Chief Executive Officer

HOMELESS INITIATIVE QUARTERLY REPORT NO. 31 (ITEM NO. 47-A, AGENDA OF FEBRUARY 9, 2016)

On February 9, 2016, the Board of Supervisors (Board) approved the Los Angeles County (County) Homeless Initiative (HI) recommendations, which included 47 strategies to combat homelessness, and instructed the Chief Executive Office (CEO) to report back to the Board on a quarterly basis regarding their implementation. On December 6, 2016, the Board approved four new strategies as part of the Measure H Ordinance, and they are also included in the CEO's Quarterly Report (QR). In April 2022, the Board approved the HI's New Framework to End Homelessness (Framework). The QR began reflecting the Framework beginning in QR 25.

Attached is HI's 31st QR, which includes data for the first quarter of Fiscal Year (FY) 2024-25, as well as cumulative data since the beginning of Measure H implementation in July 2017.

This QR continues to reflect the HI's Framework, which was approved by the Board in April 2022. The information in the report is organized according to the Framework's pillars: Coordinate, Prevent, Connect, House, and Stabilize. The report also outlines key developments that took place during the QR reporting period, including the creation of the Emergency Centralized Response Center (ECRC), continued partnerships with local jurisdictions in addressing unsheltered homelessness through the County's Pathway Home program, the County's Encampment Resolution Fund State grant award, and the Skid Row Action Plan. Additionally, the QR also provides updates on the outcomes of current HI programs,

including prevention, outreach, interim housing, permanent housing, and supportive services. The report highlights the ongoing work of County departments, agencies, and community-based organizations to implement the HI Framework, including several compelling stories that demonstrate how HI-funded programs are transforming lives.

Key Outcomes in the Quarterly Report

For most strategies, outcomes in the first quarter have either remained stable or improved. In instances where outcomes declined, the report explains the underlying causes. The Coordinated Entry System (CES), managed by the Los Angeles Homeless Services Authority (LAHSA), saw significant gains this quarter. Compared to the first quarter of last FY, the number of households assessed through CES increased by 1,253, and the number of people who increased their income through CES increased by 2,807. Through the County's increased investments in outreach in partnership with the Department of Health Services Multi-Disciplinary Teams and LAHSA Homeless Engagement Teams - the number of newly engaged individuals grew by 29% to 5,061 compared to 3,933 in the first quarter of FY 2023-24. Similarly, the number of participants who received services and/or successfully retained referrals through outreach increased by 16% over the same period.

The next QR will highlight recent Homekey and Department of Mental Health supportive housing sites that launched in quarter two, updates on HI's annual funding recommendation process for FY 2025-26, ECRC, Measure A implementation, and more.

Additional key outcomes include:

From July 2024 – September 2024:

- 134 families and 184 individuals in LAHSA's prevention programs were prevented from becoming homeless.
- 5,061 individuals were newly engaged by outreach teams.
- 11,553 individuals and family members were active in LAHSA's interim housing program, and 282 individuals were active in LAHSA's interim housing program for people exiting institutions.
- 1,416 individuals and family members were permanently housed through the Time-Limited Subsidy program; 729 individuals were placed in permanent supportive housing; and 294 households were housed using landlord incentives.

Since the implementation of Measure H in July 2017:

- 165,008 individuals and family members were placed in interim housing funded in part or in whole by Measure H.
- 125,056 individuals and family members were placed in permanent housing through Measure H funded strategies.
- 42,836 individuals were prevented from becoming homeless through Measure H funded strategies.

Should you have any questions concerning this matter, please contact me or Cheri Todoroff, Executive Director of the Homeless Initiative and Affordable Housing, at (213) 974-1752 or ctodoroff@ceo.lacounty.gov.

Los Angeles County HOMELESS INITIATIVE

Quarterly Report #31

The [Homeless Initiative](#) (HI) is the central coordinating body for Los Angeles County's (County) ongoing effort to expand and enhance services for people experiencing homelessness or at risk of losing their homes.

Created by the Board of Supervisors (Board) in August 2015, HI is part of the County's Chief Executive Office. HI directs, oversees, and evaluates strategies to end and prevent homelessness, in addition to administering Measure H and other funding.

[Measure H](#) is the landmark ¼-cent sales tax approved by 69.3% of County voters in March 2017, creating a 10-year revenue stream that began in July 2017 and is set to expire in September 2027, unless renewed by voters.

HI is leading the County's response to the [Los Angeles County Proclamation of a Local Emergency for Homelessness](#) approved by the Board on January 10, 2023, which focused initially on three missions:

- **Encampment Resolution** – reduce unsheltered homelessness in partnership with cities and Councils of Government (COGs)
- **Housing** – increase interim and permanent housing placements
- **Mental Health and Substance Use Disorder Services** – provided to sheltered and unsheltered people at the level required to meet their needs

In October 2023, the Board added **Eviction Prevention** as a fourth mission, with a goal to reduce inflow into homelessness by helping at-risk households remain housed.

HI's [New Framework to End Homelessness](#), approved by the Board in April 2022, laid out key roles for three partners, each taking action to **Coordinate, Prevent, Connect, House, and Stabilize** people experiencing or at risk of homelessness.

- **Mainstream Government Systems** identify and prioritize the most at-risk households for prevention services to reduce the inflow into homelessness and ensure there is "no wrong door" for people seeking help.
- **Homeless Rehousing System** prioritizes housing the "persistently underserved" -- those with the most complex challenges who require ongoing, resource-heavy intervention.
- **Local Jurisdictions** collaborate and creatively co-invest with the County to develop more permanent housing and decommission encampments while providing pathways to housing and services.

Ending homelessness in the County requires an all-hands-on-deck approach. HI works with several departments and agencies serving County residents. These include, but are not limited to:

- [Los Angeles County](#)
 - [Aging and Disabilities \(AD\)](#)
 - [Children and Family Services \(DCFS\)](#)
 - [Economic Opportunity \(DEO\)](#)
 - [Health Services \(DHS\)](#)
 - [Mental Health \(DMH\)](#)
 - [Public Health \(DPH\)](#)
 - [Public Social Services \(DPSS\)](#)
 - [Sheriff's Department \(LASD\)](#)
 - [Probation](#)
 - [Public Defender \(PD\)](#)
- [Los Angeles County Development Authority \(LACDA\)](#)
- [Los Angeles Homeless Services Authority \(LAHSA\)](#)

HI allocates Measure H revenue and other funding to enable County departments and agencies to contract with over 200 community-based [nonprofits](#) to provide:

- [homeless prevention](#) for individuals and families at imminent risk of homelessness who are exiting institutions such as foster care, hospitals, and the criminal justice system;
- [outreach](#) to build relationships with people living outdoors or in vehicles and connect them to housing and services;
- [interim housing](#), which offers temporary accommodations, such as emergency shelters, recuperative care facilities, and more;
- [permanent housing](#) secured through short- or long-term rental subsidies accompanied by supportive services; and
- [supportive services](#), which can include case management and connections to physical and/or mental healthcare, substance use disorder treatment, criminal record clearing, employment support, and more.

HI also maintains key partnerships with cities and COGs, supplementing their funding with Measure H and additional revenue sources, as well as providing technical assistance and other resources. Some of the County's recent and upcoming investments in local governments include the Local Solutions Fund, Cities and COGs Interim Housing Solutions Fund ([CCOGIHS](#)), and [Project Homekey](#). HI also supports COGs in facilitating regional coordination and innovation among their member city governments.

- Exhibit 1: Homeless Initiative Performance Data by Pillar
- Exhibit 2: Select Strategy Performance Data by Service Planning Area
- Exhibit 3A: Demographic Enrollment/Service Data for Select Pillars/Programs
- Exhibit 3B: Visualization of Demographic Service Data for Select Pillars/Programs

This **31st Quarterly Report** reflects continued progress made during the State of Emergency on Homelessness, as well as updates from ongoing efforts to implement the HI's New Framework to End Homelessness, with a particular focus on the homeless rehousing system.

The dashboard below highlights data beginning **July 1, 2017, through September 30, 2024**, capturing seven years and two months of progress since Measure H funding first became available. During this time frame, the County has implemented strategies on homeless prevention, outreach, interim housing, permanent housing, and supportive services.

Period Covered: July 1, 2017 – September 30, 2024 (87 months total)

125,056 people were placed in permanent housing.

46,309 of permanent housing placements **(37.0%)** were completely or partially funded through **Measure H**.

165,008 people were placed in interim housing.

87,405 of interim housing placements **(53.0%)** were completely or partially funded through **Measure H**.

42,836 people were prevented from becoming homeless.

11,345 of people prevented from becoming homeless **(26.5%)** were completely or partially funded through **Measure H**.

This report also tracks progress from the first quarter of FY 2024-25 (**July 1, 2024, through September 30, 2024**), also referred to as the “reporting period.”

During this reporting period, the homeless rehousing system moved **7,917** people into permanent housing, provided interim housing to **12,836** people, and prevented **3,043** people from becoming homeless. Of these, **2,532** people were moved into permanent housing, **5,834** moved into interim housing, and **773** people were prevented from becoming homeless through Measure H-funded programs.

STATE OF EMERGENCY

On January 10, 2023, the Board unanimously adopted a motion to proclaim a State of Emergency on homelessness. The County’s local emergency declaration provided HI and other County departments with increased authority to expedite and streamline the creation of housing, expand services, more effectively and efficiently use funds, and facilitate other administrative processes enabling the County to respond more nimbly to homelessness.

The County is responsible for many tools that can end homelessness, and we can achieve success by harnessing the collective expertise and resources of our partners. The Board has tasked HI to lead unprecedented collaboration between County departments, elected officials, local jurisdictions, service providers, and people who have experienced homelessness to address this issue that affects all County residents. Together, we have a shared plan and focus: we’re tightening our region’s social safety net, increasing efforts to prevent homelessness, and scaling up bold new solutions to end it.

Several initiatives within this shared plan were noted in Quarterly Report 31 and updates on these efforts are provided below.

Emergency Centralized Response Center

Prompted by the need for better coordination and communication among outreach teams operating throughout the County, the Board adopted a motion to create the Emergency Centralized Response Center (ECRC) on September 24, 2024. ECRC will **coordinate the operations of outreach teams and other efforts to support unsheltered individuals across the County.**

The centralized response call center is designed specifically for elected officials, jurisdictions, governmental agencies, and outreach teams. ECRC has several functions, including:

- establishing a single location with onsite staff from HI, DMH, DPH, DHS, LAHSA, and others;
- centralizing coordination for outreach efforts and encampment resolutions;
- producing real-time updates on interim housing and other resource availability for unsheltered individuals; and
- supporting the County Office of Emergency Management in coordinating life-saving responses during emergencies or inclement weather for people experiencing unsheltered homelessness.

Los Angeles County Encampment Resolution – Pathway Home

Launched in August 2023, Pathway Home is an innovative encampment resolution program designed to promote system flow by moving people off the streets and into permanent, stable housing while returning community spaces to their intended use.

Through Pathway Home, the County is leveraging its emergency powers and working with County departments, invaluable service providers, LAHSA, and other local jurisdictional partners to expand, enhance, and expedite:

- **Outreach in Encampments:** We are expanding the number of specialized teams from County departments, such as DMH, DHS, DPH, and other agencies, as well as from our trusted partners and community organizations, to work intensively with people who live with various physical and behavioral health needs.
- **Housing:** This includes expanding a diverse array of **interim housing** options at non-congregate motels and hotels as well as available shelters that people can move into immediately while being matched to rental subsidies, benefits, and other resources to enable them to secure **permanent housing**. The County will also continue acquiring and refurbishing motels and hotels under Project Homekey, which will bring new permanent homes online faster and more cost-efficiently than is possible through traditional construction.
- **Supportive Services:** Services such as physical and behavioral health care, substance use disorder treatment, benefits enrollment support, and more are critical to supporting people transitioning out of homelessness in regaining

long-term housing and enabling formerly homeless individuals residing in permanent housing to remain successfully housed.

During this reporting period (Q1 of FY 2024-25), HI partnered with local jurisdictions to execute **four Pathway Home encampment resolutions**, including three separate operations in Palmdale and one operation in Long Beach. These operations brought 145 people off the streets and into safe interim housing, where they began receiving supportive services and other resources to put them on a path to permanent housing. These operations also removed 20 dilapidated recreational vehicles being used as makeshift dwellings from community streets.

In July 2023, the County added **Pathway Home Service Connection Events** as a routine service provided at interim housing sites used for both Pathway Home and Inside Safe, the City of Los Angeles's (City) Encampment Resolution program. Pathway Home Service Connection Events are County organized "one-stop-shops" for people experiencing homelessness as they come

indoors. The County mobilizes government and nonprofit partners to activate a day of local, state, and federal resource navigation at the interim housing sites where people experiencing homelessness are newly housed, giving them the opportunity to access essential resources to continue their journey to housing stability. Service Connection Events usually take place at the motel-based interim housing sites a few weeks after move-in day.

During the first quarter of FY 2024-25, **four Service Connection Events** took place, connecting approximately **250 Inside Safe and Pathway Home participants** with County services and resources, including health, mental health, and substance use disorder services; DPSS resources including Medi-Cal, CalFresh, and General Relief resources for veterans and immigrants; and more.

Support for the City of Los Angeles Homeless Emergency Declaration

In support of the City and Inside Safe, HI and several County departments, including DHS, DMH, DPH, DPSS, and LACDA, have come together to support the City's state of emergency on homelessness by aligning County-operated and contracted resources including outreach teams, interim and permanent housing resources, and County department services. The County has played a key role in all Inside Safe operations to date. **Eleven Inside Safe encampment resolutions** took place during the first quarter of FY 2024-25, bringing an estimated 238 people inside.

ADDITIONAL DEVELOPMENTS

Resolving Encampments in Skid Row

On June 14, 2023, the County received a \$60 million grant through the State's Encampment Resolution Funding Rolling Disbursement Round 2 (ERF-2-R). This funding, allocated by Governor Gavin Newsom, was designed to address the issue of unsheltered homelessness, particularly for individuals living in encampments. The ERF-2-R grant awarded to the County has already been a critical catalyst in clearing homeless encampments in Skid Row by expanding housing and services in the area. According to new outcome data released in August 2024, which reflects the grant's first year, the funding administered by DHS-Housing for Health (HFH), helped **move 1,975 people into interim housing and 990 in permanent housing**. Additionally, approximately **8,000 individuals experiencing unsheltered homelessness received outreach services or services** through an access center or health clinic during the first year of the grant. These results highlight the impact of targeted funding and collaboration among state, county, city and community partners in resolving homeless encampments in the County.

The ERF-2-R award has also spurred progress for the **Skid Row Action Plan**, a comprehensive initiative between the County and residents, business owners, and other stakeholders to improve living conditions and transform the downtown neighborhood into a thriving community. This blueprint spells out a collaborative approach to provide more on-site medical and social services, as well as hundreds more interim housing beds and permanent units. The plan's next steps include expanding job and entrepreneurship opportunities and building a campus that will include a harm reduction health hub, a dedicated outdoor space for people to obtain

services, and an enriched residential care facility for people who need additional support to stay permanently housed.

Motel Owner Partnerships

The County is partnering with motel owners to bring more people indoors through safe, accessible interim housing, particularly through the Pathway Home program. During this quarter, we expanded our efforts to recruit motel owners through a dedicated webpage on the HI website, garnered testimony from current owners, and created presentations for business owners to highlight the benefits of partnering with the County. Motel owners receive competitive market room rates, payment for full occupancy (regardless of vacancies), on-site 24/7 security, coverage for property damage, and coverage for required Transient Occupancy Taxes. To date, Pathway Home has partnered with **18 motel owners** in neighborhoods including San Gabriel Valley, Santa Monica, Antelope Valley, and Long Beach, housing a total of **1,181 previously unsheltered individuals** who are now on a path to a permanent home.

COORDINATE

The County's Coordinated Entry System (CES), managed by LAHSA, is the network that aligns homeless services to ensure resources are efficiently and equitably distributed countywide to support people experiencing homelessness. CES serves as the organizational backbone of the homeless response system, enabling service providers to connect people experiencing homelessness to solutions as quickly as possible.

Highlights

- **CES (all populations):** During this reporting period, **5,102** unique households were assessed for housing and services for the first time. Additionally, **98%** of people placed into permanent housing by the homelessness response system retained their housing through the first 12 months. Additionally, **11,155** people/households who accessed services through the homeless response system increased their income during this reporting period.
- **Adult CES:** This quarter, LAHSA implemented system improvements to more quickly connect people with permanent housing through outreach. Outreach teams are trained to directly refer people with Time Limited Subsidies (TLS)

to a unit once it has been identified for a participant. LAHSA is updating their data systems to better track the success of these efforts.

BOBBY

Lead County Dept: DHS-HFH | **Agency:** The People Concern (TPC)

Bobby, 44, was in recovery for substance use disorder when he moved to Los Angeles from St. Louis. Without the strong network of family and friends he had in Missouri, he began using substances again and unable to hold down steady employment, found himself homeless. A team of outreach workers from TPC began engaging with Bobby, providing him with urgent resources such as food and water, medical care, and harm reduction services while simultaneously establishing a strong mutual trust. Eventually, Bobby began to show interest in moving off the streets and into a permanent home. His case management team helped him to reconnect with his family in Missouri, who offered him a place to stay, and substance use recovery support.

Bobby now lives with his brother back in Missouri, where his family is supporting him in regaining his personal stability. He is receiving mental health treatment and plans to move into a sober living facility next year.

“I’m home with my brother, where I have food and everything I need – everything I was lacking when I was [outside].”

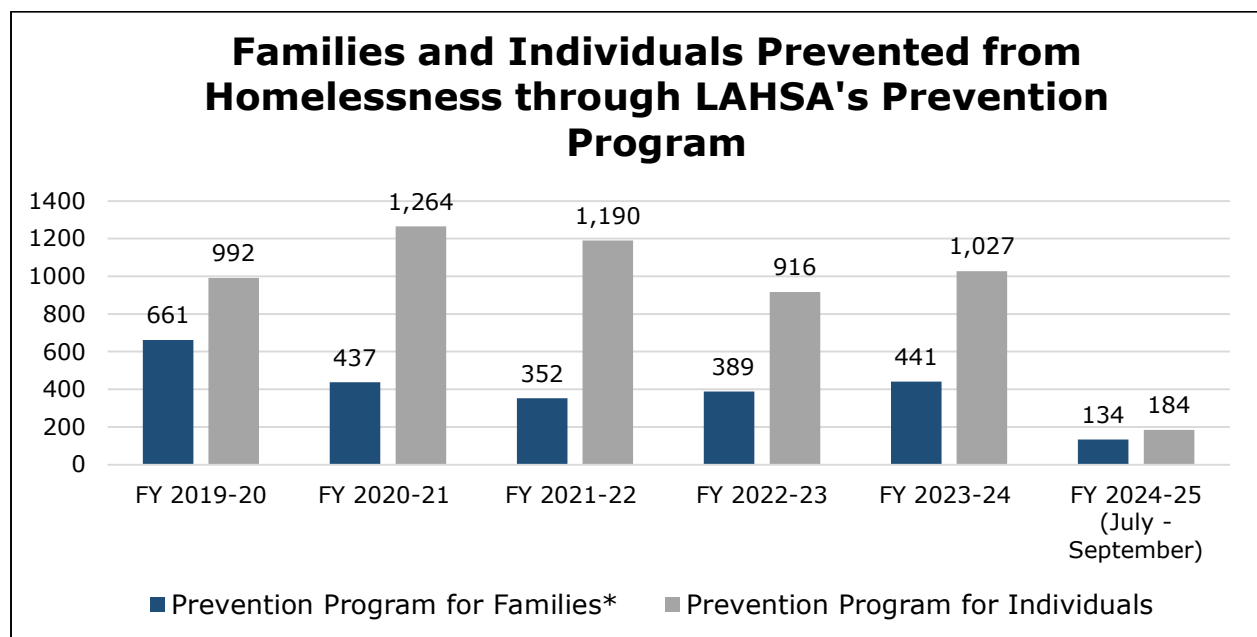

- **Family CES:** The Family CES team is working closely with DPSS and Change Well, a technical assistance provider, to optimize the use of DPSS Housing Support Program funds, ensuring funding and housing slots are used effectively.
- **Youth CES:** The Regional Coordination team is preparing for the upcoming 2025 Youth Count, with all eight Service Planning Areas (SPAs) confirming scheduling of a blitz day – a day in which providers, advocates, and volunteers unite to engage as many youths as possible in a single day to ensure they are included in the annual Homeless Count data. LAHSA is finalizing formal agreements with survey sites, and 75% of these agreements have been signed. A meeting for Youth Count volunteers will be held in December.

An Active System Management Youth Working Group, which seeks to improve program pathways and system flow within the Youth CES, is on track to be completed by the end of the year. A new training for outreach workers is planned for December 2024. Additionally, a new resource is being launched to enable outreach workers to locate access centers and youth resources via QR codes.

PREVENT

[Homeless Prevention](#) services support rent-burdened, low-income families and individuals in resolving crises that could cause the loss of their home. Homeless prevention services include short-term rental subsidies; housing conflict resolution; mediation with landlords and/or property managers; legal defense against eviction; and problem-solving.

[Problem-Solving](#) is a person-centered, short-term housing intervention that assists households in maintaining their current housing or identifying an immediate and safe housing alternative within their own social network. This strategy uses exploratory conversation, mediation, empowerment methods, and financial assistance to resolve the household's crises or quickly connect them to existing emergency housing services.

*This metric reflects the number of households enrolled in the program, rather than the total number of individuals in each household.

Highlights

- **LAHSA Prevention:** The Homeless Prevention program has successfully helped both families and individual adults avoid homelessness.
 - **Families: 99%** of families enrolled in the program avoided homelessness this quarter, with regional differences across SPAs. Despite challenges such as staffing shortages and high rental arrears, **241** new families were enrolled this reporting period, and **676** families are currently active. **Ninety percent** of families who exited the program maintained permanent housing and have not entered any homeless services programs within one year.
 - **Individual Adults: 98%** of individual adults enrolled in this program avoided homelessness this quarter, with similar regional variations across SPAs. During this quarter, **195** new individuals have joined the program, and **924** individual adults are currently active. **Ninety-eight percent** of those who exited the program have maintained permanent housing and have not entered any homeless services programs within one year.

*This metric reflects the number of households enrolled in the program, rather than the total number of individuals in each household.

- **LAHSA Problem-Solving:** During the last quarter of FY 2023-24, LAHSA's Problem-Solving Unit provided trainings for partners such as the County's AD, City Family Source Centers, and other small nonprofits. In addition, LAHSA collaborated with DPSS and the University of California Los Angeles Policy Lab in their Service Enhancement Homelessness Prevention Effort or SeE HoPE Pilot program, which uses a predictive analytics model to identify and assist Greater Avenues for Independence (GAIN) families facing a housing crisis. LAHSA has committed two Problem-Solving Coordinators to assist GAIN offices as needed and successfully connected people and families to permanent housing through referrals from DPSS GAIN Social Workers and Homeless Case Managers.

During this reporting period, **338 individuals and 180 families** who engaged in at least one problem-solving conversation moved into a permanent home.

PAUL

Lead County Dept: DHS-HFH | **Agency:** Exodus Recovery

Paul, 55, was living with his mother when she passed away unexpectedly. He quickly became unable to cover basic living expenses on his own, including monthly rent. Before long, as he continued to work through the grief of losing a parent, he lost his housing and fell into homelessness.

Eventually, an outreach team with Exodus Recovery contracted through the Los Angeles County Department of Health Services (DHS) met Paul and began working with him to develop a housing plan. With support from multiple case managers at Exodus, Paul moved into safe interim housing managed by JWCH, where he started working with a housing navigator to continue his journey to a permanent home. He also began accessing substance use disorder treatment, counseling, and other supportive services through Exodus.

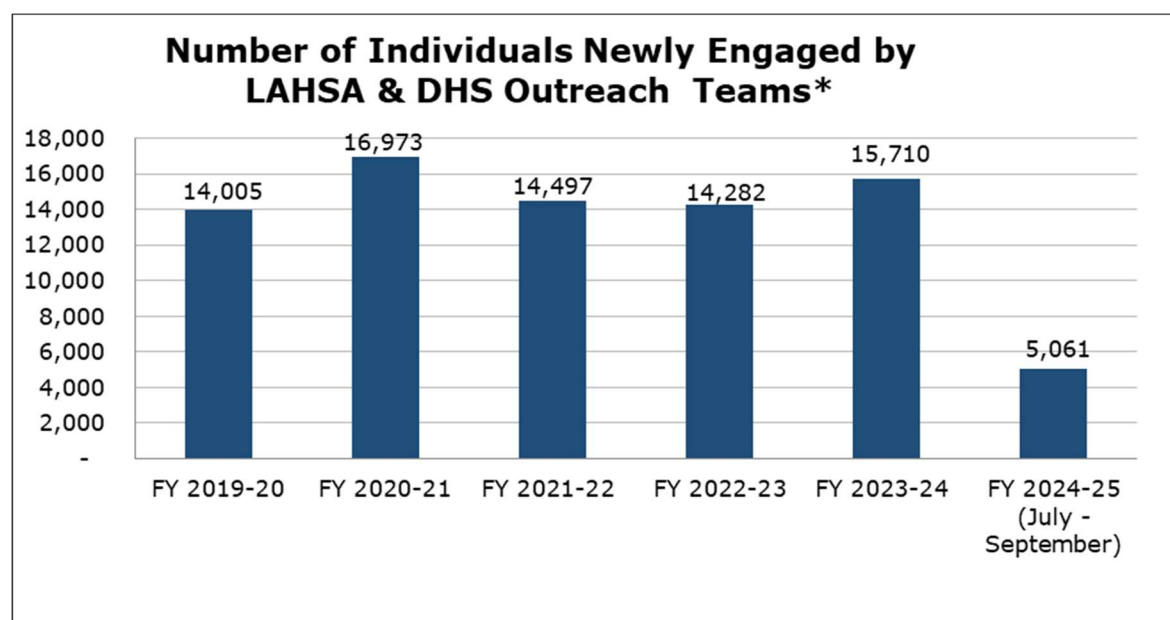

Paul was recently matched with an available permanent apartment through SRO Housing Corporation and is working with his housing navigator and case management team at Exodus to begin the move-in process. He is looking forward to pursuing more physical activity and furthering his passion for the arts once he moves in.

Street-Based Outreach involves experienced teams building trusting relationships with people experiencing unsheltered homelessness and connecting them to housing and supportive services, such as health and mental health care and substance use disorder treatment. This process varies in length and is customized to meet individuals' unique needs.

The County deploys different teams to conduct street-based outreach, including DHS-HFH's Multidisciplinary Teams (MDT), which serve clients with more complex health and/or behavioral health needs, and DMH Homeless Outreach and Mobile Engagement specialist teams that serve clients with serious mental illness.

LAHSA's CES teams and Homeless Engagement Teams (HET) make initial contact and maintain ongoing engagement with people experiencing unsheltered homelessness, while LASD and LAHSA's Homeless Outreach Services Teams conduct outreach at larger encampments and hard-to-reach areas.

*Number of new engagements beginning FY 2021-22 through FY 2023-24 are trending lower than FY 2020-21 due to outreach staff returning to their standard activities, with a renewed focus on document readiness, and no longer widely conducting emergency COVID-19 response.

Highlights

- **Outreach:** Measure H-funded outreach teams, including DHS-administered MDTs and LAHSA's HET team continue to proactively serve people experiencing unsheltered homelessness throughout the County. These teams play a crucial role in engaging, assessing, and connecting people experiencing unsheltered homelessness to appropriate housing interventions, often addressing a wide variety of housing barriers and providing immediate supports. In addition to addressing their urgent daily needs, Measure H-funded outreach teams quickly move unsheltered participants into interim housing and provide linkages to permanent housing.

During this reporting period, Measure H-funded outreach teams successfully moved **964** unsheltered individuals into **interim housing**, connected **160** people to a **permanent housing resource**, and directly placed **173** people into **permanent housing**.

- **DPH Mobile Vaccine and Testing Team:** The DPH Mobile Vaccine and Testing Team (MVT) provides COVID-19 and other selected vaccines for conditions that are most likely to impact people experiencing unsheltered homelessness. All vaccines are free, and no questions are asked regarding immigration or healthcare enrollment status.

Launched in 2021 when COVID-19 vaccines became available, MVT services have since expanded to include:

- additional vaccines such as flu, Monkey pox, Measles Mumps and Rubella, and others;
- testing services for communicable diseases including COVID-19, tuberculosis, hepatitis, and sexually transmitted infections; and
- harm reduction services, including the distribution of Narcan and fentanyl test strips.

During this reporting period, the DPH MVT team provided services to **2,392** people experiencing homelessness. The team distributed **1,634** units of Narcan, **923** fentanyl test strips, and administered **4,000** vaccinations throughout **311** events at shelters, encampments, service hubs, and other locations. Additionally, the team facilitated **57** testing events, screened **240** clients for sexually transmitted infections, HIV, tuberculosis, and/or Hepatitis B and C.

LUIS

Lead County Dept: DMH | **Agency:** Christ-Centered Ministries/Metro Outreach

When Luis, 37, lost his wife suddenly, he began using substances to cope with his grief. From there, he lost his job, his home, and, tragically, custody of his son. Luis soon found himself homeless and seeking shelter along the Metro rail line.

James, a Metro outreach specialist and substance use disorder counselor, connected with Luis on a Metro train. James began establishing a rapport with Luis, first offering him water and snacks, and later engaging him in substance use disorder counseling services. With support from James, Luis completed a detox program at Tarzana Treatment Center followed by a 90-day residential treatment program. He then moved into a sober living center, where he continues to receive outpatient services.

Luis's sobriety has enabled him to reclaim his life. He has a job at Little Caesar's Pizza and is going to school to achieve his goal of becoming a firefighter. He has reconnected with his family and visits his parents on the weekend. Best of all, his son is back in his life.

"I was in a bad place [when] James and the Metro Outreach team gave me my life back. I am forever grateful for their help. When I was finally ready to give rehab a try, they came and picked me up from El Monte and took me to Tarzana! Who does that?"

[Interim Housing](#) provides safe, temporary housing for people transitioning out of homelessness. Types of interim housing include emergency shelter, stabilization housing for individuals with complex health and or/behavioral health conditions, bridge housing for people exiting institutions such as jails or hospitals, and recovery bridge housing for people undergoing outpatient treatment for substance use disorder.

The County also provides recuperative care facilities for people recovering from an acute illness or injury. Additionally, Enriched Residential Care facilities, also known as Board and Care, provide 24/7 care and supervision in licensed residential facilities that are either interim or permanent housing.

Systemwide, **165,008** people experiencing homelessness have used interim housing since Measure H funding began in July 2017. Of those people, **87,405** lived in interim housing completely or partially funded by Measure H. During this reporting period, **12,836** people used interim housing. Of those people, **5,834** lived in interim housing completely or partially funded by Measure H.

Highlights

- **DHS Interim Housing:** The DHS-HFH Interim Housing program offers shelter and supportive services to people with medically vulnerable and complex diagnoses as they work toward securing permanent housing. During this reporting period, **1,797** clients were served, with **681** new enrollments and **197** clients transitioning to permanent housing, accounting for **36%** of exits from homelessness. The program has continued to successfully match interim housing participants to permanent supportive housing (PSH) resources due to recent changes in matching criteria. These changes enable the program to identify “match-ready” interim housing participants, who are then connected to project-based PSH resources within the same geographic area.

JOHN & TASHA

Lead County Dept: DHS | **Agency:** Hope the Mission

John's (35) and Tasha's (38) journey into homelessness began when they sought treatment for substance use disorder through a rehabilitation program. After successfully completing the program, they felt hopeful about their future together. However, with limited job prospects and no support network of friends or family in the area to lean on, they found themselves on the streets.

Eventually, a Hope the Mission outreach team contracted through the DHS connected with John and Tasha began putting a plan in place to move them safely off the streets. Alicia and Armando, a peer specialist and case manager at Hope the Mission, prioritized establishing trust with John and Tasha, listening to their concerns as they identified an interim housing option that best met their needs. With ongoing support from Alicia and Armando, John and Tasha moved into immediately available emergency shelter while they worked together to find a longer-term option. Eventually, they moved into interim housing at Valley Haven, where they are currently receiving case management and housing navigation support to continue their journey to permanent housing.

- **LAHSA Interim Housing:** LAHSA continues to support service providers throughout the Continuum of Care in strengthening their capacity to expedite documentation, complete Vulnerability Index – Service Prioritization Decision Assistance Tool or VI-SPDAT assessments and finalize Universal Housing Applications. This has helped clients connect more quickly to Housing Navigation services and improved their likelihood of securing permanent housing. During the reporting period, **11,553** clients were served, with **3,152** new enrollments and **1,135** clients transitioning to permanent housing, representing **31%** of exits from homelessness.

*LAHSA Interim Housing programs aim to provide temporary housing solutions to individuals experiencing homelessness in Los Angeles County, including, but not limited to, A Bridge Home, Bridge Housing, County Pathway Home, Crisis Housing, Enhanced Bridge Housing for Older Adults, Enhanced Bridge Housing for Women, Project Homekey, Roadmap Interim Housing, Safe Parking, and Tiny Home Village.

HOUSE (PERMANENT HOUSING)

[Permanent Housing](#) strategies lift people out of homelessness by offering short- or long-term rental subsidies in combination with varied levels of supportive services. PSH, for example, provides long-term rental subsidies and supportive services to individuals who have experienced chronic homelessness and have disabilities, chronic medical conditions, and/or behavioral health conditions. Since July 1, 2017, the County has placed **125,056** people in permanent housing, with **46,309** of the placements completely or partially funded by Measure H funding.

During this reporting **period, 7,917** people were placed in permanent housing throughout the County, including **2,532** placements completely or partially funded by Measure H.

*There may be duplication between clients who obtained housing with support from the Landlord Incentive Program and clients who were housed in PSH because the first program is used to incentivize landlords to accept PSH vouchers.

Highlights

- **LAHSA Shallow Subsidy Program:** During this reporting period, **444** households were actively enrolled in the program out of the 900 contracted slots. While this represents a significant reduction in participants from the previous quarter, analysis reveals that most exits from the program were positive. Of the 63 participants who exited, 39 resolved their homelessness independently and no longer required a rental subsidy; nine secured permanent housing with another ongoing subsidy, primarily through PSH; and seven were reunified with family members. Unfortunately, the remaining eight participants either returned to a shelter, did not complete an exit report, or passed away. Given the large number of exits during this reporting period, the TLS team will continue to make referrals to the Shallow Subsidy program to ensure participants have the opportunity for extended subsidies.

- **DHS-HFH Permanent Supportive Housing:** During this reporting period, the DHS-HFH PSH programs served **16,359** individuals, with **1,698** new enrollments and **1,562** individuals receiving housing subsidies. Additionally, an additional **729** participants successfully leased up in PSH. DHS-HFH continues to support all participants to obtain housing more rapidly by enhancing document readiness. DHS-HFH PSH programs also continued to collaborate with the City and County Housing Authorities (HACLA and LACDA) to use the federal Department of Housing and Urban Development waivers. These waivers have expedited the lease-up process for tenant-based and project-based PSH opportunities by ensuring missing documents do not create additional barriers for clients.

STABILIZE

Most families and individuals experiencing homelessness benefit from some level of case management and [supportive services](#) to secure and maintain permanent housing, though their needs vary depending on individual circumstances.

Through these stabilizing services, appropriate case management and supportive services enable families and individuals transitioning out of homelessness to use rental subsidies, increase their income, and access public services and benefits. Additionally, individuals experiencing homelessness who live with a severe disability can increase their income through federal disability benefits or by securing employment.

Highlights

- **PD:** While PD previously engaged individuals at encampments, SB731's expansion of expungement access has led to a more effective strategy to connecting unhoused individuals with services through community-based resource fairs. This new approach has yielded impressive results, with successful partnerships with the LA County Public Library, the office of City Mayor Karen Bass, the office of City Council Member Tim McKosker, and

DMH, to name a few. These collaborations have expanded PD's reach to serve more clients than ever before. During this quarter, PD filed 939 petitions for dismissal or reduction of sentences with 887 granted through the Criminal Record Clearing project, achieving a 94% dismissal rate.

Looking ahead, PD hopes to partner with the County Superior Court and prosecutorial agencies to streamline and digitize the expungement process, reducing the time needed to secure legal victories and creating a faster path to a better future for our unhoused neighbors.

*Data for unsubsidized employment is generated based on base wage data reported to the California Employment Development Department and is updated as it becomes available. Note the decline in numbers between FY 2022-23 to FY 2023-24 is due to the loss of key staff, which affected referrals and participant engagement. High dropout rates before program completion also compounded this decline. All these issues are being addressed and monitored closely by DEO.

- DEO:** DEO is the County's central economic and workforce development hub helping residents connect to new career pathways, start and certify a business, and access life-changing opportunities. The collaboration between DEO and the Roberts Enterprise Development Fund (REDF) has continued to successfully provide technical support to partner agencies. Through in-person site visits and virtual check-in meetings, all of America's Job Centers of California (AJCCs) and Social Enterprises (SEs) involved in targeted prevention, coordinated outreach, essential employment and income support strategies have been engaged. DEO and REDF assisted with addressing any questions, concerns, and issues related to internal procedures, best practices, and other technical matters. DEO ensures all partners clearly communicated their FY 2024-25 goals and strategies to meet participant enrollment targets.

During this reporting period, REDF continued to work on a new solution to enhance technical assistance for LA:RISE partners, recognizing that basic and standardized training does not fully meet the diverse needs of all partners. The proposed training module will feature a tiered approach, with training customized to specific staff roles and operational needs. It will include three levels of support: Introductory, Intermediate, and Advanced. The Introductory Support Training will provide consistent onboarding throughout the program year for new staff. Intermediate Support Training will assist program managers in mapping out touchpoints between SE and AJCC partnerships, clarifying roles and responsibilities. Advanced Support Training will help program directors identify additional government funding opportunities. The goal is to enable providers to receive technical assistance across all three tracks simultaneously, rather than limiting them to just one level of support at a time. REDF plans to launch this new training plan in January 2025.

SHANIAH

Lead County Dept: DEO – LA:RISE | **Agency:** Goodwill Social Enterprise

After several years of unemployment, Shaniah, 28, knew she needed support to regain her financial footing. She worried that her criminal background would make it impossible for her to find meaningful employment and had grown discouraged by her seemingly endless job hunt.

Shaniah was referred to Goodwill Social Enterprise, where she enrolled in the LA:RISE program (Los Angeles Regional Initiative for Social Enterprise), a partnership venture between the County and City of Los Angeles, funded by the Department of Economic Opportunity (DEO), that provides training and social enterprises with the goal of job placement. The LA:RISE Life Skills Academy was life-changing for Shaniah. In addition to receiving comprehensive job skills training, she connected with staff members who had similar life experiences to hers, renewing her sense of hope and reminding her that she already possessed the skills she needed to achieve success. She began working in transitional employment while receiving ongoing case management. LA:RISE also provided her with childcare so she could continue her education.

Today, Shaniah has established financial independence and saved enough money to purchase a car and rent an apartment for her and her family. She feels empowered and proud of what she has achieved, and she is excited to continue working toward her career goal of becoming a social worker.

“Don’t give up on yourself, because you never know who you can become.”

Notes:

- Countywide Outreach System data is categorized by the Service Planning Area (SPA) in which participants were served. The data includes information from the Department of Health Services' Multidisciplinary Teams (MDTs) and the Los Angeles Homeless Services Authority (LAHSA) Homeless Engagement Teams (HET). Because participants may be enrolled in multiple programs across different outreach teams, the total number per SPA does not equal the sum of all teams combined. The metrics for services/referrals, crisis housing, and permanent housing include individuals engaged during the reporting period, including those who may have been first engaged in a previous period. As a result, the total number of individuals who received services/referrals exceeds the total number of individuals newly engaged.

*Due to the transition to U.S. Department of Housing and Urban Development Homeless Management Information System Data Standards regarding demographic data, most departments have adopted alignment with race/ethnicity and gender standards allowing "multi-selection." These selections now count clients in every category that applies, subsequently leading to the removal of the multiracial category. Previously consolidated fields, "Client doesn't know," "Client prefers not to answer" and "Data not collected" will now be listed.

Note: "Number Served" refers to all participants served during the reporting period, some of whom were enrolled prior to the reporting period.

Note: This report includes data for families and individuals in homeless prevention programs for the following metrics: newly enrolled, number served, exits to permanent housing, and housing retention at six months. For Problem Solving programs, only clients who achieved a permanent housing outcome are reported. While additional metrics may be collected, they are not reflected in this report.
