The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
500 West Temple Street
Los Angeles, California 90012

Dear Supervisors:

FISCAL YEAR 2015-16 RECOMMENDED COUNTY BUDGET (3-VOTES)

The 2015-16 Recommended Budget proposes new funding and positions to address critical issues that the Board is working to resolve. This includes improvements to the criminal justice system and jail facilities, reforms in the child welfare system, and improvements in patient care as the implementation of the Affordable Care Act (ACA) continues. The budget also includes recommendations to allocate funding to strengthen the County's financial reserves and continues our investment in the construction and refurbishment of community facilities, including libraries, parks and beaches.

This Board letter recommends that \$99.2 million new ongoing funding be added to the budget to address mental health needs in County jails (\$23.5 million), curb excess use of force at County jails (\$64.5 million), continue the creation of a diversion - inmate treatment program (\$10.0 million) and address Americans with Disabilities Act compliance in County jails (\$1.2 million). We also recommend that 542.0 budgeted positions be added to the Department of Children and Family Services' budget to reduce caseload and improve child safety. As the Health Department continues with the implementation of the ACA, we recommend the addition of 351.0 positions that will provide nursing services and 30.0 positions for the Community Health Worker initiative.

BUDGET ECONOMIC OUTLOOK

The current economic outlook for the nation and California shows positive growth for the remainder of 2015 and is expected to hold steady in 2016. While the housing market has seen rapid gains in prices as well as a surging demand in recent years, growth has slowed and has begun to level off in the coming year. The labor market continues to improve, with the County expecting to surpass its pre-recession peak for the number of jobs during 2015-16. Furthermore, the unemployment rate is expected to continue its trend downward into 2016.

The economic outlook, although positive, continues to face challenges and uncertainties. Current economic indicators show steady domestic growth. However, the far-reaching effects of instability in global markets may potentially hinder the sustainability of the national and local recovery. Additionally, the overall impact from the recent significant decline in oil prices remains unclear. While declining prices are expected to result in higher consumer and business spending, government entities that rely on oil-related revenues, such as the gasoline tax, sales and use taxes, and property taxes collected by the County, face reduced funding sources. Nevertheless, the economic recovery is expected to continue, and we will continue to monitor economic indicators and analyze their implications throughout the budget process.

Our office, in consultation with the Assessor's office, is forecasting a 5.05 percent increase to the 2015 tax assessment roll. Since this forecast is preliminary and the Assessor is scheduled to issue its official forecast in May 2015, and release the final roll in July 2015, our office will continue to work with the Assessor's office to update our property tax projections accordingly. We are also forecasting a 5.0 percent increase in statewide sales tax growth.

BUDGET OVERVIEW

The Board of Supervisors' commitment to adhere to the County's long-standing conservative budget practices allowed the County to weather the Great Recession without major service reductions, layoffs, or furloughs. As a result of the recession, the County employed a strategy that, along with other measures (i.e. curtailments and efficiencies), used one-time budget solutions as a bridge until the economy strengthened. The use of one-time funding solutions to balance the budget ended in 2013-14, and for the third year in a row, we are recommending a budget with no budget gap, meaning that the ongoing costs are funded entirely with ongoing revenues.

At this initial stage of the annual budget process, we find that the amount of estimated revenue growth, coupled with unavoidable cost increases and the need to fund critical programs will, once again, challenge us to maintain the balance between fiscal sustainability and service delivery. In a departure from many of the County's budget proposals over the past five years, which focused on closing budget gaps, recovery and budget stabilization, the 2015-16 Recommended Budget provides funding to address many of the critical programmatic issues the Board is working to resolve.

Program Changes

Outlined below are some of the significant program changes that are financed with locally generated revenues.

- **County Jails Mental Health Needs** – Adds \$23.5 million in ongoing funding to the Provisional Financing Uses (PFU) budget unit. This amount, along with \$10.0 million in ongoing funding included in the 2014-15 Final Adopted Budget, brings the total ongoing amount up to \$33.5 million for mental health issues at County jails. On June 4, 2014, the Department of Justice (DOJ) issued a report outlining fifty-three (53) recommendations that pertain to mental health services and suicide prevention issues in the County jail system. This Board letter recommends that \$45.3 million be set aside in the PFU budget unit to address the DOJ recommendations pending negotiations with DOJ and Board approval.

- **County Jails Excessive Use of Force** – Reflects \$64.5 million in ongoing funding and \$10.5 million in one-time funding, for a total of \$75.0 million to be set aside in the PFU budget unit to address allegations of excessive use of force in the jails. The Chief Executive Office will continue to work with the Sheriff's Department to determine the level of resources that are required and present final recommendations to the Board in June.
- **Comprehensive Diversion – Inmate Treatment Program** – Supplements \$20.0 million in one-time funding in the PFU budget unit with \$10.0 million of ongoing funding for this program. This funding is set aside in anticipation of the District Attorney's report on a Comprehensive Criminal Justice Mental Health plan. Although General Fund dollars are being set aside, our office continues to explore other outside revenue sources to fund this program.
- **Animal Care and Control** – Sets aside a total of \$3.6 million in funding (\$2.7 million ongoing and \$0.9 million in one-time funding) in the PFU budget unit for the Palmdale Animal Care Center, which is scheduled to open in late Spring of 2016. This amount includes both one-time start-up costs and the day-to-day operating costs for the new Care Center.
- **Fire-Lifeguards** – Restores \$1.5 million in funding that was curtailed from the Fire-Lifeguard budget during the Great Recession. This funding is being set aside in the PFU budget unit and will be moved to the Fire-Lifeguard budget unit in a later budget phase.
- **In-Home Supportive Services (IHSS) Program** – Increases funding for the IHSS program by \$5.5 million based upon State law that requires counties to adjust the maintenance of effort base amount by an annual 3.5 percent inflation factor.
- **General Relief (GR) Caseload** – Reflects a \$21.4 million reduction in the Department of Public Social Services' Assistance budget unit due to an expected 8.7 percent decline in the GR caseload.
- **Unincorporated Area Stormwater Program** – Sets aside \$6.5 million in the PFU budget unit, along with \$2.3 million already included in the Capital Projects/Refurbishments budget, to help comply with the 2012 adopted National Pollutant Discharge Elimination System (NPDES) permit in the unincorporated areas.

- **Budget and Fiscal Policies** – In accordance with County budget and fiscal policies, we are recommending that \$11.6 million be assigned to Appropriation for Contingencies and \$5.0 million be added to the County Extraordinary Maintenance budget unit to help address deferred maintenance needs throughout the County.

In addition, we are recommending important program changes that are financed with outside revenues sources, primarily with State and federal funding.

- **Children and Family Services** – Reflects appropriation and revenue increases of \$66.9 million, and the addition of 542.0 budgeted positions, to further reduce caseloads and improve child safety. The new budgeted positions will be allocated to the following areas:
 - **Child Welfare Services** – Adds 444.0 line-operational positions, including 250.0 Children’s Social Workers (CSWs), 70.0 Supervising CSWs, and 124.0 line staff to support these additional items to reduce caseloads;
 - **Specialized Programs** – Increases 58.0 positions, including 16.0 CSWs, 10.0 Supervising CSWs, and 32.0 line staff to provide specialized services that support child safety;
 - **Foster Youth Programs** – Adds 22.0 positions to develop an employment training program for foster youth; and
 - **Administrative Support** – Augments 18.0 positions for critically needed administrative support.
- **Investment in Mental Health Wellness Act (SB 82)** – Reflects a \$111.5 million increase in appropriation for the Department of Mental Health (DMH) to implement SB 82, the Investment in Mental Health Wellness Act, which is fully funded with State revenue. SB 82 expands urgent care centers, crisis residential treatment, and mobile crisis support teams. In addition, it adds four types of teams providing mental health triage and field-based crisis response services. This adjustment adds 88.0 budgeted positions.
- **Mental Health Services Act (MHSA)** - Reflects an increase in appropriation of \$7.4 million for the DMH, fully offset by MHSA funding, for continued implementation of MHSA plans approved by the Board on July 14, 2014, including the Assisted Outpatient Treatment Program, also known as “Laura’s Law”, approved by the Board on November 25, 2014. This recommendation adds 30.0 budgeted positions.

Health Services

The ACA was implemented on January 1, 2014 and the Department of Health Services continues to refine its analysis of the impact. The Department is making good progress on an integrated care delivery model to help it succeed under the ACA. The Department's 2015-16 Recommended Budget includes a revenue placeholder of \$81.3 million while the Department continues to develop its revenue projections related to the ACA, the upcoming replacement 1115 Waiver, and the reconciliation of the Assembly Bill (AB) 85 realignment revenue redirection.

The Recommended Budget is fully funded with available resources and also reflects the use of \$184.9 million in estimated obligated fund balance to be transferred to the four hospital enterprise funds for ongoing health care costs. Highlighted below are the significant recommended changes for Health Services:

- A net increase of 351.0 positions and \$22.3 million in related funding for the second phase of the standardized nurse staffing plan to comply with State regulations;
- An increase of 30.0 positions and \$1.7 million in related funding for the second phase of the Community Health Worker initiative to facilitate medical care for high-risk, high-need patients;
- An increase of 27.0 positions and \$3.2 million in related funding to establish additional primary care medical homes;
- An increase of 14.0 positions and \$2.0 million in related funding to support the Medical Hubs expansion; and
- A net increase of \$42.3 million to annualize funding for the Department's support of patient care for the new Martin Luther King, Jr. Community Hospital, which is anticipated to open in May 2015.

CAPITAL PROJECTS/EXTRAORDINARY MAINTENANCE PROGRAMS

Capital Projects

The 2015-16 Recommended Capital Projects/Refurbishments appropriates \$726.3 million for continued development, design, and construction of projects that address high-priority health, public safety, recreation, and infrastructure needs.

The 2015-16 Recommended Budget for Capital Projects/Refurbishments reflects a decrease of \$109.8 million from the 2014-15 Final Adopt Budget, due to the completion of 42 projects in 2014-15. In addition, several bond-financed projects, which are not accounted for in the Capital Projects/Refurbishments Budget once bonds have been issued, were also completed, including the Hall of Justice Renovation Project and the Manhattan Beach Library Project.

The 2015-16 Recommended Budget allocates \$44.2 million for soil and groundwater investigation, monitoring, and remediation projects at County-owned sites in the cities of Downey, Carson, and throughout the unincorporated area.

The County continues to address facility needs resulting from the enactment of the State's Public Safety Realignment Act (AB 109), which resulted in an influx of new inmates into County jails. The 2015-16 Recommended Budget appropriates \$162.7 million for facility improvements to various jail facilities, including the refurbishment of the Mira Loma Detention Center.

In addition to these environmental and public protection projects, the County continues to refurbish and construct new libraries, parks, and beach facilities, as well as address its own governmental needs through the construction of new facilities.

Extraordinary Maintenance

The County continues to invest in deferred maintenance to meet performance requirements and expectations for its facilities. The 2015-16 Recommended Budget earmarks \$170.8 million for high-priority repairs, maintenance and accessibility modification needs at County facilities, including juvenile halls, animal shelters, County beaches, parks, and for various roof repairs.

In 2015-16, the second phase of building condition assessments of 24.1 million square feet of approximately 1,200 County-owned and/or County-maintained facilities and the development of prioritized capital plans to address deferred maintenance will continue. It is anticipated that the condition of approximately nine (9) million square feet of buildings will be assessed during the fiscal year.

POTENTIAL STATE/FEDERAL BUDGET IMPACTS

State Budget

On January 9, 2015, Governor Jerry Brown released his FY 2015-16 Proposed Budget, which includes \$113.3 billion in State General Fund expenditures. The proposed budget assumes \$3.5 billion in additional State revenues above the amount projected in the FY 2014-15 State Budget Act. Governor Brown indicated that while the economy continues to improve, maintaining a balanced State Budget for the long-term will be an ongoing challenge, and it will require fiscal restraint.

The Governor's proposed budget contains no reductions to County-administered programs, and it includes the repayment of \$533 million statewide in pre-2004 deferred State mandate payments owed to local governments, with a County estimated repayment of \$88 million. The Governor's plan also reflects an increase in the base allocation for the AB 109/2011 Public Safety Realignment from \$934.1 million to \$1.1 billion statewide, and proposes to redirect an estimated \$698.2 million statewide from counties to the State to reflect potential county indigent health care savings due to the implementation of the Medi-Cal expansion under the federal ACA. DHS estimates the amount of 1991 Health Realignment funding to be redirected from the County to the State in 2015-16 at \$100.0 million.

The Legislature is currently conducting Budget Subcommittee hearings on the Governor's Proposed Budget. However, most actions on the State Budget will be held pending the release of the Governor's May Budget Revision that will contain updated revenue estimates and budget allocations.

Federal Budget

The overall federal budget outlook for the County in 2015-16 is positive largely because the County's revenue for Medicaid, which is by far the County's largest source of federal revenue, will continue to grow due to the ACA's Medicaid expansions. The County also will receive increased revenue for Title IV-E Foster Care, which is its third largest federal revenue source, under the terms and conditions of California's Title IV-E waiver, which provides participating counties with steadily increasing annual capped allocations. Moreover, the County's federal revenue will be stable through 2015-16 under the Temporary Assistance for Needy Families Program (CalWORKs in California), Child Support Enforcement, the Supplemental Nutrition Assistance Program (CalFresh in California), and federal discretionary programs through which the County receives its remaining federal revenue.

It is expected that the new Republican-controlled Congress will seek to reduce overall federal spending, including deep cuts in Medicaid, which is the third largest federal program after Social Security and Medicaid. Republicans, however, lack the two-thirds majority in both houses needed to override expected presidential vetoes of legislation that would significantly reduce Medicaid spending, such as by repealing the ACA. Nevertheless, the risk of cuts in Medicaid and other federal programs through which the County receives federal revenue is greater than in recent years when Democrats controlled one or both houses of Congress. However, even if federal spending cuts are enacted, their fiscal impacts are unlikely to be felt until after the end of 2015-16 at the earliest.

Long-Term Budgetary Issues

As we look forward, we recognize that many budgetary hurdles lie ahead and will require significant County spending. Some of the major challenges that will require a multi-year funding approach include replenishing the County's Rainy Day Fund, addressing deferred maintenance needs, investing in capital improvements, and establishing a fleet vehicle replacement program. Although, the County has taken important steps to address retiree healthcare benefits, serious consideration needs to be given to developing and implementing a plan to prefund this benefit.

BUDGET TIMETABLE

Below is the schedule for budget hearings and deliberations.

Board Action	Approval Date
Adopt Recommended Budget; Order Printing, Notice and Distribution; and Schedule Public Hearings	April 14, 2015
Commence Public Budget Hearings	May 13, 2015
Commence Final Budget Deliberations and Adopt Budget Upon Conclusion	June 22, 2015

Prior to deliberations on the FY 2015-16 Adopted Budget, we will file reports on:

- May revisions to the Governor's Budget and updates on other 2015-16 State and federal budget legislation and the impact on the County's Recommended Budget;

- Final revisions reflecting the latest estimates of requirements and available funds;
- Issues raised in public hearings or written testimony;
- Specific matters with potential fiscal impact; and
- Issues as instructed by the Board.

APPROVAL OF RECOMMENDED BUDGET

The matter before the Board is the adoption of the Recommended Budget.

- The documents must be available for consideration by the public at least 10 days prior to the commencement of public budget hearings.
- Adjustments to the budget, including revisions to reflect the Board's funding priorities and State and federal budget actions, can be made during budget deliberations, prior to adoption of the Budget.
- Pursuant to State law (the County Budget Act), the Board may make changes to the Recommended Budget with a simple majority (3 votes) until adoption of the Budget, if changes are based on the permanent record developed during public hearings (e.g., Recommended Budget, budget requests and all written and oral input by Supervisors, County staff and the public).
- Changes not based on the "permanent record" require 4/5 vote.

THEREFORE, IT IS RECOMMENDED THAT THE BOARD:

Order such revisions, additions, and changes to the Chief Executive Officer's budget recommendations as deemed necessary, and approve the revised figures as the Recommended Budget for 2015-16; order the publication of the necessary notices; and set May 13, 2015, as the date that public budget hearings will begin.

Respectfully submitted,

SACHI A. HAMAI

The 2015-16 recommended net operating budget totals \$26.9 billion, a decrease of \$218.0 million, or 0.8 percent less than the FY 2014-15 budget. The budget represents a balanced plan, devoting limited resources to the highest priority programs while maintaining basic services. These programs cover a wide range of functions, from road and flood maintenance, to ensuring the health and safety of County residents, to providing access to a variety of recreational and cultural opportunities. The proposals for FY 2015-16 are subject to public hearings, scheduled for May 2015, and adoption by the Board, anticipated in June. Changes are detailed by department and/or funds within the 2015-16 Recommended Budget.

The figures displayed on this page reflect the revenues and expenditures of the County as if it were one large department. This display does not include certain non-program expenditures and revenues that are included in the budget for accounting purposes. Inclusion of such amounts increases the budget and gives the impression that more County resources are actually available. These amounts, totaling \$2.1 billion, artificially inflate the budget by almost 8 percent, resulting in an operating budget of \$29.0 billion, which is reflected in the Auditor-Controller budget schedules, pursuant to State Controller requirements.

CHILDREN AND FAMILY SERVICES

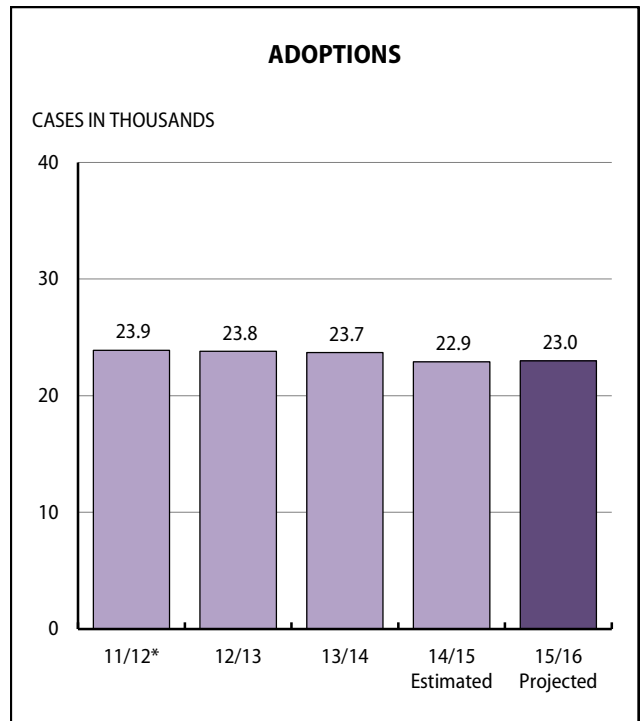

MAJOR CASELOADS

These caseloads reflect the major workload of the Department:
Child protective services caseloads reflect mandated emergency response, family maintenance and reunification, and permanent placement services.

The adoption caseloads represent the average number of families receiving adoption assistance payments.

*2011-12 caseloads have been revised from previous publications.

DETENTION POPULATION

SHERIFF INMATE POPULATION

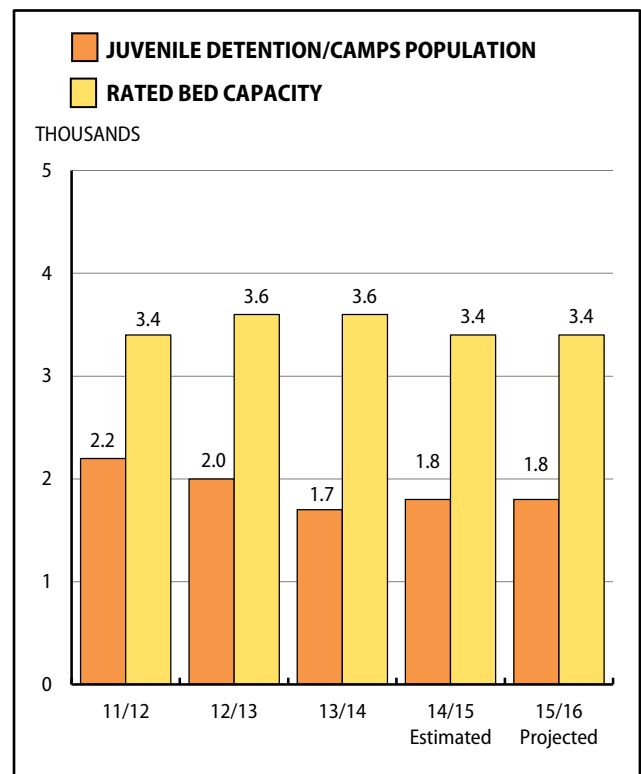

The Sheriff's inmate population, which includes both pre-sentenced and sentenced inmates, is housed in six custody facilities: Men's Central Jail, Twin Towers Correctional Facility, Century Regional Detention Facility, South Facility, North County Correctional Facility, and East Facility. It should be noted, East Facility only houses approximately 70 fire camp inmates. The estimated average length of stay that an inmate will spend in jail in 2014-15 has increased to 73 days, compared to an average of 59 days in 2013-14. For 2015-16, the projected average length of stay is expected to increase to 84.5 days.

PROBATION JUVENILE HALLS/CAMPS POPULATION

The juvenile hall population is comprised of minors (generally under the age of 18 years), who are awaiting adjudication and disposition of legal matters as well as for various post-disposition matters, in three separate facilities: Central, Los Padrinos and Barry J. Nidorf.

The Residential Treatment Services Bureau provides a safe, secure and therapeutic residential environment for youth in the Probation Camps. The youth are exposed to a rehabilitative camp experience that leads to successful reentry into the community and reduced recidivism. Youth are ordered to a camp commitment by the Juvenile Court for an average of 21 weeks. The estimated 2014-15 and projected 2015-16 figures reflect five camps that are temporarily closed.

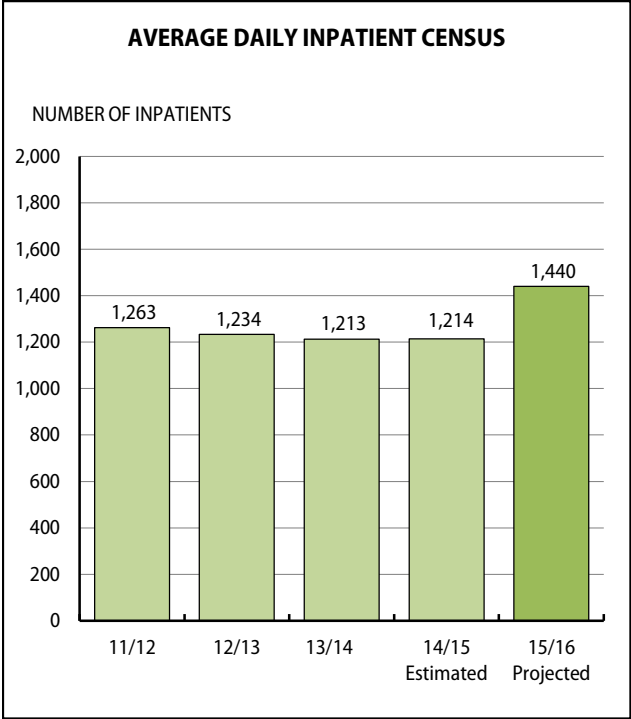

HEALTH SERVICES

INPATIENT CENSUS

The Department of Health Services' (DHS) inpatient census has remained relatively static over the past few years and is estimated to remain at similar levels for 2014-15.

DHS projects the 2015-16 census to be in line with the budget. DHS continues to review their budgeted census as they evaluate the impact of the Affordable Care Act (ACA), which was implemented on January 1, 2014, on their inpatient census in future years.

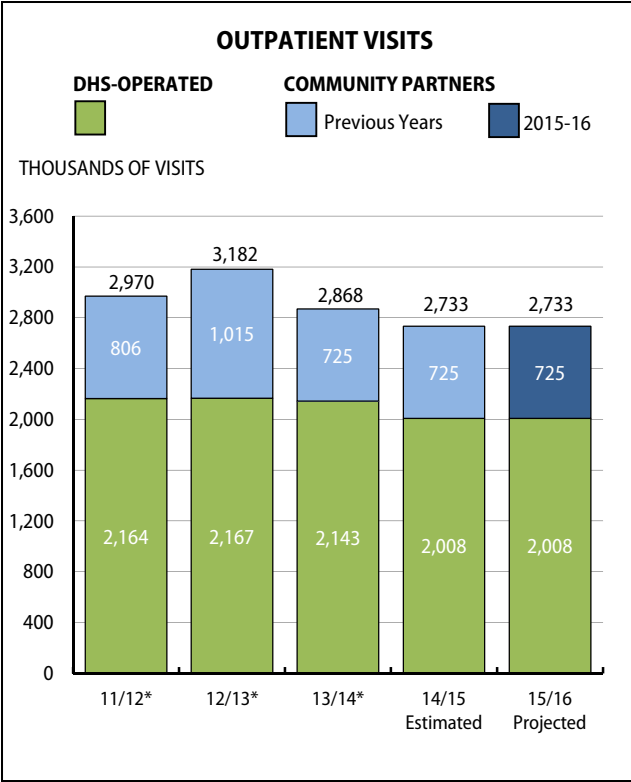

OUTPATIENT VISITS

In past years, DHS made substantial progress on increasing outpatient visits while reducing costly hospital inpatient care. This was largely due to the purchase of additional outpatient visits from community-based private providers also known as Community Partners (CP).

Outpatient visits at DHS-operated clinics remained static from 2010-11 through 2013-14. For 2014-15, estimates are projected to decrease due to the implementation of DHS' electronic health record system, ORCHID. DHS projects outpatient visits will remain at similar levels for 2015-16 as the implementation of ORCHID will continue and the Department further evaluates the impact of the ACA on outpatient visits.

Outpatient visits at CP clinics increased in 2012-13 as a result of additional funding from the Board for the CP clinic capacity expansion program and decreased in 2013-14 as a result of the transition of the Healthy Way LA program to the My Health LA program. DHS is currently analyzing the impact of the transition on the CPs and is forecasting consistent visits in 2014-15 and 2015-16.

*Visits for CP have been revised from previous publications.

PUBLIC ASSISTANCE

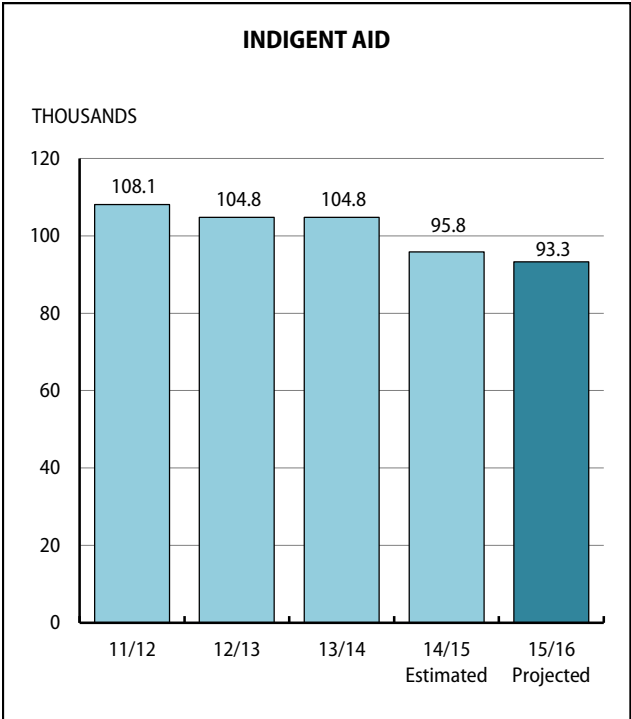

CALIFORNIA WORK OPPORTUNITIES AND RESPONSIBILITY TO KIDS (CalWORKs)

The federal Temporary Assistance for Needy Families (TANF) block grant program is authorized under Title IV of the Social Security Act. It replaced the Aid to Families with Dependent Children (AFDC) entitlement program, among others. In California, TANF requirements are administered under Division 9, Part 3, Chapter 2 of the Welfare and Institutions Code, as the CalWORKs program. The CalWORKs program provides temporary financial support and supportive services to eligible adults with children to enable them to transition from welfare to work and to achieve economic self-sufficiency. This chart reflects the average number of persons aided each month by fiscal year.

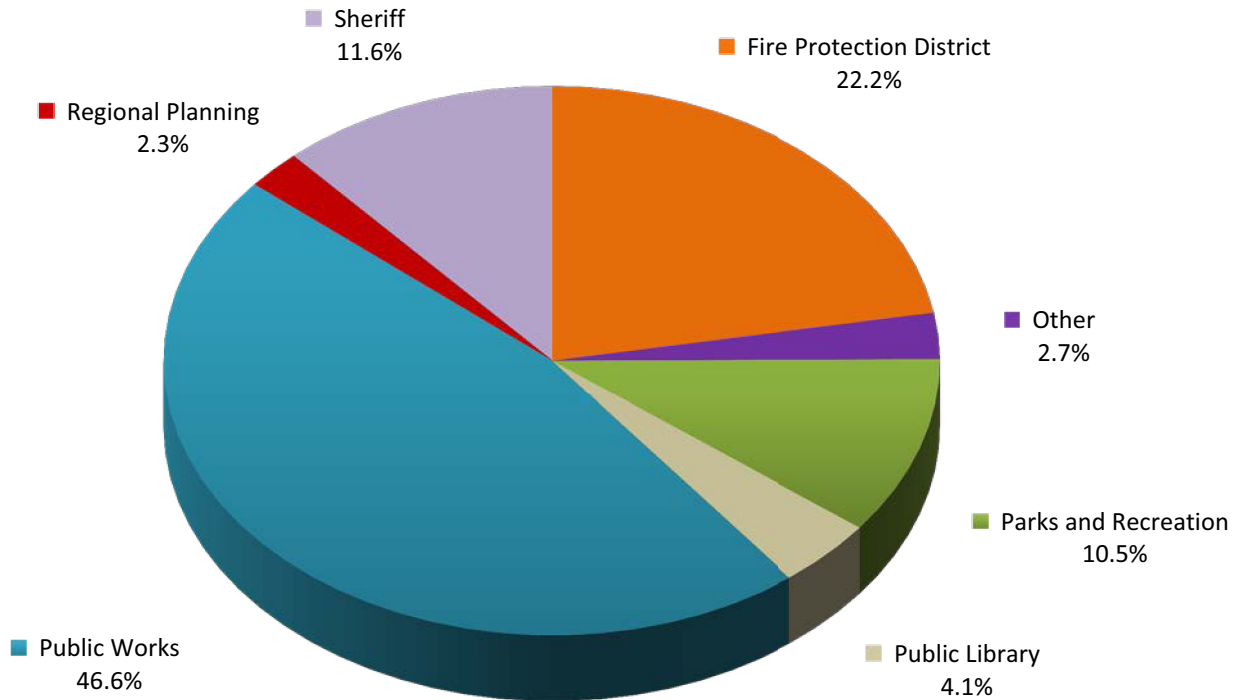

INDIGENT AID

Indigent Aid, a State-mandated program administered by counties, is defined by Section 17000 of the Welfare and Institutions Code. The Indigent Aid program provides financial assistance to indigents who are ineligible for other State and federal assistance programs. This program also provides emergency assistance to individuals and families in temporary need. This chart reflects the average number of persons aided each month by fiscal year.

Reader's Guide to Understanding the Budget

The Recommended County Budget contains the proposed financial and operating plan for the County for the fiscal year, which runs from July 1 to June 30. The following general outline is designed to assist the reader in understanding the information presented in each document. Additional information related to the County and its operations and services can be obtained via its Internet website at <http://lacounty.gov>.

THE GOVERNING BODY

A five-member elected Board of Supervisors that has legislative and executive authority governs the County, a political subdivision of the State of California.

FINANCIAL STRUCTURE AND OPERATIONS

To secure uniform accounting standards among California's 58 counties, the State Controller provides administrative directives and recommends practices and procedures relating to the form and content of the annual County Budget. In accordance with State direction, the County uses a modified accrual basis of accounting, and organizes and operates that system on a fund basis. Funds are separate legal or fiscal entities by which resources are allocated and controlled. The County Budget has seven major types of funds:

I. General Fund

The General Fund is the principal fund in the County Budget and is used to finance most governmental operations that are general in purpose and not included in another fund.

II. Enterprise Funds

Enterprise Funds are used to account for operations of governmental units where the users of the services include the general public, and the costs of providing the services are financed primarily by user charges, similar to a private business. Examples are the Hospital Enterprise Funds.

III. Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of revenue sources that must be spent for specific purposes. Examples of Special Funds are the Child Abuse and Neglect Prevention Program Fund and the Sheriff Processing Fee Fund.

IV. Capital Project Special Funds

Capital Project Special Funds are used to account for financial resources used for the acquisition or construction of major capital facilities (other than those financed by proprietary and trust funds). Examples are the General Facility Capital Improvement Fund and the Marina Replacement Accumulated Capital Outlay Fund.

V. Special District Funds

Funded by specific taxes and assessments, Special District Funds are separate legal entities that provide public improvements and services to benefit targeted properties and residents. Examples are the Garbage Disposal Districts and the Sewer Maintenance Districts.

VI. Other Proprietary Funds

Other Proprietary Funds are used to account for financing goods and services provided by one department to another department, or by a department to another governmental unit, on a cost-reimbursement basis. An example of this type of fund is the Public Works Internal Service Fund.

VII. Agency Fund

Included in this category are the Community Development Commission and the Housing Authority, which are under the control of the Board, but are separate legal entities.

Mission Statement

To protect the environment, the agricultural industry, consumers, and business operators through effective enforcement of federal and State laws and County ordinances in the areas of health, safety, and consumer concerns of County residents. The Department's highly diverse public services include: ensuring the safe and wholesome supply of food and water; protecting consumers and businesses from fraud; preventing the misuse of pesticides; managing and excluding pests; minimizing fire hazards from weeds and brush; and providing useful consumer and agricultural information.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects an overall net County cost (NCC) decrease of \$0.3 million primarily due to the deletion of one-time funding for various projects, partially offset by Board-approved increases in salaries and employee benefits. The Recommended Budget also reflects a net increase of 8.0 revenue-offset positions including 3.0 positions in Pest

Exclusion/Produce Quality Bureau, 3.0 positions in Weed Hazard/Integrated Pest Management Bureau, and 2.0 positions in Administration.

Critical/Strategic Planning Initiatives

The Department continues to:

- Investigate and pursue increased revenue source opportunities through proactive involvement in legislation and regulation development, coordination with administrators and management of California Department of Food and Agriculture (CDFA) and California Department of Pesticide Regulation to influence program funding and levels of local support, and active collaboration with statewide partners to secure enhancements in federal funds.
- Improve Service Excellence and Workforce Excellence through ongoing employee development, continuing enhancement of the Agricultural Commissioner/Weight and Measures (ACWM) Internet website, and other outreach efforts to maximize public awareness of the Department and its services.

- Maintain focus of recruitment efforts to attract qualified and skilled applicants to fill inspector positions to ensure environmental and public safety, provide mandated and increased protections to consumers and businesses, and provide protection to the environment, native plant life and the agricultural industry.
- Utilize its \$250,000 Productivity Investment Fund (PIF) grant from the County Quality and Productivity Commission to support development of a geographic information system (GIS)-mapping and data management system for the Exotic Pest Detection Program and to coordinate efforts with CDFA to establish the system as a statewide standard.

Provide healthy, pest-free plants to consumers for the beautification of their homes and environment through the detection and control of existing and introduced injurious pests and diseases.

The mission of the Nursery Program is to prevent the introduction and spread of agricultural pests through nursery stock and protect agriculture and consumers against economic losses resulting from the sale of inferior, defective, or pest-infested nursery stock.

The Seed Program ensures accurate identification and viability of seeds available for purchase by consumers and industry. Poor quality seeds can cost farmers and home gardeners alike considerable amounts of time, money, and resources by way of reduced yields, poor crop quality, contamination by weeds, or other unwanted species. By enforcing California Seed Law requiring labeling, the Department is able to ensure that consumers receive the desired product.

6. Pest Exclusion

The program enforces federal and State quarantine against Phytophthora ramorum (P. ramorum). County agricultural inspectors inspect and sample nurseries in the County for plants infected by P. ramorum. Nurseries found to be free of P. ramorum are issued a compliance agreement that allows them to ship nursery stock out-of-state. Nurseries found to have plants that are infected by P. ramorum are further inspected to determine the extent of the disease within the nursery. All blocks of nursery stock found to have infected plants are required to be destroyed by burial in a landfill. Audits of each nursery with an SOD compliance agreement are conducted quarterly to ensure that the nurseries are following the requirements contained in the compliance agreement.

Mission Statement

To provide high quality and caring legal representation to indigent persons charged with a crime when a conflict of interest prevents the Public Defender from providing the required legal services, and to represent clients in appellate courts as required.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects a net decrease in NCC of \$0.4 million primarily due to the deletion of one-time carryover funding and a decrease in retirement contributions. The Recommended Budget also includes funding for Board-approved increases in salaries and employee benefits.

Critical/Strategic Planning Initiatives

Mission Statement

The Department of Animal Care and Control, operating under State law and County ordinance, provides for public safety in the community through the removal and impoundment of domestic animals and livestock in the unincorporated areas of the County and contract cities. Central to the core mission of the Department is enforcement of applicable animal control laws, medical care and sheltering of impounded animals, recovery and redemption of lost animals with their owners, adoption and placement of available animals, investigation of animal cruelty and dangerous animal complaints, rabies vaccinations, and licensing of dogs and cats. The Department also provides for public education programs, spay and neuter surgeries and evacuation of animals during local and regional emergencies. The Department operates six animal shelters which have veterinary medical clinics as part of their operations. Department costs are partially offset by revenue from pet licenses, income from contract cities, and fees collected for various activities in the shelters.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects an overall decrease in NCC of \$2.2 million primarily due to the deletion of one-time funding for a voice recorder system, mobile connectivity, dead animal pick-up services, and vehicles. The Recommended Budget also includes funding for Board-approved increases in salaries and employee benefits.

Critical/Strategic Planning Initiatives

The Department is finalizing its strategic plan which incorporates five Key Focus Areas that align with the County Strategic Goals and Initiatives:

- Improved Financial Planning and Decision Making: Develop a plan to improve the Department's ability to make strategic decisions based on revenue, available resources and needs that are measured using a decision matrix that considers various factors including safety, the Department's areas of key focus, and prudent financial management.

- Improved Training, Staff Development and Succession Planning: Develop a plan to implement programs to respond to the Department’s need for succession planning, entry level training, promotional training, and annual recertification.
- Revisit Contract Methodology and Practices: Develop a plan to improve establishment of contract city rates, not limited to the request for proposals (RFP) for a consultant to recommend and implement new rate setting methodologies, including assessment of organizational barriers to obtaining accurate data and development of recommendations to establish methods that improve accuracy.
- Strategic Implementation of Information Technology Priorities: Develop a plan to respond to IT project requirements and operational data base improvements with a focus on the Department’s key focus areas, recommend priorities and establish a methodology to track and measure implementation.
- Actualization of Shelter Vision: Develop a plan to move the organization toward its vision for animal care centers. The shelter vision is: “Clean, open, current, well-equipped, organized animal care centers and clinics filled with healthy living things thriving under the care of professional engaged employees, volunteers, and adoption partners in a harmonious environment that is enriched for our animals and welcoming to our happy, satisfied community families.”

Unmet Needs

The Department's unmet needs cover a wide array of requirements. The Department is requesting funding for facilities improvement and deferred maintenance projects to repair and improve the Department's animal care infrastructure, as well as to mitigate safety risks to the public, its employees, and the animals in its care. Further, the Department requires funding for critically needed positions to augment staffing in field, kennel, and clerical services.

The 2015-16 Recommended Budget sets aside a total of \$3.6 million in the Provisional Financing Uses budget unit for the Palmdale Animal Care Center which is scheduled to open during fiscal year (FY) 2015-16. This amount includes both one-time start up costs and ongoing operational costs.

Mission Statement

To foster excellence, diversity, vitality, understanding and accessibility of the arts in the County. The Arts Commission provides leadership in cultural services for the County, including information and resources for the community, artists, educators, arts organizations and municipalities.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects a net NCC decrease of \$190,000 primarily due to the deletion of one-time funding and a reduction in retirement contributions, partially offset by funding for Board-approved increases in salaries and employee benefits, additional funding for 1.0 position for the John Anson Ford Theatres and unavoidable cost increases.

Critical/Strategic Planning Initiatives

- Continue a multi-year initiative to implement the Board-adopted *Arts for All* strategic plan to make the arts core in K-12 for 1.7 million students in the County by launching a partnership with the County Office of Education to expand the reach of teacher professional development offerings through online support systems.
- Continue construction and planning for the current and future facilities of the Ford Theatres, including upgrades such as amphitheatre stage reconstruction, creation of a new picnic terrace with concessions and office space. Reopen the theatre in spring 2016 with a full slate of programming and re-branding campaign.
- Implement, through LA County Open Spaces District grant funds, a new Civic Art Graffiti Abatement Project which will create innovative arts based projects designed to reduce the reoccurrence of or minimize the visual appearance of graffiti, while helping youth utilize their artistic talents for personal expression and instill a sense of neighborhood pride.
- Redesign the Arts Commission website along with update the *Arts for All* and Ford Theatres sites, and roll out the updated ExperienceLA.com platform and integrate with LA Tourism's website, DiscoverLosAngeles.com.

Unmet Needs

The Arts Commission's critical unmet needs include additional funding to bring *Arts for All* fully to scale to serve all 81 County school districts; stabilize the Organizational Grant Program to adequately fund an increased number of grantees; and launch a project grant program to fund arts programming in non-arts organizations such as social service and health organizations. In addition, funds and positions are needed to support the re-opening of Ford Theatres, including public information and digital marketing activities, and to provide support for the Organizational Grant and Civic Arts programs due to increases in workloads of core operations and for overall administrative support.

Mission Statement

To value people and property by creating an accurate and timely assessment roll while delivering exceptional and professional public service with integrity.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects a net decrease in NCC of \$10.2 million primarily due to the deletion of one-time funding for the Legacy System Replacement Project Phase II, deletion of one-time carryover funding for the Voice-over Internet Protocol (VoIP) Project and live scan requirements, and a projected decrease in retirement contributions. The Recommended Budget also includes Board-approved increases in salaries and employee benefits, partial prior-year curtailment restoration, and additional one-time funding for 15.0 Appraiser positions needed to support the Legacy System Replacement Project.

Critical/Strategic Planning Initiatives

The Assessor's Office will continue to:

- Introduce operational efficiencies to improve work activities and public services including a partnership with tax system departments to create a "one-stop" counter for tax services;
- Increase the use of social media and the internet to disseminate critical service messages to the public about Assessor programs and operations;
- Initiate the second phase of development of the Assessor Legacy System Replacement Project while partnering with County stakeholders and tax system departments;
- Recruit, train and develop additional staff to increase operational effectiveness; and
- Pursue shorter duration projects that automate and improve the assessment process.

Mission Statement

The Auditor-Controller provides the County with financial leadership and expert advice on a wide range of fiscal matters, and advocates for financial integrity and accountability in all County business practices. Responsibilities include statutory duties outlined in Sections 26880 and 26900 of the California Government Code; establishing County fiscal and internal control policies and procedures; operating eCAPS and eHR, the County's integrated accounting, disbursing, procurement, purchasing, time collection and payroll systems; administering the countywide payroll; conducting audits and fraud investigations of departments, employees, and contractors; responding to requests by the Board for special reviews, investigations, and analyses; providing fiscal, payroll, and procurement services for 18 client departments in a shared services environment; monitoring social services contracts; performing mandated property tax functions, including extending property tax rolls, apportioning property tax allocations to taxing entities, including Successor Agencies and

issuing property tax refunds due to property value reductions; disbursing warrants to vendors, judgment recipients, and claimants; and providing system development and support to a variety of countywide financial systems. In addition, the Auditor-Controller provides the State and other agencies with mandated reports including the Comprehensive Annual Financial Report.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects a decrease in NCC of \$0.9 million primarily due to the elimination of one-time carryover funding, partially offset by the addition of 2.0 payroll support positions and Board-approved increases in salaries and health insurance subsidies. The Recommended Budget also includes 1.0 position for ePayables Solutions, fully offset by the deletion of 2.0 lower level positions and 1.0 revenue offset investigation position to assist the Fire Department.

Critical/Strategic Planning Initiatives

The Auditor-Controller advocates for fiscal responsibility and service excellence through various initiatives, including:

- Ensuring public trust in County government by implementing the Board-approved annual audit plan and conducting investigations of fraud and malfeasance;
- Working with the Chief Executive Office to fully fund compliance audits and enhancing service delivery by ensuring that such services can be provided in a manner consistent with government and accounting industry standards and best practices for audit independence;
- Continuing the enhancement of eCAPS and the Advantage eHR suite of applications to centralize and consolidate the County's financial management, reporting, human resources, and talent management functions;
- Improving the fiscal accountability of social services contractors by resolving issues related to federal recovery of questioned costs, ensuring auditor access to contractor records, and continuing to enhance the Contractor's Manual to ensure compliance with contract terms and conditions;
- Promoting use of direct deposit to pay vendors, thereby reducing the County's reliance on check disbursements;
- Advocating for development of an integrated, enterprise Property Tax System to replace aging, obsolete and inefficient legacy applications that require high levels of staff and technical support; and
- Promoting County efficiency initiatives such as eForms, the Countywide Contract Management System, and the Countywide Open Data Initiative.

Mission Statement

The Board of Supervisors (Board), as the governing body of the County, enacts ordinances, directs overall operation of County departments and districts, and oversees the delivery of services within the County.

The Executive Office of the Board (Executive Office) provides a full range of administrative support to the Board. The mission of the Executive Office is, by 2016, to be recognized as the County's leading department providing innovative and efficient government services through quality information and customer service.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects the current levels necessary to provide efficient and responsive delivery of services to the Board and the public. The overall NCC increase of \$1.9 million is primarily due to Board-approved increases in salaries and employee benefits and one-time funding adjustments related to various community programs, partially offset by deletions of carryover funding, deletions of one-time funding and a decrease in retirement costs.

Critical/Strategic Planning Initiatives

The Executive Office is in the process of implementing its strategic plan, in alignment with the County's Strategic Plan, with multiple goals for FY 2015-16. Resources are needed to achieve those goals which continue to focus on the use of technology-driven services.

Mission Statement

The Capital Projects/Refurbishments Budget displays the Chief Executive Officer's funding recommendations for the acquisition, development, design, construction, and refurbishment of General Fund capital assets and infrastructure. These recommendations support projects that are currently funded and underway, as well as projects that are anticipated to commence in the coming fiscal year and for which viable and sufficient funding has been identified.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects the Board's continuing commitment to allocate a significant amount of available one-time funding to expand, replace, or refurbish the County's capital assets and infrastructure. The Recommended Budget appropriates \$992.6 million for 304 active projects that address high-priority health, public safety, recreation, and infrastructure needs.

Of the total 2015-16 Recommended Budget appropriation, \$726.3 million is allocated to General Fund projects that encompass a broad range of recreational, cultural, law enforcement, health, and general government functions funded by \$221.0 million in one-time revenue from grants and other sources, and \$505.4 million in local discretionary monies. The General Fund appropriation represents the 2015-16 budgetary requirements of 229 projects that are currently in acquisition or under development, design, or construction. The total appropriation for the 2015-16 Recommended Budget represents a decrease of \$109.8 million and the completion of 42 projects from the 2014-15 Final Adopted Budget.

Mission Statement

On behalf of the Board, provide fiscal and management leadership to facilitate policy development and effective program implementation to achieve the County's mission.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects a decrease in NCC of \$6.0 million primarily due to the deletion of \$7.4 million in carryover funds, partially offset by \$1.2 million in Board-approved increases in salaries and employee benefits. The Recommended Budget also reflects an increase in NCC of \$0.2 million for 2.0 additional positions to provide specialized photographic work and video production services through countywide communications media.

Critical/Strategic Planning Initiatives

Due to a recent Board initiative, the Chief Executive Officer (CEO) is assessing the current County governance and departmental structure for the purpose of better meeting the Board's organizational objectives. Such objectives include increasing communication and collaboration to address complex issues facing the County, eliminating the unnecessary layers of management, allowing the Board to focus on establishing County policy and ensuring effective service delivery. Additionally, the new structure will address key Board priorities such as:

- Facilitate forming a close partnership between the Board and the Sheriff's Department as the Sheriff confronts numerous challenges, ranging from a federal consent decree to jail construction to new civilian oversight;
- Assist the Board to ensure the success of child protection and family support initiatives; and
- Provide guidance on the potential integration of the County's three health-related agencies by assessing organizational challenges and opportunities to improve patient care and population health.

Mission Statement

The mission of the Child Support Services Department (CSSD) is to enrich our community by providing child support services in an efficient, effective, and professional manner, one family at a time.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects \$177.1 million in gross appropriation and \$3.2 million in NCC. The increase of \$2.5 million in gross appropriation is primarily the result of increases in Board-approved salaries and employee benefits, and the utilization of available prior-year funding previously set aside in PFU. This is the 13th consecutive year that CSSD will receive a flat baseline administrative cost allocation from the California Department of Child Support Services and also assume a flat funding State allocation for the Electronic Data Processing Maintenance and Operation. The Recommended Budget also includes the net addition of 1.0 position to address the critical needs of the Department.

Critical/Strategic Planning Initiatives

The Department continues to engage senior, mid-level and line staff in its Child Support Statistical (CSTAT) process to strategize and redesign business practices using current and real time statistical data to align resources and improve performance. The Department recently introduced an AdminStats tool to look at internal administrative functions and internal customer service delivery. CSSD remains committed to practices that ensure effective and professional service delivery and support the County's Strategic Plan goals. It continues to align its performance measures with the County's Strategic Plan and federal and State performance measures for local child support agencies.

The Department recently introduced a Predictive Analytics tool to determine the appropriate amount of casework resources required to collect child support obligations. Based upon certain factors, CSSD is better able to determine which cases are more likely to pay child support obligations and assign resources accordingly.

The Department also continues to move forward with the "Child Support 2017" Strategic Initiative, taking every opportunity to leverage resources and build an organization that is structurally sound, efficient, financially healthy, and focused on its goals and mission.

Mission Statement

The Department of Children and Family Services (DCFS) will practice a uniform service delivery model that measurably improves: child safety, permanency, and access to effective and caring services.

2015-16 Budget Message

The 2015-16 Recommended Budget for Administration reflects an increase of \$74.2 million in gross appropriation, funded with increases of \$71.7 million in revenue, and \$2.5 million in NCC.

The revenue increase consists primarily of \$4.7 million in federal revenue for the Title IV-E Waiver and \$67.0 million in 2011 State Realignment growth funds. The \$2.5 million increase in NCC is a result of \$1.7 million to support the Board-approved Katie A. Strategic Plan and \$2.3 million to partially fund employee benefits subsidies. These are partially offset by a \$1.0 million NCC decrease as a result of the deletion of one-time funding for the San Fernando Valley Kinship capital project and a \$0.5 million decrease in rent charges.

The Recommended Budget also reflects the addition of 542.0 positions consisting of: 1) 444.0 line-operational positions, including 250.0 Children's Social Workers (CSWs), 70.0 Supervising CSWs, and 124.0 support staff positions to reduce caseloads; 2) 58.0 positions, including 16.0 CSWs, 10.0 Supervising CSWs, and 32.0 support staff for specialized programs; 3) 22.0 positions to implement a Foster Youth Work Program; and 4) 18.0 positions for critically needed administrative support.

Critical/Strategic Planning Initiatives

DCFS continues its collaborative initiatives with the CEO, other County departments, and community partners to support and strengthen the ability of families and communities to help children thrive and to maintain child and youth safety. The following initiatives are being put in place, or have been implemented, to achieve these goals.

DCFS anticipates filling all CSW vacancies within the next few months, thereby reducing individual CSW caseloads to enhance services provided by allowing for increased time spent with children and families. Having filled almost all CSW vacancies, the Department aims to further reduce caseloads through the addition of social workers, supervising social workers, and associated support staff.

The Department will implement the Foster Youth Work Program. This program will provide opportunities for DCFS-served youth to gain hands-on skills development training and work experience that will improve their job-readiness, thereby improving their chances of being

self-sufficient upon emancipation. Unlike other job-training programs, this program is designed specifically for foster youth ages 16-21.

As part of the County's commitment to treating commercially sexually exploited children (CSEC) as victims of abuse and human trafficking, rather than criminalizing them, DCFS, in collaboration with other County departments, local law enforcement agencies, and community partners, helped successfully implement the CSEC First Responders' Protocol. As part of this effort, DCFS has added resources to expedite and provide intensive services to this vulnerable population.

Recognizing that, when removed from their homes, children fare better in the care of relatives, and that relative caregivers need various types of assistance to successfully bring these children into their homes, the Department continues to work on improving services to support relative caregivers. DCFS has started implementing the State's Approved Relative Caregiver (ARC) Program (SB 855), that provides funding to make per-child, per-month payments equal to the higher basic federal foster care rate, and helps to ensure that the basic needs of these children are met.

In a continuing effort to maximize the use of technology, the Department is currently working on various information technology (IT) projects that will aid social workers in serving children by improving the transmittal and record keeping of information, data-sharing decision making, and allow social workers more time to spend with children and their families.

The Court Reports and Petitions Document Management System will develop and deploy an EMC Captiva and Documentum software solution to capture, index, and store the PDF copies of court reports and petitions. Court officers, judges, County Counsel, and child attorneys will have online access to these documents. This will replace the manual process of printing and distributing copies of these documents, reduce paper and toner costs, reduce or eliminate travel and courier costs, reduce courts sanctions, and improve document tracking.

DCFS is participating in the Electronic Psychotropic Medication Authorizations (ePMA) Processes project, a multi-departmental project that seeks to develop and implement a workflow-based system to facilitate the submission, tracking and adjudication of requests for psychotropic medication for children in the care of the County. The proposed system will result in faster and more accurate processing of authorization requests, which will result in children receiving appropriate treatment and approvals faster, when appropriate. The system will also provide reporting capabilities to facilitate analyzing data and trends in the PMA process. A later phase of the project includes developing and implementing functionality within the system to track the effectiveness or outcomes of the psychotropic medication treatment.

In an effort to continue maximizing the use of data in the decision making related to child safety, the Department will continue to work on the Approach to Understanding Risk Assessment project. The goal of this project is to apply modern data mining tools and methods to currently-collected data for

early identification and intervention of cases. The project will create a tool to further enhance assessment and intervention by measuring, monitoring and analyzing key risk factors associated with child abuse, which will allow DCFS to continue to ensure the well-being of children and families in its care.

Mission Statement

The Children and Family Services-Assistance Budget funds programs that: 1) support children who are placed in out-of-home care because of abuse or neglect; 2) aid prospective adoptive parents in meeting the additional expenses of caring for children with special needs; 3) incur expenses in the recruitment and placement of children with relative caregivers while legal guardianship is finalized; and 4) assist public and private agencies in providing child abuse and neglect prevention and intervention programs to meet the needs of high-risk children and their families.

2015-16 Budget Message

The 2015-16 Recommended Budget for Assistance Payments reflects a \$0.5 million decrease in NCC primarily due to the deletion of one-time funding of \$2.6 million for AB 12 and \$1.3 million for the Promoting Safe and Stable Families (PSSF) program. This decrease is partially offset by caseload and California Necessities Index (CNI) increases of 1) \$0.1 million in the Emergency Assistance (EA) program, 2) \$2.3 million in the GRI program, and 3) \$1.0 million in the Kin-GAP program.

Critical/Strategic Planning Initiatives

The Department is currently implementing a number of strategies to ensure safety, stability and permanency for children under its care. The efficiencies, as a result of the strategic changes, are projected to reduce foster care costs, while maintaining the best interest of each child. The three key areas that are projected to affect the assistance costs for foster care include: 1) ensuring that only those children and families, who would be appropriately served by the child welfare system, enter the system; 2) reducing the time children spend in out-of-home care; and 3) providing services to children and families that enable children to remain in their homes or achieve timely permanency.

Responsible for assessing and investigating allegations of child abuse and neglect; initiating legal action, when appropriate, to petition for court dependency status; and coordinating departmental response to child abduction cases. The Child Protection Hotline receives calls of alleged abuse and neglect, and determines whether to refer the allegations for investigation. Emergency response staff conducts in-person investigations and provides family-centered, strength-based planning processes, such as Family Preservation Services. When a decision is made to seek court supervision for a child, Juvenile Court Services takes action to establish court dependency status and functions as the liaison between the Department and the court.

Provides a continuum of services to promote permanency for children. These services include family reunification, legal guardianship, and adoption. Family reunification is the preferred permanency plan since it preserves family connections. Family reunification services include: case management and support, wraparound, emancipation, respite care, health, mental health, substance abuse treatment, and educational development. When it is not possible to reunify families, a plan of adoption or legal guardianship (with relatives or non-relatives) is considered. If adoption is the permanent plan, the services provided include recruitment and placement of children in adoptive homes, placement supervision until adoption is finalized, and post-adoptive services to birth, adoptive parents, and adoptee. The Department also provides recommendations to the Superior Court on independent adoptions arranged by the birth parents and stepparent.

Mission Statement

Community and Senior Services (CSS) and its partners deliver quality services to youth, adults, and seniors that promote independence, dignity, choice, and social well-being.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects a net decrease of \$0.2 million in gross appropriation primarily due to the reduction of one-time and prior year carryover funding for programs and services; a reduction of one-time funding for administration of the Youth Jobs Program; and a reduction in funding for retirement contributions. These decreases are partially offset by additional Realignment funding for Adult Protective Services (APS) and one-time funding for administration of the Youth Jobs Program.

Critical/Strategic Planning Initiatives

- Promote sound, prudent, and transparent fiscal policies and processes that help ensure maintenance of critical programs and services.
- Enhance economic and social outcomes through integrated services and best practices.
- Implement human capital best practices to enhance the recruitment, development, retention and well-being of qualified county employees.
- Develop and implement client-centered approaches through integrated services and best practices.
- Maximize the effectiveness of processes, structures and operations to support timely delivery of customer-oriented and efficient public services.

Mission Statement

To promote a fair and vibrant marketplace, we serve consumers, businesses, and communities through education, advocacy, and complaint resolution.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects an increase in NCC of \$0.9 million primarily due to the Board-approved transfer of the Office of Small Business from the Internal Services Department, creation of the Small Business Liaison, and Board-approved increases in salaries and health insurance subsidies. The Recommended Budget also includes the creation of the Consumer Corps Pilot Program to provide one-year internships to college and university students fully offset with departmental revenue.

Critical/Strategic Planning Initiatives

- Identify and secure additional office space to accommodate increased staffing and provide improved public access to our services;
- Reorganize department operations to incorporate the Office of Small Business, increase outreach and communications with existing local small businesses, and help new small businesses open in the County through the new Small Business Concierge service; and
- Implement the pilot Consumer Corps Program to create work opportunities to local college students that will help enhance the services of the Department and provide valuable work experience for youth.

Mission Statement

The mission of the County Counsel's Office is to provide the highest quality legal services to governmental clients by fully understanding their business needs; being accessible, responsive, and timely; proactively helping them guard against risk; providing sound advice and counsel; providing creative solutions and viable alternatives to their goals; and always acting in a responsible, professional, and ethical way.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects an increase in NCC of \$1.4 million, primarily due to Board-approved salaries and employee benefits and front funding for the fourth year of a five-year program for the Employment Advice Program and House Counsel Services Programs.

Critical/Strategic Planning Initiatives

County Counsel will continue ongoing strategic plan initiatives in support of the County's Strategic Plan, including:

- Developing and implementing new initiatives, strengthening current practices, and enhancing client relations through communication. The Office continues to develop and finalize requirements for its website redesign to improve ease of use and enhance its content. It will continue to be updated with information of interest to the public and it will serve as a gateway to restricted client-only areas where access to non-public information and resources can be provided to client agencies with appropriate authorization. Content and functionality specifications will be reviewed to ensure alignment with the Office's client service objectives. Drawing from multiple sources of client feedback including the Client Surveys, the Office will determine priority of services and adapt business processes to an online format.

- Reviewing and improving organization policies, processes and/or structures to enhance effectiveness. The Office will focus on staff development and skill improvement opportunities. Various employees will be surveyed to determine training needs and skills gaps. In addition, a survey will be distributed to County Counsel counterparts across the State to gather feedback on how training programs are developed and implemented. All survey results will be analyzed to develop a staff development program.
- Utilizing new and effective technologies to update office systems and programs and improving organizational effectiveness. As a result, it is necessary to augment the size of the Information Technology Branch staff. In addition, the Office is working towards the implementation of a web-based electronic case management and e-filing system for our Workers' Compensation Division and an electronic case management system for the Dependency Division. Also, the current Risk Management Information System will be replaced with a new management system.
- Managing resources more effectively by promoting prudent fiscal policies and practices and exploring innovative methods that help ensure fiscal stability. For instance, the Office continues to ensure that its risk management practices are aligned with the rest of the County and enhancing current ergonomic and wellness awareness programs to better manage risks associated with employee safety.
- Assessing, enhancing, implementing and monitoring the cybersecurity and privacy framework and program to better protect and preserve the privacy, confidentiality, integrity and availability of the County's IT infrastructure, assets and information. County Counsel's Health Insurance Portability and Accountability Act (HIPAA) Privacy and Security Officer and members of the legal staff participate in the HIPAA/Health Information Technology for Economic and Clinical Health Act (HITECH) Privacy and Security Committee to ensure departmental compliance.

Mission Statement

The District Attorney of the County, as a constitutional officer and the public prosecutor acting on behalf of the people, is vested with the independent power to conduct prosecutions for public offenses, detect crime and investigate criminal activity. The District Attorney advises the Grand Jury in its investigations. By law, the District Attorney sponsors and participates in programs to improve the administration of justice.

The District Attorney fulfills these responsibilities through the efforts of the employees of the Office of the District Attorney (Office). Each employee of the Office shall adopt the highest standards of ethical behavior and professionalism. Each employee, moreover, is integral to achieving the mission of the Office and shares the District Attorney's obligation to enhance the fundamental right of the people of the County to a safe and just society. At all times, the mission of the District Attorney's Office shall be carried out in a fair, evenhanded and compassionate manner.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects an NCC decrease of \$6.1 million primarily due to the deletion of one-time funding for the Hall of Justice (HOJ) Project and police radios, an increase in public safety sales tax (Proposition 172) revenue, and lease cancellation related to the HOJ Project, partially offset by Board-approved increases in salaries and employee benefits, and the additions of 4.0 positions for the Electronic Suspected Child Abuse Reports (E-SCARS) unit, 6.0 positions for Paralegal/Paraprofessional Support, 5.0 positions for a new conviction review unit, as well as funding for high tech crime training. The Recommended Budget also reflects the addition of 4.0 positions for the Cooperative Disability Investigations - Social Security Administration (CDI-SSA) fully offset by grant funding.

Critical/Strategic Planning Initiatives

The Office's FY 2015-16 strategic planning efforts remain focused on the following areas:

- Expand the application of alternatives to incarceration in appropriate cases.
- Carry out the provisions of AB 109 including training and refining internal statistical reporting mechanisms.
- Increase efforts to address the proliferation of identity theft and cyber crimes.
- Advance a crime prevention campaign aimed at educating and protecting citizens from financial crimes, particularly those involving seniors.
- Increase involvement in the environmental crimes enforcement community.
- Continue to work on information and document exchanges with other criminal justice agencies.

The Juvenile Offender Intervention Network (JOIN) Program provides swift intervention (before court filing) through an accountability-based program for juveniles ages 10-17 who have committed a fileable, non-violent, first-time offense. Mission Statement

The Emergency Preparedness and Response (EPR) budget was created to support County and the operational area's emergency preparedness, with high priority given to planning, training, exercising and coordination of response and recovery operations.

2015-16 Budget Message

The EPR budget provides funding for the County Office of Emergency Management to prepare and implement plans and policies for the protection of life and property within the County in the event of an emergency or disaster; operate and maintain the County Emergency Operations Center (EOC), train personnel assigned to County government, special districts, and other jurisdictions throughout the County; plan support for Homeland Security; develop and provide emergency and disaster related educational materials for County residents; and conduct countywide disaster exercises.

Management of the County EOC includes the Operational Area Response and Recovery System, an internet-based information reporting and notification system used by jurisdictions and agencies in the County operational area to convey conditions and operational status as a result of an incident, emergency or disaster, and the Specific Needs Awareness Planning program, also an internet-based comprehensive planning and response tool developed to address the needs of residents that may have an insufficient ability to self-evacuate, or who may require specialized care and resources during a disaster.

The budget also incorporates funds for Homeland Security Grants that includes the State Homeland Security Grant Program; Urban Area Security Initiative; Law Enforcement Terrorism Prevention Program; Citizens Corps Program; Buffer Zone Protection Program; and the Emergency Management Performance Grant for County departments, unincorporated areas, special districts, and cities within the operational area.

The 2015-16 Recommended Budget reflects deletion of \$1.0 million in carryover funding.

Mission Statement

The Extraordinary Maintenance Budget reflects appropriations for major maintenance of County facilities and assets, including legally required building alterations, unanticipated emergency repairs, disaster-related repairs that are not funded by the Federal Emergency Management Agency, and high-priority building maintenance activities that exceed the resources available to County departments.

2015-16 Budget Message

The County's infrastructure requires ongoing investment to meet continuous performance requirements. The 2014-15 budget appropriated funds for critical repairs, including heating, ventilating and air conditioning (HVAC), elevators, fire safety, and roof repairs and other desperate maintenance needs throughout the County. The 2015-16 Recommended Budget appropriates \$170.8 million for critical and other high-priority repairs, maintenance, and accessibility modification needs at County facilities, including beaches, parks, juvenile halls and camps, senior centers, and health centers.

This decrease is partially offset by an ongoing allocation to fund deferred maintenance and critical repairs for various County facilities.	(26,430,000)	--	(2,552,000)	(23,878,000)	--

These unfunded needs include various general facility repairs; replacement of outdated building systems such as boilers, chillers, HVAC units; roofs; and elevator upgrades to achieve building operational efficiencies.

2015-16 Budget Message

The 2015-16 Recommended Budget includes financing sources and financing uses as follows:

Financing Sources

For budgetary planning purposes, the Chief Executive Office considers total financing sources the difference generated in FY 2014-15 from County revenues exceeding expenditures (fund balance available), the use of prior-year obligated fund

balance, and property taxes. Any decrease in fund balance available from the budgeted amount will require expenditure reductions or the identification of additional financing.

The recommended fund balance of \$1,319.3 million is comprised of \$146.9 million from General Fund operations; and \$1,172.4 million of unused FY 2014-15 funds carried over to FY 2015-16 for the following:

- \$494.5 million of Capital Projects funds for the completion of various projects and refurbishment needs;
- \$151.3 million of Extraordinary Maintenance funds for major repairs and maintenance of County facilities and assets;
- \$38.8 million of Project and Facility Development funds for consultant and specialized services related to projects that are under development, as well as improvements to County facilities;

- \$378.8 million of Provisional Financing Uses funds primarily for the Departments of Children and Family Services, Board of Supervisors, Sheriff, Probation, Public Social Services, and Mental Health, as well as the Correctional Enhancement Program, Comprehensive Diversion - Inmate Treatment programs and future budget uncertainties;
- \$54.2 million of Board of Supervisors funds for various community programs;
- \$22.7 million of Homeless and Housing Program funds for Homeless Prevention Initiative projects;
- \$25.5 million of Children and Family Services funds for the Katie A. Settlement Agreement;
- \$4.7 million of Department of Public Social Services funds for General Relief restructuring projects; and
- \$1.9 million for continued support of the Los Angeles Regional Interoperability Communications System Joint Powers Authority administrative operations.

Obligated fund balance of \$12.1 million is decreased for the following:

- \$9.5 million of Health Services Tobacco Settlement funds for health-related costs;
- \$1.5 million for the Assessor's Legacy System Replacement Project to ensure that the design, functionality and operational effectiveness of the replacement system meet the County's operational and business objectives;
- \$0.9 million for the Pitchess Detention Center Landfill to satisfy the closure requirements adopted by the Los Angeles Regional Water Quality Control Board in November 2014; and
- \$0.2 million for Public Library Homework Centers.

Property tax revenues reflect a net increase of \$212.3 million from the FY 2014-15 Final Adopted Budget. The increase includes \$211.8 million due to a projected 5.05 percent increase in assessed valuation; and \$0.5 million in sales tax (Triple Flip) revenue as a result of anticipated increases in taxable sales in the County. Property tax revenues include in-lieu vehicle license fee revenue as part of the State's Local Government Agreement (2004 Budget Act).

The recommended property tax revenue changes are comprised of the following:

- \$211.6 million increase in the Regular Roll;
- \$0.2 million increase in the Supplemental Roll; and
- \$0.5 million increase related to the taxable sales in the County and the dollar for dollar swap of sales tax revenue with Educational Revenue Augmentation Fund (ERAF) property tax revenue (Triple Flip).

Financing Uses

Financing Uses include funding for appropriations for contingencies as outlined in the revised Board Policy 4.030 "Budget Policies and Priorities", approved on September 30, 2014.

Provision for obligated fund balance may be nonspendable, restricted, committed or assigned for specific needs including future legal or contractual obligations. There is no provision for obligated fund balance financing uses in 2015-16.

Mission Statement

To protect lives, the environment, and property by providing prompt, skillful, and cost-effective fire protection and life safety services.

2015-16 Budget Message

The Fire Department, as a Special District, is funded independent of the County General Fund, and relies primarily on property taxes and a special tax approved by the voters in 1997 to provide essential fire protection and emergency medical services. The Department will be focusing on establishing the Emergency Medical Services (EMS) Bureau; ensuring fiscal sustainability by identifying new revenue

streams and maintaining sufficient levels of reserves; minimizing risk; and enhancing the culture of the organization through continuing training. These efforts will provide the foundation to sustain the current level of emergency staffing and essential support services.

The 2015-16 Recommended Budget includes 2.0 support positions to assist with the firefighter examination process; funding for Board-approved increases in salaries and employee benefits; services and supplies and capital assets for the new EMS bureau and other operations, partially offset by decreases in retirement and unavoidable costs; and the deletion of one-time funding for firefighter training classes, settlement expenses, capital assets and other expenditures.

Critical/Strategic Planning Initiatives

The Department's Strategic Plan includes 12 goals designed to support the Department's envisioned future. These goals are: Preventing Injury and Illness; Delivering Exemplary Emergency Services; Innovating New Delivery Systems; Fostering Workforce Excellence; Ensuring Financial Stability and

Accountability; Developing the Leader in Each Employee; Strengthening the Department's Infrastructure; Automating its Systems; Containing Risks; Mitigating Disasters; Preparing the People Served; and Communicating the Department's Value.

Mission Statement

The Los Angeles County Civil Grand Jury investigates and reports on the operations, accounts, and records of County departments, cities, and any special legislative district or other district in the County created pursuant to State law, for which the officers of the County are serving in their capacity as officers of the districts pursuant to Article 1, Section 23, among other sections, of the California Constitution.

The Criminal Grand Jury makes inquiries into public offenses committed or triable within the County and presents them to the Court by indictment. The Criminal Grand Jury also conducts investigations brought to them by the District Attorney's Office.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects a decrease in NCC of \$4,000 primarily due to a decrease in retirement contributions.

Critical/Strategic Planning Initiatives

The Grand Jury continues to:

- Increase recruitment of Civil Grand Jurors to better represent the varied population of the County;
- Safeguard valuable Grand Jury original records and develop long-term storage solutions; and
- Plan for a third Grand Jury to be used for Criminal Grand Jury matters when needed.

Unmet Needs

The County's Grand Jury requires additional staff to address an increased workload in recruitment and selection. In order to maintain compliance with the law and meet the Board's expectations, recruitment of all segments of the County's population is required. Funding for 1.0 full-time position at the level of Administrative Assistant II (estimated cost of \$75,000) is needed to address increases in workload.

The second Criminal Grand Jury (SB 796, which added Section 904.8 to the Penal Code), if and when impaneled, will require additional funding of approximately \$900,000 for staff, grand juror expenses, space, and infrastructure.

Mission Statement

The mission of the Department of Health Services (DHS) is to ensure access to high-quality, patient-centered, cost-effective health care for County residents through direct services at DHS facilities and through collaboration with community and university partners.

On behalf of the community, the Department provides vital inpatient acute care services in four hospitals, and outpatient services at two outpatient centers (OC), six comprehensive health centers (CHC), 11 health centers, and over 100 Community Partners' clinics. The Department works in close collaboration with other County departments, such as Mental Health, Public Health, Probation, Children and Family Services, and the Sheriff, to provide targeted, coordinated services to fragile residents with specific needs in the

communities. The Department also manages emergency medical services for the entire County, and trains over 1,000 physician residents annually.

The Department ensures that the medically indigent have appropriate access to health care in their communities. DHS serves as a provider, contractor, and coordinator of health care services that are effective, efficient, and comprehensive, and that lower the cultural, linguistic, financial, and disability-related barriers to access.

2015-16 Budget Message

The 2015-16 Recommended Budget is fully funded with available resources, and reflects the minimum maintenance of effort (MOE) required by law (\$332.8 million and vehicle license fees (VLF)-realignment revenue of \$266.8 million), plus an

additional \$71.4 million in County funding. The additional County funding components include \$11.7 million from the General Fund and \$59.7 million in Tobacco Settlement funds. The Recommended Budget also reflects \$25.1 million in County resources allocated to the Department of Public Social Services (DPSS) for the In-Home Supportive Services (IHSS) Provider Health Care Plan and \$11.8 million allocated to the Capital Projects/Refurbishments budget for health-related capital projects.

The Recommended Budget reflects a net increase in NCC of \$73.1 million, consisting primarily of increases in VLF of \$67.6 million and a one-percent increase of \$3.3 million in the MOE related to AB 85, which governs the Affordable Care Act (ACA) implementation in California.

The Recommended Budget includes a net increase of 366.0 positions and related operational costs, primarily associated with 351.0 positions for the second phase of the standardized nurse staffing plan to comply with State regulations, 30.0 positions for the second phase of the community health worker initiative to facilitate medical care for high-risk, high-need patients, 27.0 positions to establish additional primary care medical homes, and 14.0 positions to support the Medical Hubs expansion. The Recommended Budget also includes funding in support of patient care at the new Martin Luther King, Jr. Community Hospital (MLKCH) anticipated to open in May 2015.

The Recommended Budget reflects \$210.3 million in Measure B Special Tax revenue, of which \$208.5 million is allocated for County hospital emergency and trauma care costs and \$1.8 million is allocated for services related to trauma centers and emergency medical services in Health Services Administration-Emergency Medical Services.

The Recommended Budget also reflects the use of \$184.9 million in estimated obligated fund balance to be transferred to the four hospital enterprise funds for ongoing health care costs.

Critical/Strategic Planning Initiatives

The ACA was implemented on January 1, 2014 and the Department is continuing to refine its analysis of the impact. The Department is making good progress on key initiatives and operational changes that will prepare the health system to succeed under the ACA. With the support of the Board, DHS and its many partners are working together to transform its system into an integrated care delivery model that will enable it to provide the right care, at the right time, in the right location, by the right kind of provider.

The Recommended Budget includes a revenue placeholder of \$81.3 million while the Department continues to work diligently to develop its revenue projections related to the ACA, the upcoming replacement 1115 Waiver, and the reconciliation of the AB 85 realignment revenue redirection.

The Online Real-Time Centralized Health Information Database (ORCHID) budget unit, also known as the Electronic Health Record Information System (EHRIS), was established in November 2012 to account for the staffing costs associated with the development of DHS' electronic health record system. It has since been expanded to include all costs related to the development, design, and construction activities of ORCHID, including the related capital projects, that will be paid for out of DHS' operating budget.

A separate special fund was established to account for the development of the system and related capital projects that may be funded through the issuance of tax-exempt commercial paper.

Mission Statement

The Homeless and Housing Program (HHP) was initiated to address the County's commitment to preventing and reducing homelessness in the County. In 2006, the Board approved a \$100.0 million Homeless Prevention Initiative (HPI). The Chief Executive Office (CEO) has managed this initiative and worked with County departments, the Los Angeles Homeless Services Authority (LAHSA), the City of Los Angeles, various other cities as well as many nonprofit partners to increase permanent housing opportunities and needed supportive services for homeless individuals, families, and youth. The HHP focuses on the following: increasing the number of permanent housing units (new development and market rate rentals) that target homeless individuals and families for occupancy; increasing the number of rental subsidies for these housing opportunities; aligning existing health, mental health, and substance abuse resources with permanent housing opportunities to ensure that residents receive needed services and remain housed; and maximizing and leveraging other funding streams to increase service impact.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects an overall NCC decrease of \$7.7 million in one-time funding primarily due to the reduction in one-time carryover savings. The budget provides \$40.7 million in one-time and ongoing funding for homeless assistance programs including: Homeless Families and Single Adult Housing models; Long Beach Homeless Veterans Initiative which provides emergency, transitional, permanent housing, and supportive services for veterans; Specialty Courts such as the Prototype Court and Homeless Court Programs for defendants who are homeless and have co-occurring illnesses (mental health and substance abuse); and others that provide supportive services for homeless families, individuals, and veterans.

Although the recent economic downturn has improved nationally, the negative impact on the homeless population continues to exist. It is important that the County continue to work towards preventing and ending homelessness for individuals, families, and youth.

Critical/Strategic Planning Initiatives

The HHP has overseen at least 63 programs funded in part by HPI, with the goal of securing emergency, transitional, or permanent supportive housing for individuals, families, or youth. Some of the highlights include:

- Established the Family Solution Centers (FSC), which connects homeless families to one of eight FSCs for rapid rehousing, permanent supportive housing, and services. This project is funded in part by HPI (\$1.0 million) and is administered by LAHSA.
- Implemented the Single Adult Model, to permanently house and provide supportive services to homeless single adults who have physical and/or mental health conditions, and who may also have a co-occurring substance abuse disorder.

- Participated in the United Way's Home for Good Funders Collaborative, which resulted in millions of dollars being leveraged and coordinated to permanently house and provide supportive services for approximately 1,000 chronically homeless individuals.
- Continued the process and strategies learned from the Homeless Encampment Protocol program, which responded to homeless encampments throughout the County. This collaborative program addressed over 35 homeless encampments throughout the County in 2014.

In addition, HHP is in the planning stages to consolidate funding for Transition Age Youth (TAY) to build a system to help homeless TAY obtain stable housing and achieve self-sufficiency.

Mission Statement

Provide innovative and efficient human resource solutions to support public service by recruiting, developing, and retaining a highly qualified, diverse workforce.

standardization in countywide human resource practices, particularly in the area of workplace investigation and advocacy/performance management, by identifying best practices and providing proper measures to common policy issues.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects a decrease in NCC of \$0.7 million. The decrease is primarily attributed to the deletion of one-time funding, partially offset by increases in Board-approved salaries and employee benefits, the expansion of the Executive Leadership Development Program and front funding for the Impact Team.

- Key accomplishments of DHR over the past year include: 1) additional migration of historical cases from department legacy systems to the Performance Management Tracking System (PMTS), a central repository for all administrative matters related to discipline in the County, and the rollout of the PMTS Executive dashboard that enables access to real time data across departments; 2) the completion of the countywide rollout of the Absence Management System (AMS) which provides for a standardized tool for case management of employees on leave in accordance with federal and State laws and County leave policies; 3) the implementation of the Career Development Intern (CDI) Program through coordination with County departments on the hiring of CDI for all non-exempt departments; and 4) the graduation of the first five cohorts of the Executive Leadership Development Program (ELDP), a targeted training for the County's mid-to-senior level managers in support of the County's succession planning effort.

Critical/Strategic Planning Initiatives

- To appropriately align delivery/tracking of training with business needs and latest technologies, the Department of Human Resources (DHR) will develop and implement a new countywide eLearning system to replace the existing LearningNet. DHR will continue to work closely with the Auditor-Controller and line departments on the implementation of the new enterprise online application and examination system. In addition, DHR will further enhance

■ Other notable accomplishments include: 1) deployment of the e-Form for annual outside employment reporting which eliminates the manual process previously required for the tracking of data and related reporting and provides a central depository of such information within the County; 2) completion of the Management Appraisal Performance Plan (MAPP) redesign effort through the implementation of a new MAPP evaluation form that improves the overall performance management value of the Plan and facilitates

training for all MAPP participants; 3) administration of a significant number of large-size master calendar and department-specific exams at the convention center with funding support for testing facility rental costs; 4) completion of the Fair Labor Standards Act (FLSA) compliance exam and compliance reviews for additional line departments; and 5) winning the National Association of Counties (NACo) Achievement Award for the countywide fitness challenge and the PMTS.

Mission Statement

The Internal Services Department (ISD) supports the County by providing excellent in-house, contracted, and advisory services in the areas of purchasing, contracts, facilities, information technology (IT), energy and environmental programs, and other essential support services.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects a decrease in NCC of \$2.5 million primarily due to the deletion of one-time funding for the email migration of five County departments, building maintenance workload, server consolidation, power and sustainability improvements at the Downey Data Center, purchase of plug-in hybrid electrical vehicles, settlement costs for a case finalized in 2014-15, and a reduction in ongoing funding for the transfer of the Office of Small Business (OSB) to the Department of Consumer and Business Affairs (DCBA). These decreases are partially offset by ongoing and one-time funding for building maintenance workload, enhancements in building maintenance, crafts apprenticeship program, and increases in salaries and employee benefits. Also, reflected is a net increase of \$7.1 million in appropriation and 11.0 positions primarily attributable to various reimbursable services

provided to County departments and other agencies, such as building maintenance, telecommunications, computing, and fleet services.

Critical/Strategic Planning Initiatives

The ISD Strategic Plan for 2015-16 identifies strategic areas of focus and associated goals that will enhance its ability to provide effective and cost efficient internal and external customer service, as well as take a leadership role in implementing the County's Environmental Policy. This year's plan includes the following new or continuing strategic objectives:

- Collaborate with the CIO and CEO to determine data center space requirements of all departments and provide information to the Board on data center consolidation efforts including build, acquisition or lease alternatives.

- Continue leading a countywide effort to reduce water consumption in County facilities. ISD will coordinate with County departments and provide technical support, assist in identifying external funding and incentives, and report results through the County's sustainability website or other online reporting tools. Significant reductions in water consumption in County facilities can be achieved through use of efficient plumbing fixtures, upgrades to campus and building cooling towers, and improvements to landscaping irrigation.
- Continue leading a countywide effort to deploy Electrical Vehicle Supply Equipment (EVSE) stations at County facilities to charge employee and public plug-in vehicles. A pilot is currently underway that will run through July 2015 and will culminate in a report to the Board with recommendations for cost recovery.
- Continue to operate and maintain a number of essential legacy computing systems on behalf of County departments and the courts. ISD is developing a strategy for all legacy applications, and will identify the risks and costs for continued operations and support versus modernization, re-platforming or replacement.
- Lead countywide initiatives to replace telecommunications infrastructure. ISD is working to replace obsolete Private Branch Exchange (PBX) telephone systems (67,000 users) and Centrex systems (58,000 phones) with VoIP due to planned obsolescence in the year 2020. ISD is monitoring industry trends to identify the impact mobile devices will have on this initiative.
- Continue expanding broadband capacity to accommodate videoconferencing, electronic medical records, server virtualization, data center centralization, Wi-Fi access, and increased use of personal computing devices.
- Continue with re-banding and replacing the Countywide Integrated Radio System (CWIRS) with a new P-25 compliant system and continue to provide essential radio technical support and contracting expertise to the Los Angeles Regional Interoperable Communication System.
- Continue the expansion of ISD's customer service quality assurance program to ensure strong customer feedback mechanisms.

Major accomplishments from last year include:

- Supported the CEO in developing an Enterprise Risk Information Center Dashboard (ERIC) utilizing the IBM Cognos Business Intelligence tools to pull data from the Risk Management Information System Data Mart. ERIC provides County managers with informational tools to better understand and recognize the nature of claim costs that will allow for prioritization, selection, and implementation of control measures to lessen the probability of future claims and the associated costs of administering claims. ERIC is in use countywide.
- Assisted the Department of Social Services (DPSS) with the expansion of their Your Benefits Now (YBN) system in support of the California implementation of the Affordable Care Act, known as CalHEERS, and added 170 VoIP agents to the DPSS Contact Center.
- Implemented all Southern California Regional Energy Network (SoCalREN) programs, including the Energy Upgrade California program that provides low-cost options to implement energy-saving measures including incentives for residential and multi-family properties.
- Increased the number of customers in the County's Centralized Email System (CES) from 47,000 to 60,000 and began preparations to move to the Microsoft Office 365 Government Cloud for email services.
- Expanded ISD's private cloud hosting solution, from 1,670 to 2,060 servers. Implemented user self-service server deployment, which brought the average server deployment time to less than 25 minutes. Provided choices in server hosting from basic to fully managed and reduced the cost per server ranging from 21 percent to 71 percent based on need.
- Completed the build-out of the new CWIRS P-25 radio infrastructure, including all towers and microwave sites, in preparation for full customer equipment replacement for the coming year.
- Migrated over 130 frame relay Asynchronous Transfer Mode (ATM) circuits to fiber MetroEthernet, providing a lower price point for expanded bandwidth to meet departmental needs for centralized services, videoconferencing and mobility.
- Enabled mobile employees by implementing a new service for IT Shared Services customers to provide access to critical applications outside of a full computer desktop.
- Implemented energy-efficiency projects (lighting retrofits/controls, heating ventilation air conditioning, retro-commissioning) that resulted in a countywide annual cost avoidance of \$0.8 million in electric and natural gas costs.

Mission Statement

The Los Angeles County Capital Asset Leasing (LAC-CAL) Corporation was established as a non-profit corporation by the Board in 1983 to assist the County in the financing of its critical capital assets equipment needs. Equipment purchases are initially financed by LAC-CAL through the issuance of bond anticipation notes (BANs). Outstanding BANs are periodically redeemed through the issuance of intermediate-term tax-exempt bonds or certificates of participation, or through leases with third-party lessors. The term of each bond issue or lease reflects the useful life of the financed equipment. The Corporation's outstanding bonds or leases are redeemed through semi-annual payments from the County.

2015-16 Budget Message

The 2015-16 Recommended Budget provides for the collection of lease payments due on LAC-CAL equipment leases from County departments and the transfer of such payments to the LAC-CAL Corporation. Also reflected is the payment of insurance premiums for which expenditures will be distributed to affected departments.

Mission Statement

The mission of the Los Angeles Regional Interoperable Communications System (LA-RICS) budget unit is to provide funding and support for the County's efforts as part of the LA-RICS Joint Powers Authority (JPA), an independently operated governmental entity. The mission of the JPA is to construct, operate and maintain a shared, secured voice and data communications system that supports first responders and mission-critical personnel within the greater Los Angeles area.

2015-16 Budget Message

In prior fiscal years, the JPA issued separate and independent requests for proposals (RFP) for the design and construction of public safety-grade Land Mobile Radio (LMR) voice and Long-Term Evolution (LTE) data wireless networks. The JPA then selected, negotiated and awarded separate contracts to the prevailing vendor in both RFPs.

Both the LMR and LTE networks are currently undergoing system design, with the JPA expediting all work associated with the LTE network in an effort to utilize federal grant funding resources that expire in August 2015. The LMR network features a more practical design schedule, due to flexibility of its funding sources. Each network is independent of the other and will be activated separately.

The JPA is also refining the details of the system's estimated financing needs, and is in the process of developing a comprehensive funding plan and formula to divide the system's costs equitably among its members.

The 2015-16 Recommended Budget reflects continued funding for administrative operations of the JPA.

Mission Statement

The Department of Medical Examiner-Coroner is mandated by law to inquire into and determine the circumstances, manner, and cause of all violent, sudden, or unusual deaths occurring within the County, including all homicides, suicides, accidental deaths, and natural deaths where the decedent has not seen a physician within 20 days prior to death.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects an NCC decrease of \$3.2 million primarily due to the deletion of one-time and carryover funds for the new electronic case file system (ECFS) and a reduction in capital assets, offset by Board-approved adjustments in salaries and employee benefits and one-time funding to continue implementation of the ECFS. The Recommended Budget also reflects the deletion of 20.0 volunteer positions.

The Medical Examiner-Coroner strives to provide compassionate, quality service to all of its customers, including decedents' families, funeral directors, law enforcement, courts, the District Attorney, Public Defender and other justice agencies, foreign consulates, and the news media. Goals and objectives are designed to improve the level of service

provided to the community, by delivering complete work products in a timely, accurate, efficient and usable manner. The Department is proud to be a leader in death investigation and continues to be successful in maintaining the following accreditations: National Association of Medical Examiners, Institute of Medical Quality/California Medical Association, Accreditation Council for Graduate Medical Education, Peace Officers Standards and Training, and, American Society of Crime Laboratory Directors/Laboratory Accreditation Board-International (ASCLD/LAB-ISO).

Critical/Strategic Planning Initiatives

The Department will assess and prioritize new and ongoing departmental IT projects including the continued development and implementation of the ECFS. The Department will continue to work with the Chief Information Office and the Internal Services Department to complete the next phases of the project.

These analyses are used by deputy medical examiners to help determine the cause and manner of death, and are also used by decedent families, law enforcement, insurance companies and the courts. Department criminalists are on call 24/7 to respond to crime scenes for the purpose of physical evidence identification, collection, documentation and preservation. Laboratories also provides gunshot residue testing for the Department as well as for law enforcement agencies throughout California. Laboratory services also include tissue processing for microscopic evaluation by deputy medical examiners. The Forensic Laboratory is also responsible for maintaining all physical evidence on Coroner cases in a manner that ensures its analytical integrity and the chain-of-custody documented from the time of collection to final disposition. Evidence control is based on departmental policies and procedures as well as guidelines set forth by ASCLD/LAB-ISO whose accreditation the Department holds.

Mission Statement

“Partnering with clients, families and communities to create hope, wellness and recovery” is the vision adopted by the Department of Mental Health (DMH), its stakeholders and community partners in the County’s public mental health system. DMH developed a strategic plan designed to achieve this vision and guide the system’s mission, “to enrich lives through partnerships designed to strengthen the community’s capacity to support recovery and resiliency for all clients and their families.” More specifically, DMH, through its large network of directly operated and contracted agencies, aims to provide clinically competent, culturally sensitive and linguistically appropriate mental health services to its clients in the least restrictive manner possible. These services are tailored to help individuals achieve their personal goals, increase their ability for independence, and develop skills to lead the most constructive and satisfying life possible. In addition to providing direct services to more than 250,000 individuals with mental illness each year, DMH also makes a significant contribution to prevention and early intervention for those at risk of developing mental health conditions. DMH prevention efforts include, but are not limited to, decreasing stigma, preventing suicide, and strengthening families with young children.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects the Department’s focus on strategic initiatives that represent collaborations with other County departments and a commitment to countywide priorities. DMH will enhance services provided to Transition Age Youth (TAY), a population that has historically been reluctant to seek care. As stigma has been reduced and awareness of the benefits of early services for TAY has increased, demand for services has also expanded. The Recommended Budget reflects a growing investment in contracted services for TAY including additional emergency shelter beds; two new drop-in centers where TAY can receive outreach, engagement and navigation services to link them to mental health providers; and two additional psychiatrists to address mental health, developmental, and social issues unique to this population.

The Recommended Budget reflects additional funding for jail diversion through implementation of SB 82 Oversight and Accountability Commission (OAC), SB 82 California Health Facilities Financing Authority (CHFFA), and Assisted Outpatient Treatment also known as Laura’s Law. The Recommended Budget includes 69.0 positions and funding for contract agencies to implement SB 82 OAC. This will enable DMH to establish mobile crisis and triage teams for homeless individuals, veterans and older adults in all eight service areas.

It will also enhance contracted jail in-reach services provided by agencies with extensive forensic mental health expertise; and more effectively link hospital emergency rooms with existing and planned mental health urgent care centers (UCC). The UCC will also serve as the locations where law enforcement may transport individuals identified as eligible for pre-booking diversion.

The Department is also adding three additional UCC programs and 35 Crisis Residential Treatment Programs, including the addition of 19.0 positions, funded by the SB 82 CHFFA grant. The UCCs will be Lanterman-Petris-Short- (LPS) designated and provide crisis intervention and stabilization services 24 hours per day, 7 days per week, including integrated services for co-occurring substance abuse disorders, for individuals 13 years and older who would otherwise be taken to emergency rooms or incarcerated. The Crisis Residential Treatment Programs will provide the most intensive level of residential services and will target the prevention of hospitalization or incarceration, and reduce hospital stays. Similarly, the Recommended Budget reflects the addition of 18.0 positions and expansion of contracted treatment services for the implementation of Laura's Law. Laura's Law serves those who suffer from mental illness, have refused offers of mental health treatment, are deteriorating, are often homeless, and frequently come to the attention of law enforcement.

The Recommended Budget further reflects a continued focus on implementation of the Affordable Care Act (ACA) by adding positions associated with prior expansion of the ACA and to support educational opportunities for the professionals needed to implement health care reform. The Recommended Budget also funds consultation services for individuals with co-occurring mental health and substance abuse disorders.

Critical/Strategic Planning Initiatives

DMH continues to identify and implement strategic approaches to ensure the provision of high quality and cost-effective care to individuals with serious mental illness/disorders. In FY 2015-16, in addition to the items included above, these will include:

- Expansion of integrated mental health-substance abuse disorder-primary care services through a variety of structural arrangements (e.g. DMH staff co-located in DHS facilities, involvement of substance use disorder providers in mental health urgent care facilities, Federal-Qualified Health Center primary care staff delivering services in DMH directly operated, and contracted mental health programs).
- Continued development of strategies that support integrated care such as universal authorization forms, common care plans, integrated referral and screening via electronic platforms, such as eConsult.
- Collaboration with other County Departments such as Children and Family Services (Katie A. Strategic Plan), Probation (Juvenile Justice), and Public Social Services (GR).
- Continued implementation of the Psychiatric Emergency Service Decompression Plan, including expansion of the Olive View UCC in collaboration with DHS.
- Development of a new Mental Health Services Act (MHSA) Innovations Program designed through the MHSA stakeholder process.
- Implementation of the Integrated Behavioral Health Information System (IBHIS) with full entry of DMH directly operated programs into the system and expansion for contract providers.
- Expansion of Mental Health-Law Enforcement Teams that respond to law enforcement calls involving individuals with known or suspected mental illness.
- Continuation of focus on outcomes and increasing services for underserved ethnic populations.

Mission Statement

The Department values the dedication and sacrifice of the military, veterans, and their families by promoting awareness of their contributions through programs that advance veterans' services and benefits. The Department also advocates on behalf of veterans for legislation and changes in laws that enrich their quality of life.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects an NCC decrease of \$0.3 million primarily due to the deletion of one-time carryover funding for the Veterans Outreach Program, furniture restoration, vehicle purchase and Patriotic Hall Military Museum Project. The Recommended Budget also includes funding for Board-approved increases in salaries and employee benefits.

Critical/Strategic Planning Initiatives

The Department continues to focus on increasing veterans' service levels by collaborating with County departments, developing and training staff, and partnering with military and veterans' service organizations. The Department will optimize operational effectiveness and integrate service delivery by:

- Strengthening and enhancing its capacity to sustain essential veterans' service through effective training, agency collaboration and leadership by:
 - Ensuring that all veteran service representatives are State-accredited by the California State Department of Veterans Affairs (DVA), Training Responsibility Involvement Preparation of Claims (TRIP) through the Department of Veterans Affairs, and nationally accredited through the National Association of County Veteran Service Officers.

- Establishing partnerships with County departments and veteran organizations and agencies such as: 1) partnering with the Department of Public Social Services to identify veterans receiving General Relief and pursue compensation claims with the DVA; 2) coordinating with the Department of Mental Health (DMH) to provide mental health services to veterans and their families; 3) continuing efforts with the Sheriff's Department to provide services to veteran inmates in County jails; 4) working with the Departments of Human Resources and Beaches and Harbors to explore job opportunities for veterans; 5) building a one-stop veterans shop at Patriotic Hall in partnership with veterans organizations and agencies; and 6) implementing a communications plan connecting veterans to services and benefits.
- Maximizing opportunities to measurably improve veteran's outcomes and leverage resources by:
 - Delivering veteran services through innovative methods and continuous integration by establishing Memorandums of Understanding with County departments and agreements with veteran organizations.
 - Increasing outreach and promoting efforts to increase the number of veterans receiving services using outcome measures.
 - Providing learning opportunities in partnership with academic institutions, and County and government agencies.
 - Recognizing department/staff through applications for County, State and national awards programs.

Mission Statement

The Los Angeles County Museum of Art's (LACMA) mission is to serve the public through the collection, conservation, exhibition and interpretation of significant works of art from a broad range of cultures and historical periods; and to translate these collections into meaningful educational, aesthetic, intellectual, and cultural experiences for the widest array of audiences.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects a net increase of \$0.1 million primarily due an increase in the CPI-based COLA adjustment pursuant to the 1994 operating agreement amended on May 20, 2008, partially offset by the deletion of one-time carryover funding. The Recommended Budget also includes funding for Board-approved increases in salaries and health insurance subsidies fully offset with a decrease in services and supplies funding consistent with the Board-approved operating agreement.

The Recommended Budget continues support for a full exhibition schedule, including special presentations of works by Frank Gehry, Ed Moses, Noah Purifoy, and Diana Thater, as well as a costume and textiles installation highlighting men's fashion. The permanent collection will be highlighted with installations of pre-Columbian, Chinese, Korean, and Japanese

works. Several LACMA-organized exhibitions will continue to travel domestically and abroad, raising the museum's image and prestige in the field, including Larry Sultan (Milwaukee), Earthly and Divine (Mexico and Saudi Arabia), and New Objectivity (Italy).

Art Programs with the Community continues its multi-year partnership with schools, libraries, and other organizations throughout Los Angeles Unified School District Local Districts East, West, and South. Through this program, LACMA provides curricula for teachers that make connections with the State Content Standards for the visual arts, language arts, and social science. LACMA is also continuing the Art + Film Educational Initiative, designed to expose audiences to the intersection between art and technology. This program series includes hand-drawn animation workshops for LAUSD middle school students (Frame x Frame), classroom teacher professional development (Art + Film Teacher Institute), and an after school filmmaking program (Through Your Lens). Evenings for Educators continues to be a successful professional development program for K-12 teachers, presenting strategies to incorporate the visual arts into the classroom with activities to enhance creativity, curiosity, and critical-thinking skills. Through these and many other Educational Outreach programs, LACMA is able to engage over 460,000 guests, in addition to those who visit the galleries every day throughout the year.

Critical/Strategic Planning Initiatives

The Museum of Art will continue implementation of its long-range strategic objectives:

- Improve the quality and presentation of the collections;
- Attract and engage a broader audience through expanded international recognition of LACMA as a quality art institution

and continued commitment to educational programs and overall scholarship;

- Improve the museum campus; and
- Develop a stable and sustainable financial and organization plan.

Mission Statement

The mission of the Natural History Museum (Museum) is to inspire wonder, discovery and responsibility for our natural and cultural worlds.

2015-16 Budget Message

The 2015-16 Recommended Budget is based on the 1994 operating agreement amended on September 26, 2006, and further amended on June 24, 2013, October 8, 2013, and June 23, 2014 between the County and the Museum of Natural History Foundation, which established each entity's operational and financial responsibilities. This public-private partnership enables the Museum to maintain educational and research programs and basic operations at the Museum located in Exposition Park, the George C. Page Museum at the

La Brea Tar Pits, and the William S. Hart Museum in Newhall. The Recommended Budget reflects an NCC increase of \$57,000 primarily attributed to an increase in the Consumer Price Index-based cost-of-living adjustment and an increase in base funding to support physical and programmatic expansion, partially offset by the deletion of one-time carryover funding.

Critical/Strategic Planning Initiatives

The Museum continues to implement its strategic plan, which is consistent with the County's Strategic Plan. Through the strategic planning process, the Museum will identify and prioritize programs for funding in FY 2015-16 that further its mission.

Unmet Needs

The Museum is requesting County General Fund allocations for two unmet capital project needs. The first request is \$3.6 million for the Page Museum to address Phase 1 (Priority 1) deficiencies that directly impact the health and safety of building occupants or do not meet building, mechanical or electrical codes as identified in the Department of Public Works Building Evaluation Report dated December 4, 2014. Between July 1, 2013 and June 30, 2015, the Museum will spend \$1.9 million in enhanced programming and capital improvements for the Page Museum and the La Brea Tar Pits. The requested funding will improve the sustainability and energy efficiency of operations and support the program needs of the Museum.

The second request is \$2.5 million to assist in the planning and design of the existing theater renovation. Upon completion, the Museum will be able to commence private fundraising opportunities that could partially fund the proposed renovation project. Currently, the array of the Museum's programming and third party activities and events are held in one of the diorama exhibit halls; eliminating the availability for visitors to view collections in that exhibit hall. The 54-year old theater at the Museum is unusable, obsolete, and in need of extensive renovation to resolve code compliance issues. The requested funding will assist the Museum in its objective to increase public serving museum space within the current building footprint and to partner and collaborate with the surrounding community entities and programs offered by other County departments to provide a venue for school performances, theatrical/musical presentations, community conferences, and public meetings.

Mission Statement

The Music Center (Center), a private nonprofit corporation, in partnership with the County, provides world class music, opera, theatre, dance, arts education programs, participatory arts, and community special events to the Southern California community and visitors. Each year, the Center welcomes more than 1.3 million visitors to tour its venues and attend performances by its four internationally-renowned performing arts companies. The Center provides leadership in arts learning in schools and the community by engaging people in the arts and advancing the quality and scope of arts education. Its educational programs serve over 300 schools, totaling over 600,000 students.

The County supports the Center through a budget that provides for building and grounds maintenance, custodial, security, usher services, utilities, insurance, long-term lease, and miscellaneous administrative support services at the Center.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects a NCC increase of \$0.6 million primarily due to a cost-of-living adjustment and unavoidable contract cost increases, partially offset by an anticipated decrease in capital lease costs. Consistent with established contractual obligations, and demonstrating a commitment to maintaining public-private partnerships, the Recommended Budget continues to provide County funds to maintain and operate the facility.

Critical/Strategic Planning Initiatives

Consistent with the County's vision to improve the quality of life in the County, the Center exists to serve the people of Los Angeles by assuring the presentation of the very best of the performing arts in its theaters and concert hall. The Center serves the community by providing access to the performing arts to families and children on the Center's campus and by providing educational services in the region's schools.

2015-16 Budget Message

Nondepartmental revenues are derived largely from revenue-generating activities not related to any specific County department.

The 2015-16 Recommended Budget primarily reflects:

- An increase of \$2.0 million in revenue from assessment and tax collection fees;
- A realignment of \$3.4 million for charges assessed to the Hospitals and Special Funds/Special Districts, for the use of general County services;
- An increase of \$4.6 million in franchise revenues;
- An increase in other tax revenue, including \$12.0 million in deed transfer tax based on actual trend and steady growth in the County's housing values and \$2.2 million in transient occupancy tax;
- A decrease of \$2.2 million in revenues generated from penalties and costs for delinquent taxes;
- A decrease of \$1.0 million in revenue from royalties, rents and concessions; and
- A decrease of \$1.5 million in revenues from homeowners' property tax exemption claims.

Mission Statement

The Nondepartmental Special Accounts budget provides for special General Fund expenditures and revenues, which are not directly related to any single County department and, if included in any department's budget, would distort the true operating costs of that budget. The appropriation reflects charges for services of countywide benefit and for special contracts that are not related to any single department's main mission. Also, included are interest expense and earnings associated with the Treasury Management Program.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects:

- An anticipated increase in countywide costs, which are partially offset by the elimination of one-time funding for various countywide initiatives.
- A decrease in other financing uses due to the deletion of one-time funding for the Public Library, information technology projects, and the elimination of a one-time transfer from the General Fund to the Productivity Investment Fund. The decreases are partially offset by an increase in funding for the Public Library for Homework Centers.
- An increase in revenue due to projected growth in interest earnings from the treasury pool.

Mission Statement

Through a vision of improving the quality of life in the County, the Department strives to provide the residents and visitors alike with quality recreational opportunities that promote a healthy lifestyle and strengthen the community through diverse physical, educational, and cultural programming, and enhances the community environment by acquiring, developing, and maintaining County parks, gardens, golf courses, trails and open space areas.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects a \$9.1 million NCC decrease primarily attributable to the deletion of one-time funding, partially offset by Board-approved increases in salaries and employee benefits, backfill of Proposition A revenue, the Castaic Area Trails Plan, County Cost Allocation Adjustment, and the addition of a Regional Recreation Director, Pool Aquatics position.

Critical/Strategic Planning Initiatives

The Department remains committed to maintaining the County's Strategic Plan. Continued and enhanced efforts found in efficiencies, exploring new possibilities to augment revenue, and discovering creative methods to sustain with minimum funding will all be necessary for the Department's operations as well as to support the three Strategic Goals: Operational Effectiveness/Fiscal Sustainability (Goal 1), Community Support and Responsiveness (Goal 2), and Integrated Services Delivery (Goal 3).

Unmet Needs

The Department's 2015-16 critical needs consist of partial reinstatement of programs (recreation, crafts positions and capital assets), curtailed as a result of the economic downturn; replacement of aging, non-diesel vehicles; and additional funding for services and supplies for recreational programming.

Funding and augmentations for the aforementioned needs allow the Department to continue its operations without disruptions and in some cases, may allow the Department to operate its facilities at a preferred service level. Partial reinstatement of programs include full accessibility to lake swim beaches and nature centers; various recreational positions associated with children and senior recreation programs; various craft positions for facility maintenance and repairs; and capital assets for facility construction and ground maintenance. Approximately 20% of the Department's fleet of 600 vehicles has reached the County replacement standard of 7 years or older and/or 100,000 or more miles, and funding to replace these vehicles will greatly reduce the frequency of repair and costs.

Other unmet needs include funding to develop community gardens; additional personnel is needed for Employee Relations to allow for effective, efficient handling of numerous caseloads (which has since increased from the implementation of the County Policy of Equity); and ongoing funding to enhance support services for recreational programming. Other efficiencies would be achieved through enhancements in supervisor training and strategic planning, integration of a GPS system, automation of fuel management system, and preservation of historical assets. Lastly, additional personnel, equipment and services are needed for intranet development, computer maintenance and upgrades, and overall efficiency.

Mission Statement

To promote and enhance public safety, ensure victims' rights, and facilitate a positive change in adult and juvenile probationers.

The Probation Department recommends and enforces court-ordered sanctions for probationers, including the detention of juvenile offenders and the return to court of non-compliant adult offenders; provides supervision and monitoring of probationers; and prevents and reduces criminal activity by developing and implementing strategies from early intervention through suppression. In an expanded role under Public Safety Realignment (AB 109), the Probation Department will also provide services to post-release supervised persons (PSPs). The Department actively seeks resources and collaborations to maximize opportunities to positively impact the behavior of probationers by providing them with educational and vocational services, as well as access to health and mental health services that will build upon the strengths and capabilities of probationers, their families, and their communities.

Departmental services are administered and financed through five separate budget units. The Support Services budget funds administrative, information technology, quality assurance, training, and management services. The Juvenile Institutions Services budget, which consolidated the former Detention and Residential Treatment budget units, funds the three juvenile halls (Central, Los Padrinos, and Barry J. Nidorf), intake and detention control, community detention services, transportation, Dorothy Kirby Center, and probation camps. The Field Services budget funds juvenile and adult investigation and supervision services. The Special Services budget funds juvenile special services and juvenile placement services. The Care of Juvenile Court Wards budget provides funding for the placement of juvenile court wards in residential facilities, foster homes, and the California Department of Corrections and Rehabilitation housing as parole placements as mandated by law.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects an NCC decrease of \$5.8 million, primarily due to the deletion of \$12.0 million in one-time carryover funding for Title IV-E Waiver (\$3.3 million), Education Reform (\$2.0 million), digitalized records project (\$2.0 million), vehicle replacements (\$2.0 million), lawsuit settlement (\$1.0 million), Vapor Tracer/Body Scanner (\$1.0 million), Information Technology (IT) Mobilization Pilot Project (\$500,000), headquarter renovation project (\$47,000), and Commercially Sexually Exploited Children (CSEC) First Responder Protocol Pilot project (\$225,000); and a decrease of \$4.0 million in retirement contributions; partially offset by \$7.0 million for Board-approved increases in salaries and health insurance subsidies, \$746,000 for Deferred Compensation, \$73,000 for Health Insurance Buydown, \$128,000 for the countywide cost allocation adjustment; \$2.0 million in one-time funding to replace the existing PBX telephone system to a VoIP system; and \$300,000 for the Succeeding Through Achievement and Resilience (STAR) Court program.

Critical/Strategic Planning Initiatives

The Probation Department has developed a strategic plan transforming from a custodial and supervision model to an evidence-based practices treatment and rehabilitation model. The goals include implementing evidence-based practices; developing and expanding collaborative efforts and community capacity; and maintaining a commitment to organizational development. The top priorities of the Department include:

- Continue efforts to maintain Department of Justice recommendations;
- Continue the implementation of AB 109 Realignment;
- Continue efforts to change the culture of the Department;
- Continue to work with the Chief Executive Office to identify funding for previously deferred facility maintenance projects.

Authority: Mandated program - California Welfare and Institutions (W&I) Code Section 850.

The three juvenile halls provide temporary housing for youth detained on an arrest, awaiting a court date and/or awaiting disposition (sentencing). Juvenile hall staff assesses youth as to the risk they pose to the community, the need to remove them from the community, and their service needs. Those youth who pose a significant threat to the community are detained pending the court process. While in juvenile hall, minors are provided physical health, mental health, and educational assessments, and treatment as required. Youth also attend school and engage in recreational and social activities.

The Community Detention Program (CDP) provides intensive supervision for both adjudicated and pre-adjudicated youth. Under CDP guidelines, youth must comply with specific court ordered terms as a condition of their community release, pursuant to Section 628.1 of the California W&I Code. Youth are both electronically monitored and supervised by an assigned Deputy Probation Officer (DPO), who holds the minor accountable to a pre-approved schedule of sanctioned activities.

Authority: Non-mandated, discretionary program.

Aids in reducing, through the camp program, the incidence and impact of crime in the community by providing a residential experience that introduces effective life skills to each ward. The camps provide a valuable, intermediate sanction alternative to probation in the community or incarceration in the California Department of Corrections and Rehabilitation (CDCR). The program provides intensive intervention in a residential setting over an average stay of six months for youth committed by the Juvenile Court. Each minor receives mental health, physical health, educational, and family assessments that allow for treatment to be tailored to meet individual needs. The camps provide structured work experience, vocational training, education, specialized tutoring, athletic participation, and various kinds of social enrichment. The goal of the program is to reunify the minor and family, to reintegrate the minor into the community, and to assist the minor in achieving a productive, crime-free life.

The Camp Community Transition Program (CCTP) targets probationers transitioning from one of the Department’s camps to the community. Many of these youths are gang-involved, drug and alcohol users, low academic performers and have multiple risk factors across multiple behavior domains. CCTP uses goal-directed and multimodal intervention approaches that are family-focused. Behavior interventions are organized and designed to promote behavioral change in the probationer's home environment, emphasizing the systemic strengths of the family, peer group, school and neighborhood in order to facilitate the desired behavioral change.

The School-Based Probation Supervision Program is designed to provide more effective supervision of probationers, increase the chances of school success for these youths, and promote campus and community safety. Participants include probationers and at-risk youth in 85 school service areas that are accepted into the program by School-Based DPOs. These DPOs are assigned and placed on school campuses with a focus on monitoring of school attendance, behavior, and academic performance. Programs target high schools and select feeder middle schools with a focused early intervention approach.

Most suitable placement minors are removed from their homes and placed in a safe environment (group home, psychiatric hospital, Dorothy Kirby Center, etc.) pending resolution of the minor’s issues. DPOs work with the minor and the family to identify needed services and prepare case plans to assist them with accessing the services. Through monitoring of the minor’s progress, the DPO is able to determine what long-term living arrangement would be in the best interest of the minor and develop/implement a permanency plan to return the minor to a safe and stable environment, such as reunification with family, emancipation, placement in a relative/non-relative home, or long-term foster care.

Mission Statement

The Public Defender provides constitutionally mandated legal representation to indigent criminal defendants and juveniles in the Superior Court of the County as well as in State and federal Appellate Courts. The Department strives to ensure equal treatment within the justice system by safeguarding liberty interests and upholding the rights of individuals.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects an NCC increase of \$6.4 million primarily due to Board-approved increases in salaries and employee benefits; the addition of 3.0 interpreter positions; the elimination of State revenue for the Sexually Violent Predator program, pending the Court's modification of reimbursable activities; partially offset by the deletion of one-time funding for the case management system, Proposition 36 travel costs, video conferencing projects, and office refurbishments.

Critical/Strategic Planning Initiatives

- Expand "holistic representation" that involves use of an interdisciplinary team to best represent the interests of the client and to address underlying issues (personal, psychological, and social), which may have caused that individual to engage in criminal activity. This approach will improve client representation outcomes and allow the Department to meaningfully participate in the County's mental health initiatives. With that goal in mind, the Department plans to deploy psychiatric social workers to work closely with trial attorneys throughout the County. In addition, the Department is collaborating with the Department of Mental Health and Sheriff's Department to establish a mental health liaison project in the County jails. This project involves psychiatric social workers assisting public defender attorneys who are representing inmates with mental disabilities (mental illness, learning disabilities and development disabilities). This team will assess inmates' needs, advocate for the appropriate treatment and make case disposition recommendations to the court. Implementation of this project will reduce delays in processing court cases through the criminal justice system and ultimately jail overcrowding.

- Continue to invest in ongoing staff development and training to advance the skills of employees and implement an intensive, transformative leadership and management program for managers.
- Restore and enhance support staff operations to improve the organization's flexibility and responsiveness to change, including implementing an updated secretarial initiative. Support staff operations were depleted by the fiscal downturn and hiring freeze, making it more challenging to address the demands created by major legal practice changes.
- Enhance and support mobile technology and functionality of staff to improve efficiency and continue the comprehensive video technology plan for staff training, public outreach and client communications.
- Develop and acquire a case management system to enhance assessment and performance measures focusing on distribution of workload and appropriate staff deployment, and efficiency.

Mission Statement

The mission of the Department of Public Health (DPH) is to protect health, prevent disease and injury, and promote health and well-being for everyone in the County.

2015-16 Budget Message

The 2015-16 Recommended Budget demonstrates an internal focus to enhance resources in support of the Department's mission, specifically in the areas of communicable disease control and prevention, emergency preparedness and response, community health services, HIV and STD programs, and administration. In general, requested positions are being funded by increases in grant funds, fees, and other revenue sources. In addition, several requested positions reflect a strategic shift in emphasis of resources through a corresponding reduction of positions in other areas.

The Recommended Budget provides for total appropriation funding of \$946.0 million supported by grants, fees, and revenues resulting in an NCC of \$195.2 million. This reflects an NCC increase of \$3.5 million primarily attributable to Board-approved adjustments to salaries and employee

benefits and an increase in vehicle license fees (VLF) realignment. The total number of budgeted positions increases by a net total of 40.0 positions to 4,611.0 positions.

Significant changes to departmental revenue include:

- Health Fees Revenue is projected to increase by \$0.6 million due to increases in workload and updated Board-approved fees for the Cross Connection and Drinking Water Programs.
- Public Health Services – Federal revenue decrease of (\$8.0 million) due to the Community Transformation grant ending March 29, 2015.
- Public Health Services – Federal revenue increase of \$3.5 million due to the successful awarding of a grant for the Chronic Disease Prevention Strategy in Los Angeles (CDPS) project, which began September 30, 2014.
- Substance Abuse Prevention and Control (SAPC) – Federal revenue decrease of (\$0.4 million) due to funding from the Adult Drug Court for Medication Assisted Treatment (MAT) Services that ended September 2014.
- SAPC – Federal revenue decrease of \$5.0 million due to the Substance Abuse Services for High Risk Parents and Caregivers project funded by the First 5 LA Grant ending June 30, 2015.

Critical/Strategic Planning Initiatives

The Department's Strategic Plan includes goals for health protection, health improvement, organizational effectiveness, workforce excellence, fiscal accountability, communicable disease control and prevention, community health services,

HIV/AIDS, emergency preparedness and response, healthy and safe community environments, preventive health care, empowered health consumers, health equity, public health protection, and improved infrastructure.

Mission Statement

To provide diverse communities with easy access to information and the knowledge needed to nurture cultural exploration and lifelong learning.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects a reduction of \$26.0 million primarily attributed to the deletion of one-time funding from the Utility User Tax - Measure U allocations, new construction projects and various Board-funded refurbishments and capital projects. This reduction is partially offset by a 5.05 percent anticipated property tax growth rate. The Department's budget also includes Board-approved increases in salaries and health insurance subsidies and the addition of 5.0 budgeted positions.

Critical/Strategic Planning Initiatives

The Public Library's strategic plan establishes a roadmap for sustaining the Department's leadership as a 21st century library. The new purpose statement along with eight key initiatives sets the framework for developing innovative service models that will meet the increasing needs of our diverse communities.

The Department will continue to construct new libraries and refurbish aging library buildings. These buildings will be designed with sustainable features that incorporate self-service models; spaces that encourage creativity; larger meeting rooms for civic engagement and community events; and equipped with robust and emerging technologies to support digital initiatives.

2015-16 Budget Message

The 2015-16 Recommended Budget for the Department of Public Social Services (DPSS) – Administration reflects a \$95.9 million increase in gross appropriation and a \$0.5 million increase in NCC. The NCC increase is primarily due to Board-approved salary increases, and the County's share of increases in employee benefits, offset by the elimination of one-time funding. The Recommended Budget reflects a net increase of 31.0 positions. The new positions requested are primarily for information technology including the Leader Replacement System (LRS), In-Home Support Services (IHSS), CalFresh, and administrative support.

Although there was an increased demand for the full range of DPSS services in the last few years, with the economic recovery, cash assistance caseloads are projected to flatten or decline, while caseloads for non-cash programs such as Medi-Cal are projected to continue increasing.

Critical/Strategic Planning Initiatives

The Department remains committed to measures that ensure effective and professional service delivery and support the County's goals of Operational Effectiveness/Fiscal Sustainability, Community Support and Responsiveness, and Integrated Service Delivery.

DPSS' Total Accountability Total Success (DPSSTATS) performance review process continues to evaluate measures that impact the Department's work performance and management accountability. The Department's Strategic Plan 2014-2016, "Beyond the Leading Edge," includes 41 Objectives, clustered in five Goal areas: Customers, Operations/Processes, Workforce Development, Technological Innovation, and Facilities.

The Department has successfully expanded the Customer Service Center (CSC) to all district offices, enhancing access and improving the timeliness of case actions. The current service population of the CSC reached over 2.2 million cases with a monthly average of 638,000 calls, which are either resolved by the automated Integrated Voice Response (IVR) system or answered by an eligibility worker. The IVR provides 24/7 automated access for participants to their case information. Additionally, with the Electronic Document Management System (EDMS), full case imaging has enabled staff to handle calls more efficiently and completely. The ability to quickly access and evaluate cases from any DPSS workstation has greatly enhanced customer service.

DPSS continues to utilize the Department's first mobile health and nutrition office, a 34-foot self-contained mobile unit equipped with wireless technology, to fully support the use of laptops and Electronic Benefit Transfer (EBT) equipment. The unit functions as a one-stop CalFresh/Medi-Cal office to allow walk-in applicants to conveniently apply for CalFresh and/or Medi-Cal without having to go to district offices. The mobile office will also serve as an emergency response unit during any type of natural disaster.

From May 2013 to May 2014, the CalFresh-Only caseload saw an 11.5 percent or 345,957 household increase, due in part to the implementation of the CalFresh Awareness Month Campaign. As of May 2014, the total number of households receiving CalFresh benefits (households receiving cash assistance with CalFresh and CalFresh-Only households) was 575,266, which represents 1,179,271 persons.

DPSS continues to assess current and future staffing needs based on organizational goals and budget realities, and offer opportunities to develop and enhance the skills of its workforce. The Department's succession plan is designed to provide opportunities for training and guidance to create a qualified pool of highly educated, well-trained, and success-oriented successors. DPSS implemented a Career Resource Coordinator (CRC) Program and Clerical Skill Building Program to provide ongoing professional development and test preparation resources to all employees.

The Department also provides educational advancement opportunities for its employees. Since 2005, DPSS has partnered with California State University, Northridge (CSUN), offering a Master's of Public Administration (MPA) Program. In addition, it recently implemented a Bachelor's of Science in Public Sector Management degree through CSUN and an Associate of Arts transfer degree through Pierce College. DPSS also continues to train executive staff through the executive leadership program with the University of Southern California (USC).

DPSS continues to maximize leading edge technology to improve outcomes and program excellence, as outlined in the Department's Strategic Goal of Technological Innovation. DPSS fully expanded EDMS to all district offices and five centralized Electronic Scan Centers (ESC) throughout the County. To date, EDMS offices have imaged 36.8 million documents. The Department plans to utilize digital imaging in other programs and areas to expand and streamline business processes. Recently, DPSS piloted Point of Service Scanning (POSS), allowing eligibility workers to scan participants' original documents at the point of interview, eliminating the need to make copies.

DPSS also utilized iPads to pilot the mobile check-in and self-service projects providing participants options to address their business needs. Features include the ability to upload documents, check EBT balance inquiries, review case information, check-in, and apply for benefits online.

The Service Area Redistricting Application (SARA) provides an automated solution to create and update district program boundaries. The system uses Geographic Information Systems (GIS) to visually manage boundaries, caseload impact, and interactions with other boundaries.

The DPSS Risk Management Plan established 16 objectives, of which 11 have been successfully completed. The primary goal was to reduce the number of new workers' compensation claims during the fiscal year, and a 6.13 percent reduction in the number of new claims filed was achieved.

DPSS programs provide a vast array of services to families, children, single adults, and the elderly and are designed to alleviate financial hardship and promote family health, personal responsibility, and economic self-sufficiency. Over 3.2 million participants are served monthly. DPSS also serves as the County's Operational Area Coordinator for care and shelter, and the Operational Area Liaison with the grocery industry and

nonprofit human services organizations. In this capacity, DPSS is the lead in coordinating shelter support in the event of a disaster or emergency. In addition, the Department continues to provide services for homeless prevention, job training and employment, and housing relocation.

DPSS continues to partner with other County departments to improve service delivery and provide integrated services through the implementation of the Coordinated Care Initiative (CCI) and Cal MediConnect. Furthermore, to date, 65 percent of the General Relief (GR) restructuring recommendations to assist GR participants to transition from County assistance by securing employment or State/federal disability benefits, have been implemented. As part of the 2014 California Work Opportunities and Responsibility to Kids (CalWORKs) Youth Employment Program, DPSS and CSS placed more than 2,000 youth, ages 16-21, in subsidized employment with a goal of 4,000 in the upcoming year. DPSS also continues its partnership with DCFS to provide services for mutual families and resources for other needy DCFS families and caretaker relatives. As a result, 25,000 families have benefited from this service coordination.

Unmet Needs

Funding for programs the Department administers depend largely on State and federal subvention. The 2015-16 Recommended Budget assumes sufficient funding to support the current operational level. Due to the volatile nature of the State budget process, the Recommended Budget does not factor in the Governor's January budget proposal. The final State funding allocations will not be known until after the State's 2015-16 Budget is signed; therefore, DPSS will continue to provide leadership in advocacy efforts focused on adequate funding levels to effectively administer its programs.

The Department's unmet needs are primarily focused on additional staffing needed to meet increased demands. Over the past several years, funding did not increase at the same rate as caseload and program demands. Currently, case workers for the approved caseload in our core programs are staffed significantly below the full need level, though the level of understaffing varies significantly by program. To fulfill the unmet needs for caseworkers, it would require a significant number of workers in all programs.

2015-16 Budget Message

The Public Social Services Assistance Budget funds mandated and discretionary public assistance and social services programs, financed with federal, State, and County funds. These programs include: CalWORKs; GR; IHSS; Refugee Resettlement Program/Refugee Cash Assistance (RRP/RCA); Cash Assistance Program for Immigrants (CAPI); REP; Community Services Block Grant (CSBG); General Relief Anti-Homelessness (GRAH); and Work Incentive Nutritional Supplement (WINS).

The FY 2015-16 Recommended Budget reflects a decrease in appropriation of \$31.6 million and a \$9.2 million decrease in revenue primarily due to a net decrease in CalWORKs funding as a result of a projected decrease in caseload. There is also a net decrease of \$18.0 million in NCC primarily as a result of a projected decrease in the GR caseload.

Mission Statement

The Department of Public Works (Public Works) is committed to accomplishing its mission of providing public infrastructure and municipal services to protect and enrich the daily lives of over ten million people in the County. Services include planning, engineering, design, construction, project management, operation, and/or maintenance of roads, highways, bridges, flood control facilities, water conservation programs, sanitary sewers, water distribution systems, airports, facility capital projects, and regulatory programs such as hazardous and solid waste, land development, and other activities for the County and contract cities. Specific to County communities, the mission is to provide an improved quality of life through the promotion of safe building construction, orderly land development, and maintenance of clean and secure properties. Specific to County Improvement Studies, the mission is to provide assistance via a statutory process that allows private property owners in County unincorporated areas to construct capital infrastructure to County standards and transfer these improvements to the County for operation and maintenance. In addition, the Department administers the County's Unincorporated Area Stormwater Urban Runoff Quality Program and provides graffiti abatement, crossing guard services, landslide mitigation, and unincorporated area services in the form of Community Enhancement Teams (CET) in order to enhance the quality of life to the residents in the community.

2015-16 Budget Message

The majority of services provided through the Public Works - General Fund are required by federal, State, and local mandates and are funded by fees for services. Crossing guard, landslide mitigation, graffiti abatement, pre-County improvement district studies, property rehabilitation and nuisance abatement, and unincorporated area services programs continue to rely on funding from the County.

The 2015-16 Recommended Budget reflects a \$14.0 million net NCC decrease primarily attributable to the elimination of one-time funding for Unincorporated County Road and Waterworks projects (\$4.8 million); Unincorporated Area Stormwater Urban Runoff Quality Program (\$3.6 million); Hauled Water Initial Study Plan (\$1.2 million); I-5 Pico/Lyons Landscaping (\$1.0 million); Oxford Basin Vegetation Project (\$1.0 million); High Desert Corridor (\$0.8 million); Carmenita Road Median Enhancement Project-Phase II (\$0.4 million); Sidewalk/Road improvements in Chapman Woods (\$0.3 million); Crossing Guard services (\$0.2 million); Descanso Gardens Water Rights Study (\$0.2 million); Claremont Sewers (\$0.2 million); Graffiti Abatement (\$0.1 million); Monrovia/Duarte Monument Signs (\$0.1 million); and other Board-funded programs/projects (\$0.3 million). The decrease is partially offset by a \$0.2 million increase in negotiated COLA, fringe benefits, and retirement costs.

Critical/Strategic Planning Initiatives

- To maximize public safety, ongoing training is provided to the employees to enhance employee and technical growth. Specialized training is provided in mandated subjects such as the California Building Code and provides for a higher standard of compliance.
- The Public Works - General Fund budget relies on NCC to fund various activities in the Department. Public Works projects the available NCC from the previous year to determine the funding level required for the activities in the coming year and will adjust each activity accordingly so that NCC does not exceed from the adjusted allowance approved by the Board.
- The Department's Strategic Plan provides for a structured approach to strategic planning and budgeting for individual programs and services. The four main components of the Public Works' Integrated Planning Process include program, financial and staffing plans, and the budget request. Program plans strategically establish management objectives for outcomes/results, situation analyses, comprehensive needs assessments, results-based work plans, and funding requests. Financial plans project revenue sources and financing uses for each operating fund and set preliminary budget allocations for individual programs. Based on these funding allocations, staffing plans are then developed as part of divisional operational plans. The budget request is then prepared based upon the program, financial, and staffing plans.

PUBLIC WORKS - FLOOD CONTROL DISTRICT	PUBLIC PROTECTION	FLOOD CTRL & SOIL & WATER CONSERVATION

Mission Statement

Public Works is committed to accomplishing its mission of providing public infrastructure and municipal services to protect and enrich the daily lives of over ten million people in the County. Specific to the Flood Control District (District), the mission is to provide flood protection services that incorporate an integrated water resource management approach in providing flood protection; increase local water availability through conservation efforts; and provide passive recreational opportunities.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects a \$14.2 million increase primarily attributable to increases in the use of obligated fund balance and property tax revenues; partially offset by a decrease in fund balance. The primary sources of revenue of the District are property taxes and benefit assessments. The objectives of the District are outlined within the Flood Control Act, which mandates the District to carry out flood protection and water conservation programs. These objectives include keeping the existing flood protection system in a safe and effective condition to respond to emergencies, perform maintenance and repair, and conserve water.

Critical/Strategic Planning Initiatives

The Department's Strategic Plan provides for a structured approach to strategic planning and budgeting for individual public works programs and services. The four main components of the Public Works' Integrated Planning Process include program, financial, and staffing plans, and the budget request. Program plans strategically establish management objectives for outcomes/results, situation analyses, comprehensive needs assessments, results-based work plans,

and funding requests. Financial plans project revenue sources and financing requirements for each operating fund and set preliminary budget allocations for individual programs. Based on these funding allocations, staffing plans are then developed as part of divisional operational plans. The budget request is then prepared based upon the program, financial, and staffing plans.

PUBLIC WORKS - ROAD FUND	PUBLIC WAYS AND FACILITIES	PUBLIC WAYS

Mission Statement

Public Works is committed to accomplishing its mission of providing public infrastructure and municipal services to protect and enrich the daily lives of over ten million people in the County. Specific to the Unincorporated County Roads Program, the mission is to provide roadways within the unincorporated County areas that are safe, smooth, aesthetically pleasing, and well managed relative to operational capacity. The Road Fund is also utilized to provide public works services to cities and agencies, which are entirely reimbursed by the respective agency, with the mission to provide quality and efficient public works services through effective interagency collaborations. The Road Fund provides for the construction and maintenance of streets, roads, bridges, and tunnels and the installation, operation, and maintenance of traffic signals.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects a \$33.0 million decrease primarily due to a reduction in fund balance available; gas tax revenues; state revenues; and the deletion of one-time funding for unincorporated area road projects and road construction and maintenance activities, including the construction of highways and bridges/tunnels; partially offset by an increase in federal revenue for the Bridge Replacement Program.

The FY 2015-16 budgeted revenues for the Highway User Tax Account (gas tax) is approximately \$163.0 million. It reflects a \$21.0 million (11 percent) decrease from the FY 2014-15 estimate of \$184.0 million, and a \$46.0 million (22 percent) decrease from the FY 2013-14 actual of \$209.0 million. This trend of lower gas tax revenues is expected to continue due to the drop in gasoline prices and growing prevalence of fuel-efficient, alternative fuel, and zero-emission vehicles.

Although the precipitous drop in gas tax revenues in FY 2015-16 will not result in any reductions in levels of service for the road maintenance and operations programs, there will be a reduction in the number of roadway pavement rehabilitation and preservation construction projects. While Public Works has budgeted conservatively, the continued drop in gas tax revenues will necessitate the department to implement further efficiencies and reductions to the transportation improvement programs. Public Works will continue to monitor gas tax revenues and budget accordingly for future fiscal years.

unincorporated County areas with safe roads that provide the necessary mobility options for work, education, and recreation.

- The Department's Strategic Plan provides for a structured approach to strategic planning and budgeting for individual public works programs and services. The four main components of the Public Works' Integrated Planning Process include program, financial, and staffing plans, and the budget request. Program plans strategically establish management objectives for outcomes/results, situation analyses, comprehensive needs assessments, results-based work plans, and funding requests. Financial plans project revenue sources and financing requirements for each operating fund and set preliminary budget allocations for individual programs. Based on these funding allocations, staffing plans are then developed as part of divisional operational plans. The budget request is then prepared based upon the program, financial, and staffing plans.

Critical/Strategic Planning Initiatives

- The Recommended Budget was assembled with an emphasis on optimizing the use of new gas tax (formerly Proposition 42) funds for maintenance and preservation of the existing roadway system. This strategy meets the County Strategic Plan goal of Operational Effectiveness by maximizing the use of available limited revenues while providing residents in

Mission Statement

Public Works is committed to accomplishing its mission of providing public infrastructure and municipal services to protect and enrich the daily lives of over ten million people in the County. Public Works services include planning, engineering, design, construction, project management, operation, and/or maintenance of roads, highways, bridges, flood control facilities, water conservation programs, sanitary sewers, water distribution systems, airports, facility capital projects, and regulatory programs, such as hazardous and solid waste, land development, and other activities for the County and contract cities.

2015-16 Budget Message

The Internal Service Fund is designed to simplify billings for services provided between the multiple funds that finance Public Works operations. This fund allows for salaries and employee benefits, materials and supplies, and equipment charges for Public Works to be paid through the fund and the appropriate amounts recovered from each special fund.

The 2015-16 Recommended Budget reflects a \$2.2 million increase primarily due to Board-approved increases in salaries and health insurance subsidies; retiree health insurance premiums; capital project management services for County capital projects; administrative support services to align the budget to anticipated costs; and various position changes to meet the operational needs of the Department. These increases are partially offset by decreases in County retirement, workers' compensation and unemployment insurance costs; capital asset-equipment purchases; and contingencies.

Critical/Strategic Planning Initiatives

- The Recommended Budget presents Public Works with a challenge in projecting future budgetary requirements for services that will be rendered to other Public Works funds, for the construction management of capital projects, and for services to other County departments. The Capital Building Projects Program relies heavily on the Board's approval of funding for County capital projects. A work plan is prepared for the coming budget year to detail the capital project work that will be funded. Rates and fees are analyzed each year and adjusted to ensure that the Internal Service Fund recovers all costs for services performed.
- The Department's Strategic Plan provides for a structured approach to strategic planning and budgeting for individual public works programs and services. The four main components of the Public Works' Integrated Planning Process include program, financial and staffing plans, and the budget request. Program plans strategically establish management objectives for outcomes/results, situation analyses, comprehensive needs assessments, results-based work plans, and funding requests. Financial plans project revenue sources and financing requirements for each operating fund and set preliminary budget allocations for individual programs. Based on these funding allocations, staffing plans are then developed as part of divisional operational plans. The budget request is then prepared based upon the program, financial, and staffing plans.

Mission Statement

To improve the quality of life through excellence in physical and environmental planning that preserves individual rights, improves environmental quality, and services community needs with outstanding customer service.

2015-16 Budget Message

The 2015-16 Recommended Budget provides for the maintenance of core mission activities including public counseling services at the downtown headquarters office and eight field offices, case processing, community planning and outreach, and zoning enforcement. Environmental impact review and the activities of the Environmental Review Board and the Significant Ecological Area Technical Advisory Committee will continue as well as specifically funded programs, including public hearings and workshops on the Santa Monica Mountains Local Coastal Program (LCP), Airport Land Use Compatibility Plan, Antelope Valley Area Plan, and West Carson Transit Oriented District Specific Plan (TODSP).

The 2015-16 Recommended Budget reflects a \$0.8 million NCC decrease primarily attributable to the deletion of one-time funding for consultant services for various planning initiatives and a decrease in County retirement contributions, partially

offset by Board-approved increases in salaries and health insurance subsidies and the addition of 2.0 positions to address workload increases due to the adoption of the Santa Monica Mountains LCP.

Critical/Strategic Planning Initiatives

The Department continues to implement its Strategic Plan while supporting the County's Strategic Plan including the following initiatives:

- Providing responsive and proactive code enforcement of discretionary permits, zoning and subdivision regulations in unincorporated areas, and participating in the countywide Nuisance Abatement Team (NAT);
- Enhancing public service through improved permitting processes and databases, web-based case filing pilot projects, new electronic transactions, Geographic Information Systems (GIS) based land use and zoning information, and smart phone enforcement operation;
- Enhancing communication with landowners, neighbors, constituents, and other governmental agencies by carefully allocating resources to incorporate local area network enhancements and other web-based technologies;

- Building stronger and healthier communities through development of land use, circulation, open space, noise, safety and housing elements of the General Plan Update; and
- Securing Regional Planning Commission and Board approval of community plans and zoning standards for unincorporated areas.

Current Planning is a local program related to the implementation of zoning regulations adopted by the County pursuant to State and federal enabling legislation. Zoning regulations are the mechanism by which the County's General Plan is carried forth. Zoning regulations are embodied in Title 22 of the County Code. Zoning of land and development standards constitute the County's use of its police power to ensure the proper distribution of land uses for the protection of public health, safety, and welfare. Because of their unique characteristics, certain land uses require discretionary permitting which is accomplished through the filing of various types of zoning and planning applications. These discretionary actions include changes of zoning and to the General Plan in addition to implementation of subdivision regulations adopted by the County pursuant to State and federal enabling legislation. Subdivision regulations are embodied in Title 21 of the County Code, and regulate the creation of lots or units for sale, lease or financing purposes.

The Advance Planning Program is a State-mandated program to prepare and implement a General Plan for the County. This is accomplished by preparing a long-range countywide General Plan for the entire unincorporated area of the County and by preparing more detailed area, coastal, and community plans for certain unincorporated areas. In order to implement these plans, the Zoning Ordinance (Title 22 of the County Code) must be amended, and Community Standards Districts and zoning studies need to be prepared. Periodic reports are prepared for the Board to advise them on a variety of land use planning issues. Citizens' participation is an important part of the Advance Planning Program and is accomplished through a variety of community outreach events including public workshops, town council meetings, and public hearings.

The Land Use Regulation Program is a State-mandated program with discretionary service levels. This program is aimed at correcting zoning code violations in County unincorporated communities and to eliminate blight and improve the quality of life. Code enforcement is accomplished by conducting complaint based code inspections and enforcing land development, zoning and subdivision regulations in the unincorporated County areas in accordance with County and State regulations and statutes. Zoning enforcement staff respond to zoning complaints and address code violations on many different fronts including conducting CUP condition checks, referring unresolved code violations to the District Attorney and County Counsel, using noncompliance fees and administrative fines to encourage compliance, and participating on multi-agency NATs.

This program focuses on the management of human resources, information technology, fiscal services, and administrative services. These areas include, but are not limited to, the departmental budgeting process, emergency management, strategic planning, contracting and related monitoring, personnel management, and administrative control mechanisms consistent with the County Fiscal Manual. Mission Statement

To register voters; conduct federal, State, local and special elections; verify initiative and referendum petitions; record real estate documents; maintain birth, death and marriage records; issue marriage licenses; and file business documents. All these activities are conducted under the provisions of the federal and State Constitutions, State Codes and County Ordinances.

2015-16 Budget Message

The 2015-16 Recommended Budget includes resources necessary to conduct the November 2015 Consolidated and the June 2016 Presidential Primary elections as well as to perform Recorder/County Clerk operations. The budget also includes funding to move forward with new programs that promote efficiency, while taking into consideration the unstable fluctuations in the real estate market and continuing high costs of conducting elections.

The Department continues to seek ways to reduce operating costs through efficiency efforts and has carried forward substantial curtailments incurred since FY 2008-09. While recorder fee revenues were beginning to show improvement in FY 2012-13, subsequent year trends show a substantial decline attributable to a slow-down in refinancing and real estate

market activity in general. In addition, the Department continues to absorb the high cost of unscheduled special elections.

Critical/Strategic Planning Initiatives

The Department's Critical/Strategic Plan will continue to implement automated and enhanced processes to improve public service and employee workforce in the elections, voter registration, Recorder, and County Clerk services. As such, the Department will:

- Continue development of the multi-year Voting Systems Assessment Project (VSAP) to modernize the County's voting system;
- Continue development and implementation of a Countywide Archives and Records Management Program that will assess and develop a process for indexing and maintaining County records and items of historical value;
- Develop a revenue forecasting model to better understand the economic predictors and volatile movement that affect recording activities, hence departmental revenue;

- Implement voter registration and duplicate record management tools to supplement current data cleansing processes;
- Promote the multi-county eRecording system (SECURE) of Business to Government and Government to Government entities;
- Continue activities related to Recorder/County Clerk process efficiencies, including implementation of an online ceremony appointment system that will allow customers to schedule appointments and pay online;
- Continue the multi-functional Mobile/Online Application project to increase voter access to election information;
- Continue skill building workshops and certificate programs to provide Registrar-Recorder/County Clerk (RR/CC) staff new tools to increase efficiency and effectiveness; and
- Continue to expand efficiency initiatives and strategies to further streamline processes, improve operations, reduce costs, maximize efficiencies, enhance delivery of public services, and expand green energy conservation programs.

Unmet Needs

The Department continues to defer much needed building maintenance projects that could compromise the integrity of our facilities, critical election and recorder computer systems, and public records. The Department plans to seek an estimated \$1.6 million in deferred maintenance funding. Specific needs include a fire suppression system at the Norwalk Headquarters (\$1.2 million), a new roof for the Van Nuys District Office (\$0.3 million), an air conditioning system at Norwalk Headquarters (\$90,000), and replacement of emergency exit sign lights (\$40,000).

Mission Statement

This budget provides centralized financing of real property lease payments, annual obligations for long-term debt financing of capital construction, and other costs necessary to facilitate real property management. All federally allowable lease and debt service costs are financed from departmental operational budgets of the benefitting departments, with some exceptions (e.g., Walt Disney Concert Hall garage, Hall of Justice, and Coroner buildings).

The 2015-16 Recommended Budget reflects an \$11.7 million decrease in NCC due primarily to increased billable use allowance expenditures and a reduction in debt service for centrally financed projects, partially offset by other debt service increases and capital lease charges.

Mission Statement

State law charges the Sheriff with the responsibility of being the chief law enforcement officer of the County. The Sheriff enforces State laws and County ordinances in the unincorporated area (UA), which covers 77 percent of the total square miles within the County, and is responsible for maintaining law and order in all cities within the County. The Sheriff provides general law enforcement and traffic services, through contract, to 42 cities, the Los Angeles Superior Court, the Southern California Regional Rail Authority (Metrolink), the Los Angeles County Metropolitan Transportation Authority (MTA), and the Community College Districts. In addition, the Sheriff provides placement, secure housing, and care for a daily average population of approximately 17,500 pre-sentenced and sentenced county jail inmates at seven custody facilities.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects an NCC decrease of \$20.5 million. This includes a \$13.2 million decrease in debt service; a \$5.1 million decrease due to a lease cancellation related to the Hall of Justice (HOJ) project; \$20.4 million decrease in retirement; and the deletion of \$1.2 million to upgrade the NEC Private Branch Exchange (PBX) telephone system to VoIP due to completion of the project. The Budget also reflects the deletion of \$9.0 million in one-time funding comprised of: \$0.5 million in carryover funding for Operations Safe Canyons/Santa Monica Mountains Enforcement Program, Whittier Patrol Car project, and furniture for HOJ; \$7.9 million for costs associated with the move to HOJ, the Electronic Criminal Document Archive and Digital Evidence Management systems, start-up costs for crime analyst positions and the Population Management Bureau Analysis team, and for overtime costs to reduce the backlog of child abuse and adult rape cases; \$0.3 million for Operations Safe Canyons/Santa Monica Mountains Enforcement, Malibu Summer Enforcement

and Arson Watch/Red Flag and East Los Angeles Civic Center patrol programs; and \$0.3 million for start-up costs and vehicles for unincorporated area patrol in the Fourth Supervisorial District. Also reflected is a \$33.4 million reduction in NCC due to an anticipated increase in public safety sales tax (Prop 172) receipts.

The above decreases are partially offset by the addition of \$22.2 million and 94.0 positions to implement phase II of the Citizens' Commission on Jail Violence (CCJV) recommendations; \$21.8 million for Board-approved increases in salaries and employee benefits; and \$17.8 million increase in rent charges.

The Recommended Budget also includes a net increase of 25.0 positions due to the following ministerial changes: 10.0 positions for the newly created Transit Policing

Division (TPD) fully offset by revenue from MTA and Metrolink; 16.0 positions for contract law enforcement services as requested by contract agencies and County departments; 1.0 position for crime lab services fully offset by revenue from the City of Santa Monica; and the net deletion of 2.0 positions inadvertently included in a prior budget phase.

The Budget also recommends that \$103.9 million in funding be set aside in the Provisional Financing Uses (PFU) budget unit to address mental health issues, compliance with the Americans with Disability Act, and allegations of excessive use of force in the jails. Funding will remain in PFU pending completion of the Chief Executive Office fiscal analysis and/or Board approval of the settlement agreement.

Mission Statement

The mission of the Treasurer and Tax Collector is to bill, collect, invest, borrow, safeguard, and disburse monies and properties. The Department does this on behalf of the County, other government agencies and entities, and private individuals as specified by law. The Department also provides enforcement, consulting, estate administration, and public information services.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects a net decrease in NCC of \$0.8 million primarily due to the deletion of one-time funding for the Property Tax Telephone System Replacement project. The Recommended Budget also includes Board-approved increases in salaries and employee benefits and a net increase of 2.0 positions for the public administrator and information technology functions.

Critical/Strategic Planning Initiatives

The following are examples of the Department's continuing efforts to create efficiencies, work collaboratively with other departments, and maximize revenue:

- Continue the refunding project, with the support of the CEO, for bonds issued by the former redevelopment agencies. In November 2014, *The Bond Buyer* newspaper announced that this program received the 2014 Deal of the Year Award for the Far West region of the United States. *The Bond Buyer* recognized the program as a groundbreaking program that was the first to "pool" individual redevelopment agency credits into larger bond issuances. Since the first bond sale in December 2013, the program has issued in excess of \$350.0 million of refunding bonds on behalf of eight former redevelopment agencies. The total debt savings are in excess of \$101.0 million and will benefit the County, the State, and each city that participated in the program.

- Conduct online tax-defaulted property “B” auctions. As well as conducting online Public Administrator auctions for specialty and/or collectable items to maximize the proceeds to be distributed to the heirs.
- Streamline the annual property tax mailing process.
- Sustain the Customer Service Ambassadors’ Program during peak annual property tax seasons. Ambassadors wear bright blue vests for easy identification, carry sample bills and helpful information, answer questions, and direct taxpayers to the appropriate lines for enhanced customer service and decreased wait times.

Mission Statement

The Lockyer-Isenberg Trial Court Funding Act of 1997, AB 233, Chapter 850, Statutes of 1997 requires counties to make an annual Maintenance of Effort (MOE) payment to the State for support of trial courts and to continue to fund certain court-related expenditures such as indigent defense, collections enhancement, and local judicial benefits. The Trial Court Facilities Act, SB 1732, Chapter 1082, Statutes of 2002 authorized the transfer of responsibility for court facilities from the counties to the State and requires that counties make County Facilities Payment (CFP). Revenue from court fines and fees is used to partially finance the MOE obligation to the State and other court-related expenditures.

2015-16 Budget Message

The 2015-16 Recommended Budget reflects funding for the County's \$290.6 million MOE payment to the State, which is comprised of \$245.9 million base MOE, \$37.6 million CFP, and \$7.1 million representing 50 percent of any excess above the AB 233 fines and forfeitures MOE. In addition, the budget includes \$106.8 million for court-related expenditures that are the County's responsibility. The Recommended Budget also reflects Board-approved increases in employee benefits, and costs related to the Post-Conviction Assistance Center contract, partially offset by a decrease in retirement costs.
