DEBT SERVICE FUNDS

Debt Service Funds account for the accumulation of resources to make payments of principal and interest on general long-term debt.

This fund provides for the scheduled interest and debt redemption payments on the bonded indebtedness for financing adult and juvenile detention facilities projects. The bond issue requires the establishment of a separate redemption and interest fund with an annual appropriation to cover principal and interest due, and a reserve to finance the following six months of interest and/or principal requirements until taxes are collected and available. This bonded indebtedness will be fully matured in fiscal year 2006-07. The 2007-08 Proposed Budget reflects the elimination of this fund.

The main sources of revenue for this budget are State and federal revenue and operating transfers from the Aviation Enterprise Fund. The 2007-08 Proposed Budget reflects an increase of \$2,420,000 primarily due to increased construction expenses of new capital projects at Fox Airfield, El Monte Airport, and Compton Airport.

This fund provides for the operation and maintenance of five Off-Street Parking Meter Districts; security guard services for selected County-owned parking lots; issuance of parking permits to the residents of Poulter Drive, Young Drive, Ramona, El Camino, Marcheta, and Ladera Heights Preferential Parking Districts; and the installation of parking meters. The fund is financed by revenues from parking meter collections, permit fees, and reimbursements from community agencies. The 2007-08 Proposed Budget reflects continued funding for the off-street parking programs and provides funds for needed maintenance and repair of parking meter equipment and specialized maintenance projects such as parking lot slurry seal and lighting upgrades.

This fund provides financing for street, bikeway, road and highway improvements; and five major multi-year traffic signal synchronization and intelligent transportation system forums in Los Angeles County. On November 6, 1990, the voters approved Proposition C, which added one-half of one percent to the local sales tax in Los Angeles County for street improvements, public transit projects, and bikeway improvements. The 2007-08 Proposed Budget reflects an overall increase of \$7.3 million primarily due to grant funded activities associated with Transportation Systems Management projects, Metropolitan Transportation Authority grants, and an increase in anticipated operation and construction requirements of unincorporated County road improvement projects, partially financed by cancellation of appropriation for contingencies.

This budget unit is administered by the Department of Public Works. For additional information, please refer to the Public Works section in Volume One.

This fund, established by the Board of Supervisors on September 15, 1991 to comply with the mandates of the California Integrated Waste Management Act of 1989, Assembly Bill (AB) 939, provides for the continual implementation of the Countywide Integrated Waste Management Summary Plan and the Countywide Siting Element; including the development and implementation of countywide waste reduction programs. Fund requirements are primarily financed by landfill tipping fees and the imposition of a per-parcel service charge on real property in the unincorporated areas. The 2007-08 Proposed Budget reflects a net increase of \$2,459,000 due to implementation of the Waste Franchise Program and enhancement of waste reduction programs to assist the County and cities within the County to meet the 50 percent waste reduction mandated by AB 939. Included is a planned increase in the landfill tipping fee from \$0.86 to \$1.50 per ton to finance increased costs and offset a reduction in fund balance.

These funds are established to provide street and highway maintenance improvements in the unincorporated areas of Los Angeles County. Property taxes collected under the authority of the California Streets and Highways Code Section 1550 help finance construction and maintenance projects such as pavement widening; sidewalk work to prevent erosion; construction of concrete driveways, sidewalks, curbs, and gutters to improve drainage; and graffiti removal work. The 2007-08 Proposed Budget reflects an increase in appropriation primarily due to street and highway construction and maintenance improvements to County roads in unincorporated communities and graffiti abatement projects.

The Micrographics Fund will be implemented in 2007-08 to account for micrographics special fee collections as authorized by Assembly Bill 3332 (California Government Code Section 27361.4). This fund provides the funding to defray the cost of converting the County Recorder's document storage system to micrographics/images. The fund is financed by a \$1.00 fee charged for filing every instrument, paper or notice for record. The 2007-08 Proposed Budget reflects the transfer of the anticipated 2006-07 Micrographics trust fund ending balance and receipt of revenue based on prior years' experience.

The Modernization/Improvement Fund will be implemented in 2007-08 to account for modernization special fee collections as authorized by Senate Bill 21 (California Government Code Section 27361). This fund is used to support, maintain, improve, and provide for the modernization, retention, and retrieval of information in the County's system of recording documents. The fund is financed by a \$1.00 per page fee charged for recording documents. The 2007-08 Proposed Budget reflects the transfer of the anticipated 2006-07 Modernization trust fund ending balance and receipt of revenue based on prior years' experience.

The Vitals and Health Statistics Fund will be implemented in 2007-08 to account for vitals fee collections as authorized by Senate Bill 1535 (California Health and Safety Code Section 10605.3). This fund provides for the modernization of vital record operations, including the improvement and automation of vital record systems and collection and analysis of birth and death certificate information. The fund is financed by fees charged for certified copies of vital records. The 2007-08 Proposed Budget reflects the transfer of the anticipated 2006-07 Vitals trust fund ending balance and receipt of revenue based on prior years' experience.

This fund, authorized by Section 76102 of the California Government Code, provides for the operation and maintenance of the Automated Fingerprint Identification System. Funding is provided from an assessment of 50 cents on every \$10.00, or fraction thereof, for fines, penalties, or forfeitures levied and collected by the courts for criminal offenses. Pursuant to California Vehicle Code Section 9250.19, an additional fee of one dollar is paid to the Department of Motor Vehicles and passed through to the County, at the time of vehicle registration renewal, for the purchase and upgrade of Livescan technology. The 2007-08 Proposed Budget reflects carryover of prior year funds and appropriation for various automation enhancement projects.

Section 26731 of the California Government Code provides that \$10.00 of any fee collected by the Sheriff's Court Services Division shall be deposited into this special fund for the exclusive use of the Sheriff's Court Services Division. These funds may only be used for the purchase of auxiliary automation equipment and other operational equipment deemed necessary for the Division. The 2007-08 Proposed Budget reflects an increase in appropriation primarily due to an increase in carryover fund balance.

Section 40508.5 of the California Vehicle Code authorizes an assessment of \$15.00 upon persons who violate their written promise to appear, or for failure to pay a fine lawfully imposed by the court. These funds are to be used exclusively for the development and operation of the Automated Countywide Warrant System. The 2007-08 Proposed Budget reflects ongoing system maintenance requirements.

Pursuant to Section 4025 of the California Penal Code, this fund provides for the benefit, education, and welfare of inmates confined within County jails. Expenditures from this fund are restricted by State law and are fully funded from commissions earned from vending machine sales, pay-telephone usage, and interest on deposited funds. The 2007-08 Proposed Budget provides for the continuation of existing inmate welfare programs and maintenance of custody facilities.

This fund was established in 1984 in accordance with Section 11489 of the California Health and Safety Code. It provides for the distribution of assets forfeited in connection with violation of laws governing controlled substances. The 2007-08 Proposed Budget reflects continued funding to support the Success Through Awareness and Resistance Program, vehicle tracking systems, and vehicle purchases.

Section 26746 of the California Government Code provides that a processing fee shall be assessed for each disbursement of money collected under a writ of attachment, execution, possession, or sale. Proceeds are used to offset the Sheriff's cost for replacement and maintenance of vehicles and equipment. The 2007-08 Proposed Budget reflects increased funding for acquisition of vehicles and inmate transportation buses due to an increase in carryover fund balance.

This fund was established by Board order in 1996 to fund law enforcement training programs. Revenue is received from law enforcement training provided to other law enforcement jurisdictions. The 2007-08 Proposed Budget reflects an increase in available financing for services and supplies and fixed assets requirements for training, primarily due to an increase in carryover fund balance.

This fund is authorized by California Vehicle Code Section 9250.14 and must be used for programs to deter, investigate, and prosecute vehicle theft crimes. The 2007-08 Proposed Budget reflects funding for the continuation of this program.

Pursuant to Section 116.230 of the California Code of Civil Procedure, a portion of the fee imposed on Small Claims Court filings is deposited in this fund to finance the Small Claims Advisor Program. The program is operated by the Department of Consumer Affairs. The 2007-08 Proposed Budget reflects continued financing for this program.

In November 1998, the State of California ("the State") and other states and United States jurisdictions entered into a settlement of certain cigarette smoking-related litigation ("MSA") with participating cigarette manufacturers which entitle settling jurisdictions to certain payments from these manufacturers in future years. The County has the right, title and interest, pursuant to agreements with the State and other participating jurisdictions, to a share of the tobacco settlement revenues ("TSRs") received by the State under the MSA. In 2006, the County issued bonds to securitize 25.9 percent of its right, title and interest to TSRs to be received starting in 2011. The 2007-08 Proposed Budget reflects the full utilization of fund balance in 2006-07 from the issuance of the securitized bonds.

TOBACCO REVENUE CAPITAL PROJECT FUND GENERAL

PLANT ACQUISITION

Special Districts

The following Special Districts provide a variety of specialized services to various locations throughout the County. They are financed by a combination of property taxes, benefit assessments, and user charges as a means of equitably distributing the costs of providing services to benefited properties and residents.

This fund is administered by the Fire Department and provides funding for capital improvements, including the replacement and construction of additional fire stations. The 2007-08 Proposed Budget reflects sufficient funding for existing capital projects.

These districts are administered by the Department of Parks and Recreation. Landscape Maintenance Districts and Landscaping and Lighting Act Districts (LLAD) provide maintenance for landscaping on road medians, parkways, greenbelts, and other open space areas designated within the boundaries of the districts, for which maintenance easements have been granted to the County and for which property owners pay a benefit assessment. The 2007-08 Proposed Budget reflects an increase in appropriation and available financing to fund development and maintenance of parkway panels, median strips, slopes, and open space areas, including one new zone.

These districts are administered by the Department of Parks and Recreation. Recreation and Parks Districts are special tax districts which receive ad valorem property taxes. These districts were formed under the provisions of Section 5780 et. seq. of the California Public Resources Code to make landscape improvements and provide for their continued maintenance. The 2007-08 Proposed Budget reflects an increase in appropriation and available financing to fund development and continued maintenance of parkway panels, median strips, slopes, and open space areas.

This budget is administered by the Department of Public Works. The Flood Control District constructs and maintains dams, debris basins and storm drain systems to provide regional and local flood protection in the County. Funding is provided mainly through property tax and benefit assessment collections. The 2007-08 Proposed Budget reflects an overall net increase of \$5.8 million primarily due to increased funding of \$22.0 million for the Big Tujunga Dam Seismic Rehabilitation project and the Termino Avenue Drain project, and \$8.2 million for the Water Conservation program, offset by reductions of \$22.4 million in contingencies and designations and a \$2.0 million reduction in maintenance costs to other County departments and other changes.

The Flood Control/Debt Services Budget provides for the redemption and interest payment of Flood Control District Storm Drain Bonds approved by the electorate in 1970. The 2007-08 Proposed Budget reflects an overall decrease in debt service requirements due to anticipated lower principal and interest payments, an increase in general reserve requirements, and redemption of the 1970 Storm Drain Bond No. 4.

The Garbage Disposal Districts (GDD) provide garbage and disposal services within specified unincorporated areas of Los Angeles County. Funding is provided through the garbage collection and disposal service fee levied upon real properties in each of the GDD and a limited amount of ad valorem property taxes for six of the seven GDD. The 2007-08 Proposed Budget reflects an overall increase of \$5.8 million primarily due to anticipated increases in garbage collection contract costs, offset by increases in proposed garbage and disposal district service fees needed to offset increased operating costs.

Other Special Districts include the Antelope Valley Drainage Fee District, Drainage Special Assessment Areas, and Bridge and Major Thoroughfare Construction Fee Districts (BMTCFD). These districts provide a variety of services including: maintenance of dewatering wells; cleaning of catch, storm, and retention basins; and construction of roads and highways required for future development. The 2007-08 Proposed Budget continues funding for the routine administration and management of the drainage systems and anticipated construction activities in the various BMTCFD, reflecting increases of \$33.2 million for the Castaic District, \$9.2 million for the Valencia District, \$5.0 million for the Bouquet Canyon District, and \$4.6 million for the Route 126 District, offset by a \$1.0 million decrease in financing requirements for the Lyons Avenue/McBean Parkway District.

This budget provides for the operation, construction and/or upgrades of sewer systems for two sewer maintenance districts, one accumulative capital outlay fund, and nine tax zones. The primary source of revenue is the sewer service charge imposed on parcels of real property. The 2007-08 Proposed Budget reflects an overall increase of \$2.9 million primarily due to increased cost of operations and maintenance of the sewage systems and wastewater treatment plants to comply with the new Statewide general waste discharge requirement for sanitary sewer systems, adopted May 2, 2006, to eliminate sewer overflows.

This budget provides for the operation, maintenance, and repair of street lighting in various districts throughout Los Angeles County. Funding is provided through property tax and benefit assessment collections. The 2007-08 Proposed Budget reflects an increase in appropriation due to increases in energy cost and refurbishment of lighting standards in many of the districts, offset by a reduction in contingencies and designations, resulting in an overall budgetary decrease.

On November 3, 1992, Los Angeles voters approved the Safe Neighborhood Parks Proposition, which established the Regional Park and Open Space District to fund the acquisition and development of park, recreation, and open space resources in the unincorporated and incorporated areas of the County through the collection of a benefit assessment on property. Subsequently, on November 5, 1996, the voters approved a second Safe Neighborhood Parks Proposition, which levied an additional assessment within the District, amended the method of the assessment, and authorized expenditure of excess District revenues for any authorized purpose of the District. In March 2007, the District issued the 2007 Refunding Revenue Bonds to partially refund the outstanding 1997 Revenue Bonds, which will allow more assessments to be utilized for authorized purposes of the District. The 2007-08 Proposed Budget reflects funding for both County and outside agency capital projects, financed through the benefit assessment.

Other Proprietary Funds

OTHER PROPRIETARY FUNDS

Other Proprietary Funds (Enterprise and Internal Service Funds) account for those governmental activities which are similar to those found in the private sector.

Internal Service Funds account for the financing, on a cost-reimbursement basis, of goods or services provided by one department or agency to other departments or agencies of the County or other governmental units.

Enterprise Funds account for operations providing goods or services to the general public which are recovered primarily through user charges.

HEALTH CARE SELF-INSURANCE FUND.......4.2

This fund was established by the Board of Supervisors on September 15, 1992, which became effective on January 1, 1993, to provide nonrepresented employees with self-funded health plans that offer a variety of health care options. The 2007-08 Proposed Budget reflects increases in appropriation and revenue to reflect increases in enrollment from the prior year.

This fund provides for the operation, maintenance, and repair of airport grounds, facilities and equipment, as well as the initiation and management of airport facility leases. This fund also provides for development and financing of County airport improvement projects and planning studies. The main sources of revenue for this fund are payments from the airport management contractor and fuel and oil sales. The 2007-08 Proposed Budget reflects a net increase in appropriation resulting from an increase in operating transfer to the Aviation Capital Projects Fund and the operation, maintenance and repair activities at all five County airports.

This budget unit is administered by the Department of Public Works. For additional information, please refer to the Public Works section in Volume One.

PUBLIC WORKS - TRANSIT OPERATIONS FUND4.5

The Transit Operations Fund was created in 1979 to finance the operations of various bus transit projects and transit assistance programs throughout Los Angeles County. This fund finances the Edmund D. Edelman Children's Court Shuttle, the East Los Angeles Shuttle, the Hahn's Trolley and Shuttle, the Los Nietos Community Shuttle, the Rosewood Flex Route Shuttle, the Avocado Heights Flex Route Shuttle, the unincorporated Whittier area shuttle, the Summer Beach Bus Program, the Bus Pass Subsidy Program, the Dial-A-Ride services in unincorporated areas, and the operation and maintenance of park-and-ride lots. The main sources of revenue are local sales tax and State/federal grant funds. The 2007-08 Proposed Budget reflects an overall decrease of \$10.4 million primarily due to the discontinued funding for the Department of Public Social Services' Ticket and Token Subsidy Program for General Relief clients, long-term delay of the Via Verde Park-and-Ride Lot transit facility improvement project, completion of transit improvement projects and the reduction of contingencies and reserves.

| PUBLIC WORKS - WATERWORKS DISTRICTS SUMMARY | |
|---|--|
|---|--|

This budget provides funding for the construction, operation, and maintenance of the five operating Waterworks Districts and the Marina del Rey Water System. The 2007-08 Proposed Budget reflects an overall increase of \$15.2 million primarily due to anticipated capital projects for the Marina del Rey Water System, District No. 29 Malibu, District No. 36 Val Verde, District No. 37 Acton and District No. 40 Antelope Valley; offset by reductions in contingencies and designations; and funded by anticipated increases in revenues.

The Community Development Commission is responsible for the County's housing and community development programs and services, including distribution of the Urban County Community Block Grant funds, administration of County redevelopment projects and management of a variety of housing programs.

Services are funded through federal grant allocations and program income. These services include low- and moderate-income housing development and rehabilitation in unincorporated areas of the County and participating cities; community revitalization and loan assistance for small businesses; maintenance, management, and security of conventional public housing; and subsidies for privately owned rental units (Section 8) in unincorporated areas and cities.

Consistent with past practices, the Community Development Commission is submitting its detailed budget recommendations to the Board of Supervisors under separate cover. The final County budget will be updated to reflect the revised final estimates contained in the Community Development Commission's detailed submission.

This fund primarily consists of appropriation and federal revenue, including Housing and Community Development Act funds, required for the Commission's expenses related to housing, redevelopment and community revitalization. The 2007-08 Proposed Budget reflects an overall increase of 0.06 percent or \$85,000. The Proposed Budget also reflects a decrease in miscellaneous and federal revenues attributable to the extension of the Carson float loan resulting in the delay of the principal repayment and less available funds for the La Alameda project. The budget also includes an increase in funding for the Homeless and Housing Project administered by the Community Development Commission on behalf of the County.

This fund consists of appropriation and federal revenue received from the United States Department of Housing and Urban Development (HUD) to fund Housing Authority expenses related to Conventional Housing, Modernization and Rental Subsidy Programs. The 2007-08 Proposed Budget reflects a 3.3 percent or \$9.1 million increase primarily attributable to the inclusion of booking fees, asset management fees, and management fees used to fund Housing Authority central office operational costs. This is consistent with HUD guidelines and is associated with conversion to site based budgeting.

The equipment identified on this page reflects County equipment requirements to be financed through the Los Angeles County Capital Asset Leasing (LAC-CAL) Corporation in 2007-08. The County Board of Supervisors has not allocated, reserved or otherwise set aside any funds in the County's 2007-08 Proposed Budget to purchase the equipment identified above.

It is officially the intention of the County Board of Supervisors that the acquisition of such equipment be initially funded through the issuance of Bond Anticipation Notes (BANs) or another short-term financing mechanism. The BANs will be issued by LAC-CAL and purchased as an investment by the County Treasury Pool in an amount sufficient to acquire and deliver the identified equipment. Any such costs, which are initially funded by BANs, will be properly capitalized under general federal income tax principles.

Further, the Board of Supervisors expects the outstanding BANs to be redeemed and the County Treasury Pool to be reimbursed, through the issuance of taxable or tax-exempt, intermediate-term lease revenue bonds, certificates of participation, or through a lease with a third-party lessor. The amounts specified above represent the maximum principal amounts of such intermediate-term obligations to be issued for the specified equipment.

These official intentions of the Board of Supervisors with respect to the LAC-CAL Equipment Program have been specified in accordance with United States Treasury Regulation 1.150-2.

LANDSCAPE MAINTENANCE AND LLAD-LANDSCAPE DISTRICTS SUMMARY

FUND VARIOUS

Landscape Maintenance Districts are established pursuant to the provisions of the Improvement Act of 1911, Streets and Highways Section 500 et seq. These Districts are specifically designed to create a tax entity in perpetuity for the purpose of maintaining landscape road medians, parkways, greenbelts, and other areas specifically designated in the formation of the District. Funding for these Districts is through ad valorem taxes.

The Landscaping and Lighting Act Districts are formed pursuant to the provisions of the Landscaping and Lighting Act of 1972 of Part 2 of Division 15 of the Streets and Highways Code of the State of California. These Districts provide for maintenance of landscaped areas and other open space areas designated within the boundary of the Districts for which maintenance easements have been granted to the County. Benefiting properties pay an assessment through their property taxes to maintain and service the landscaping and appurtenant improvements within these Districts

PUBLIC WORKS-FLOOD CONTROL DISTRICT

FUND

VARIOUS

The Flood Control District was established under the legal authority of the Los Angeles County Flood Control Act (Chapter 755, Statutes of 1915) to provide for the control and conservation of flood, storm, and other waste waters; to conserve such waters for beneficial and useful purposes; and to protect from damage the harbors, waterways, public highways and property located within the District from such flood and storm waters. The District constructs, operates and maintains flood control channels, dams, debris basins, spreading grounds, storm drains, drainage improvements, drainage systems, and other flood control facilities and cooperates with Federal, State and Local agencies in developing a comprehensive flood control system for Los Angeles County.

FUND VARIOUS

Lighting Districts are established pursuant to the Streets and Highways Code, Highway Lighting District Act of 1909 and 1911, for the installation and maintenance of street lighting systems. Street Lighting Assessment Districts are formed under the provisions of the Landscaping and Lighting Act of 1972, Part 2, Division 15, of the Streets and Highways Code. The purpose of these districts is to levy an assessment on each lot or parcel based on benefits to be received from the existing street lighting improvements. This appropriation provides for the operation, maintenance, and repair of street lighting in various districts throughout Los Angeles County.

REGIONAL PARK & OPEN SPACE DISTRICT SUMMARY

FUND

VARIOUS

This District was established as a result of voters' approval of the Safe Neighborhood Parks Proposition on November 3, 1992, under the provisions of the Landscape and Lighting District Act of 1972 and Section 5506.9 of the Public Resources Code. The District provides for park, recreation and open space capital projects in unincorporated and incorporated areas of Los Angeles County, and is financed with special assessments. On November 5, 1996, the voters approved a second Safe Neighborhood Parks Proposition. This second Proposition levied an additional assessment within the District, amended the method of the assessment, and authorized expenditure of District revenues for any authorized purpose of the District.
