	Projected 2017-18
Indicators				
Number of onsite events ⁽¹⁾	53	n/a	57	85
Total onsite season attendance ⁽¹⁾	28,026	n/a	32,403	44,000
Average ticket price ⁽³⁾	\$30.00	n/a	\$45.00	\$47.00

Number of off-site events ⁽⁴⁾	13	36	24	21

Venue utilization as a percentage of days available during the summer season	80%	n/a	83%	83% ⁽⁵⁾
Average attendance per event as a percentage of capacity	62%	n/a	64%	68% ⁽⁵⁾

Explanatory Note(s):

- (1) Number of onsite events in fiscal year (FY) 2014-15, FY 2015-16 and FY 2016-17 was significantly impacted by the Ford construction project. The building schedule reduced the length of the season which reduced the number of events that the Ford could present, lowering season attendance from prior years' levels. FY 2017-18 represents nearly a full season of events from July 14, 2017 through June 30, 2018.
- (2) No events took place at the Ford in 2015-16 due to construction. The Ford instead supported off-site programming through its Ford on the Road initiative which included 11 concerts and 36 engagement programs (Jam Sessions), which collectively represented 23 cultural traditions. Attendance for these programs was estimated at 11,000. The Ford sponsored the concerts and no ticket sales were collected; all engagement programming was offered free to the public.
- (3) Increase in average due to more events including a higher-priced VIP ticket tier. Ford events nearly always include a more accessibly priced tier of tickets (\$25-\$35). The Ford also continues to offer a series of free participatory events and low priced family programming that is free for children and \$5 for adults to ensure that County residents have access to quality performing arts programming.
- (4) Supported through a grant from the Irvine Foundation, the Ford has presented its Jam Sessions programming in offsite arts engagement events in community hubs. These events are free and are curated in partnership with a host organization. The Community Jam Sessions serve between 2,000 and 4,000 participants each season. Number of events fluctuates with the level of funding received to support this programming year to year.
- (5) During the summer season, the Ford is activated with performances, rehearsals, and engagement events nearly six days every week from May through October. Average attendance is projected to increase in 2017-18 as the Ford continues to build visibility and grow core audience.

Evidence control is based on departmental policies and procedures as well as guidelines set forth by the American Society of Crime Laboratory Directors/Laboratory Accreditation Board-International Organization for Standardization (ASCLD/LAB-ISO) whose accreditation the Department holds [now called the American National Standards Institute-American Society for Quality (ANSI-ASQ) National Accreditation Board (ANAB)] has signed an affiliation agreement with ASCLD/LAB to form a merger).

Program Result: The Department’s DMEs, outside investigating agencies and the judicial system will receive accurate, timely, and effective laboratory reports. Physical evidence controlled by the Forensic Science Laboratories is handled so that the integrity and chain-of-custody is maintained and documented. The DMEs, families of decedents, outside investigating agencies and the judicial system receive state-of-the-art toxicology analyses as well as expert interpretation of those analyses.

Number of tests per criminalist	5,035	5,754	6,355	4,182

Explanatory Note(s):

- (1) There was a decrease in the percentage of criminalistics reports available to the medical file within 30 working days from the day the case was handled and the number of toxicology tests performed in fiscal year (FY) 2015-16 due to the decrease in laboratory staff and the need to send casework to an outside laboratory in order to keep up with caseload and with Name standards.
- (2) There was a decrease in the number of toxicology tests performed in FY 2015-16 due to the decrease in laboratory staff (9) and the need to send casework to an outside laboratory compared to FY 2014-15, when there were eleven (11) criminalists conducting toxicology tests. In FY 2016-17, the laboratory had ten (10) criminalists conducting toxicology tests; and fifteen (15) projected for FY 2017-18. The Forensic Science Laboratories is almost fully staffed with one vacancy remaining, which is the Supervising Criminalist I (SCI) for the toxicology laboratory. Currently there is an acting SCI for the toxicology laboratory.
- (3) The number of cases handled by criminalists requiring a written report includes all field criminalistics written reports in addition to in-house gunshot residue and tool mark analyses completed written reports.

4. Forensic Medicine

Authority: Mandated program – State Chapter 498-77 Coroner’s State Hospital Patient Death, Chapter 284 Statutes of 2000 Postmortem Examinations; Unidentified Bodies, Human Remains (Government Code, Sections 27460 to 27540, 68096.1, 68097; County Code Chapter 2.22, Sections 2.22.010 to 110)

The Forensic Medicine program is responsible for the professional medical investigation and determination of the cause and manner of each death handled by the Department. Forensic pathologists evaluate sudden unexpected natural deaths, and unnatural deaths such as deaths from firearms, sharp and blunt force trauma, etc. In addition, physicians are frequently called to court to testify on cause of death and their medical findings and interpretations, particularly in homicide cases.

Program Result: The families of decedents, outside investigating agencies, and the judicial system will have access to timely, accurate and complete autopsy reports and final death certificates after the cause and manner of death have been determined.

5. Operations Bureau – Forensic Services Division – Decedent Transportation

Authority: Mandated program – State Chapter 498/77 Coroner’s State Hospital Patient Death, Chapter 284 Statutes of 2000 Postmortem Examinations: Unidentified Bodies, Human Remains (Government Code, Sections 27460 to 27540, 68096.1 and 68097. Health and Safety Code 7100 to 7114, and County Code Chapter 2.22, Sections 2.22.010 to 110).

The Forensic Services Division is responsible for providing 24/7 decedent transportation from death scenes and hospitals to the Forensic Science Center for the County. The Forensic Services Division is also responsible for crypt management services such as the accurate marking of decedents with identification tags, the processing of each individual decedent’s paperwork, and the proper storage of the decedent’s body while maintained at the Forensic Science Center. Lastly, the Forensic Services Division is responsible for the release of the decedent from the facility to a private mortuary or the County morgue for final disposition.

Program Result: The families of decedents have access to the timely transportation of their deceased loved ones to the Forensic Science Center so that case examinations can be scheduled and the release of the body to a private mortuary can be done as soon as possible. The families of decedents also have a well-managed, well maintained storage facility for their deceased while they await examination and subsequent release.

Performance Measures	Actual 2014-15	Actual 2015-16	Actual 2016-17	Projected 2017-18
Indicators				
Percent of decedents transported from hospitals to the Forensic Science Center within 48 hours of reporting ⁽¹⁾	87.59%	88.16%	88.99%	89.00%
Operational Measures

Average number of bodies stored weekly	292	412	409	370

Explanatory Note(s):

(1) Forensic Services Division staffing varies significantly due to injury on duty (IOD), long-term illness, jury duty, vacation and other vacancies during any fiscal year. Staffing levels affect the support that can be provided to the Investigations Division and private mortuaries and ultimately, the workload achieved.

6. Forensic Medicine - Photo and Support Division - Autopsy Support Services

Authority: Mandated program – State Chapter 498/77 Coroner’s State Hospital Patient Death, Chapter 284 Statutes of 2000 Postmortem Examinations: Unidentified Bodies, Human Remains (Government Code, Sections 27460 to 27540, 68096.1 and 68097. Health and Safety Code 7100 to 7114, and County Code Chapter 2.22, Sections 2.22.010 to 110).

The Forensic Photo and Support Division is responsible for providing technical support services in the form of autopsy assistance, radiographs, photography and specialized graphics support to DMEs, prior to, during and after post-mortem examinations. Additionally, they provide field capable photographers to document high-profile death scenes and major incidents.

Program Result: DMEs are given adequate and timely technical support to complete autopsy services as well as radiology and photographic support. Law enforcement agencies and the judicial system are provided with photographs, x-rays and special graphics production for use in criminal and civil courtroom testimony. Families are provided with a measure of closure with respect to the death of their loved one.

Number of photographic images produced (includes prints and images on compact discs produced)	98,712	102,630	105,200	120,000

Explanatory Note(s):

- (1) From 11/01/16 – 10/31/17, 1,564 cases have been scanned. The images per scan are too numerous to count. Counts reflect only film and paper images. Based on incoming mode (homicide, hit and run, sudden infant death syndrome, substance use disorders and John Doe cases).
- (2) Forensic Technician staffing levels vary significantly due to IOD, long-term illness, jury duty, vacation and other vacancies during any fiscal year. Staffing levels affect the level of support that can be provided to the DMEs and the workload achieved.
- (3) The transition to a 100 percent digital x-ray system has significantly increased the ability to capture more images with no increase in cost for capture and storage. Paper images for use by the DME at tableside are produced at approximately one quarter of the cost of actual film images. Use of CT scanner began on 8/31/2016 and through 10/31/2017; 1,808 cases have been scanned.

Explanatory Note(s):

- (1) Data for FY 2016-17 based on International Classification of Disease (ICD) ten codes as compared with ICD nine codes for previous years. Data reflects clients served in Short Doyle Medi-Cal outpatient facilities in FY 2016-17. Data is sourced from two systems: County Department of Mental Health (DMH) Integrated Behavioral Health Information System (IBHIS) and the legacy DMH Integrated System (IS). Throughout this 3-year period, various DMH providers were transitioning from the IS to IBHIS. Since data capture related to co-occurring disorders differs to some degree between the two systems, some of the year-to-year variance observed is likely attributed to data capture rather than true changes in prevalence. FY 2015-16 data has been updated to reflect more complete data capture than was at-hand for reporting of these measures last year.
- (2) Other field services like Full Services Partnership (FSPs) and Assertive Community Treatment (ACT) will be providing crisis intervention and 24/7 services. Psychiatric Mobile Response Teams (PMRT) will be providing intervention after other field services determine the needed requirement for 5150.
- (3) Measures reflect both daytime and after hours PMRT response times.
- (4) Cost of outpatient care and average annual cost per outpatient client items reference mode '15' claims only. Outpatient client is defined as having received outpatient, fee-for-service outpatient or Administrative Service Organization (ASO) network outpatient services.
- (5) ASO network outpatient services is defined as coordination and management of specialty mental health services rendered by providers in ASO's network to Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) Medi-Cal eligible children and youth placed outside of the County.
- (6) Figures reflected for FY 2014-15 and FY 2015-16 exclude ASO service-based data.

The program provides intensive intervention in a residential setting over an average stay of six months for youth committed by the Juvenile Court. Each minor receives a multidisciplinary assessment that includes mental health, health, educational, and family assessments that allow for treatment to be tailored to meet individual needs. The camps provide structured work experience, vocational training, education, tutoring, cognitive-based interventions, athletic participation, and various prosocial and family engagement activities. 4. Juvenile Suitable Placement

Authority: Mandated program with discretionary services level – California W&I Code, Section 16516.

Provides, through suitable placement, a dispositional option for the Juvenile Court for minors whose delinquent behavior may be explained by a contributory family environment and/or emotional/psychiatric problems. DPOs work with the minor and the family to identify needed services and prepare case plans to assist them with accessing the services. Through monitoring the minor's progress, the DPO is able to determine what long-term living arrangement would be in the best interest of the minor and develop/implement a permanency plan to return the minor to a safe and stable environment, such as reunification with family, emancipation, placement in a relative/non-relative home, or long-term foster care.

Program Result: Youth are provided with the ability to be in an environment best suited, when ordered out-of-home placement by the Court.

Number of participants evaluated for eligibility to SSI by DPSS	20,505	18,579 ⁽³⁾	15,132	17,000 ⁽⁶⁾

Explanatory Note(s):

- (1) Based on California's \$15.00 per hour minimum wage schedule. The California minimum wage increased to \$10.50 per hour on January 1, 2017, for businesses with 26 or more employees, and then will increase each year until reaching \$15.00 per hour in 2022.
- (2) Number indicates the SSI approvals for GR participants only.
- (3) Adjusted actual number/data.
- (4) The number of projected SSI approvals is based on previous year data from the Fiscal Operations Division, revised SSI Advocacy processes, and GR caseload trends.
- (5) For FY 2017-18, the Department of Mental Health Clinicians co-located at the 14 GR District offices have absorbed the Needs Special Assistance (NSA) screenings formerly conducted by Social Workers and Adult Protective Services staff. As a result, more GR individuals are determined either permanent NSA with a duration more than 12 months or temporary NSA with a duration that can last up to 12 months. This longer period of NSA status has resulted in a reduction of mental health assessments completed in comparison to prior fiscal years.
- (6) The number of projected SSI evaluations is due to the transition to the Department of Health Services contract for the SSI Advocacy Program. The number is commensurate with the Contractor Performance Standards.

Current Planning is a local program related to the implementation of zoning regulations adopted by the Los Angeles County (County) pursuant to State and federal enabling legislation. Zoning regulations are the mechanism by which the County's General Plan is carried forth and that are embodied in Title 22 of the County Code. Zoning of land and development standards constitute the County's use of its police power to ensure the proper distribution of land uses for the protection of public health, safety, and welfare. Due to their unique characteristics, certain land uses require discretionary permitting that is accomplished through the filing of various types of zoning and planning applications. These discretionary actions include changes in zoning and to the General Plan, in addition to implementation of subdivision regulations adopted by the County pursuant to State and federal enabling legislation. Subdivision regulations are embodied in Title 21 of the County Code, and regulate the creation of lots or units for sale, lease or financing purposes.

Program Result: The timely processing of applications, both from the private and public sectors, results in confidence in the County's service delivery by project applicants, as well as a healthy and robust economy for the County by allowing for a variety of land uses to serve the needs of all County residents. Appropriate review of those applications, including ensuring consistency with the County General Plan and other applicable provisions, allows for resolution of conflicts, protects the community from incompatible land uses, and protects existing natural resources wherever possible.

DEPARTMENTAL PROGRAM SUMMARY AND PERFORMANCE MEASURES

1. County Services

Authority: Mandated program with discretionary service level – Sections 26600-26777 of California Government Code.

The County Services Budget Unit represents the transfer of the Office of Public Safety into the Sheriff's Department, as approved by the Board of Supervisors back in December 15, 2009. Comprised of both professional and sworn staff, the County Services Budget Unit's responsibilities include the following: oversight and monitoring of 68 client facilities wherein 65 of the facilities are provided weapons screening with metal screening devices; specialized law enforcement services at County-owned or operated hospitals, healthcare centers and properties; and law enforcement services at all 177 County parks, golf courses, and recreational areas that comprise the Los Angeles County Department of Parks and Recreation.

Program Result: These services provide for a safer environment for visitors and employees of County parks, County hospitals and clinics, and the Departments of Public Social Services, Mental Health, Probation, and Children and Family Services.

2. Court Services

Authority: Mandated program with discretionary service level – Sections 26600-26777 of California Government Code.

The Court Services Budget Unit funds the Courts Services Division, which provides security services to the Superior Court, serves civil process papers throughout the County, and participates in the recovery of DNA from qualified inmates. The County's Superior Court system is the largest in the State with 463 judicial officers located in 38 different courthouses, which handles over 2.4 million filings each year. More than one-third of the 58,000 felony cases heard annually involve second or third-strike defendants. The Division's mission seeks to ensure a safe and secure environment for the public accessing the courts, employees, other personnel performing duties within the courts, and inmates appearing in court while in the custody of the Sheriff. The security services performed by the Division are funded by the State through the trial court security account which pays for sergeants, court bailiffs, lockup deputies, custody assistants, and perimeter security services.

Assembly Bill (AB) 1058 better known as the Child Support Commissioner Program (CSCP), require each superior court to provide sufficient child support commissioners to hear these cases, as specified, thereby imposing a State-mandated local program. The CSCP is federally funded through a Superior Court grant.

An additional service contract was negotiated with the Los Angeles Police Department (LAPD) to recover costs for conducting the release process of inmates from court which, in the past, LAPD personnel were accomplishing.

In 2011, AB 109 Parole revocation hearings were newly implemented. Parolees who committed a violation after September 30, 2011, will serve their revocation time in county jail instead of prison for up to 180 days. The responsibility of parole revocations for inmates released to County supervision shall be with the local courts. The responsibility of parole revocations for inmates released to the Division of Adult Operations' supervision will continue under the Board of Parole Hearings until July 1, 2013, at which time the entire parole revocation process shall be a local court-based process.

In addition to court security services, the Division is responsible for the service and enforcement of several hundred thousand pieces of civil and criminal process annually. This includes the seizure and sale of personal and real property, evictions, and the service of Temporary Restraining Orders (TRO) related to domestic violence.

Program Result: The Division ensures that people with business in County courthouses, including employees of the courthouse and in-custody inmates, experience a safe and secure environment. The Division's contract with the court is fulfilled when on-duty security personnel levels reach 98 percent of the contracted personnel levels on a daily basis. By fulfilling the contract, the Department avoids an overpayment situation wherein the Department would be required to reimburse the courts due to a lack of compliance. The Division's civil component served and executed court process, including the timely and efficient service of TROs which provides an increased level of security and safety to the public. Finally, the Department's contract with LAPD continues to provide funds which support additional personnel in the lockup facilities to ensure the proper release of LAPD new booking inmates.

3. Custody

Authority: Mandated program with discretionary service level – Sections 26600-26777 of California Government Code.

The Custody Budget Unit provides funding for both the Custody Services Division's General Population and Specialized Programs. These two divisions are responsible for the County's jail system for the care, custody, security, and rehabilitation of all sentenced and pre-trial inmates housed within the Sheriff's Department jail facilities.

Program Result: The inmates and staff within jail facilities will be provided a safer environment by reducing assaults, minimizing disturbances, decreasing attempts to make jail-made weapons and alcohol (Pruno), and monitoring County property. Additionally, food and medical services are provided more effectively and efficiently.

Explanatory Note(s):

- (1) Statistical information is not currently available. Method for tracking statistics is currently being revamped.
- (2) Reported counts reflect actual cases counted by primary statistical codes. Counts do not include adjustments to previously reported crimes and may vary slightly from Uniform Crime Reports. These numbers reflect all Custody facilities, Court Services Division and Custody transportation. Information is time sensitive and subject to change upon further analysis.
- (3) A major inmate disturbance generally involves the majority of inmates in the affected area and disrupts normal operations to a large portion of the affected area. There may be serious injuries to inmates, and/or substantial damage to the facility. Significant direct officer intervention, which may include additional resources, is required to resume normal operations. A major disturbance may also require either a modified or full lockdown of the facility, based on the watch commander's discretion.
- (4) A minor inmate disturbance involves a group of inmates (three or more). It may disrupt normal operations in a localized area, have little impact on the rest of the facility, require direct officer intervention to resolve the incident, and normal operations resume quickly. A minor disturbance may result in injuries and minor damage to the facility. However, damage and injury are not required elements of a minor disturbance.
- (5) Numbers do not include miscellaneous felonies (former stat code 187 or Reporting Districts which correspond with Custody Investigative Services or Los Angeles County Medical Center). Numbers are higher compared to previous fiscal years due to an improved tracking system.
- (6) Refers to inmate housing locations.
- (7) Percentage release is at ten percent which depletes the number of participants to be placed on the program. Less fully sentenced inmates meet the criteria to enter this program (charges that qualify).
- (8) Data refers to round trip food deliveries to stations per day.
- (9) Food Services no longer tracks data as of fiscal year (FY) 2015-16.
- (10) The monthly average inmate population is computed by taking the inmate population total, published daily by the Population Management Bureau, and averaging by the number of days in the month.
- (11) Facilities count includes both DVTel and non-DVTel sites under the Custody Division only.
- (12) Count is for the Central Housing Unit South and Central Housing Unit North.
- (13) Title 15 Minimum Standards for Local Detention Facilities Manual. Safety checks shall be conducted at least hourly through direct visual observation of all inmates. There shall be no more than a 60-minute lapse between safety checks. There shall be a written plan that includes the documentation of routine safety checks.

4. Detective

Authority: Mandated program with discretionary service level – Sections 26600-26777 of California Government Code.

The Detective Budget Unit funds the Detective Division which consists of seven bureaus: Fraud and Cyber Crimes, Homicide, Human Trafficking, Major Crimes, Narcotics, Special Victims, and Task Force for Regional Auto Theft Prevention (TRAP).

The Detective Division exists as a separate entity from station detective assignments. Investigators assigned to the Division are the most experienced and tenured criminal investigators of the Department. Major areas of expertise include homicides, human trafficking, narcotics, child abuse, financial (fraud), high tech crimes, auto theft, organized crime, and kidnapping.

The Division is responsible for the investigation of crimes, identification and apprehension of criminals, recovery of property, identification and preservation of evidence, and for assisting in the preparation of cases for court. The Division also, when requested, provides investigative resources to other law enforcement agencies throughout the County.

Program Result: Criminal offenders are convicted, sentenced to jail or prison, and their criminal assets seized.

- (2) Leases are initiated with space request evaluation (SRE) forms. The indicator reveals how many SRE's are received. These requests require Chief Executive Office approval before a lease agreement can be established.
- (3) Information was not submitted for the prior fiscal year but has now been updated.
- (4) The number of cases in FY 2016-17 was less than projected due to training of all examiners on a new DNA kit as mandated by the Federal Bureau of Investigations.

- (5) Number of cases projected is less than previous year's total due to anticipated time for training on all examiners on STRmix software.
- (6) Effective time to examine firearms cases was reduced due to examiners covering Cadre of Administrative Reserve Personnel assignments for themselves or other staff due to vacation or illness.

6. Medical Services

Authority: Mandated program with discretionary service level – Sections 26600-26777 of California Government Code.

The Medical Services Budget Unit provided funding for health care services to all inmates housed within the Los Angeles County Sheriff's Department jail system. Services included physicians, nurses, dentists, pharmacies laboratories, radiology, and health information management services. It should be noted, all physicians and providers transitioned to the Department of Health Services/Correctional Health Services (DHS/CHS) on July 1, 2016, and all clinical and non-clinical medical staff transitioned to DHS/CHS on May 1, 2017. The Custody Budget Unit continues to provide security for all sentenced and pre-trial inmates housed within the Department's jail facilities while being transported and examined.

Program Result: The mission of the Medical Services Bureau was to provide all individuals requesting or requiring medical services within the custody of the Department to be treated as patients with respect and dignity, and at the highest level of care.

7. Patrol

Authority: Mandated program with discretionary service level – Sections 26600-26777 of California Government Code.

The Patrol Budget Unit provides funding for the North, South, Central and East Patrol Divisions along with the Transit Policing, Special Operations and Countywide Services Divisions.
