CHIEF EXECUTIVE OFFICER

Fesia A. Davenport

September 16, 2025

To: Supervisor Kathryn Barger, Chair
Supervisor Hilda L. Solis
Supervisor Holly J. Mitchell
Supervisor Lindsey P. Horvath
Supervisor Janice Hahn

From: Fesia A. Davenport 
Chief Executive Officer

HOMELESS INITIATIVE QUARTERLY REPORT NO. 32 (ITEM NO. 47-A, AGENDA OF FEBRUARY 9, 2016)

On February 9, 2016, the Board of Supervisors (Board) approved the Los Angeles County (County) Homeless Initiative (HI) recommendations, which included 47 strategies to combat homelessness, and instructed the Chief Executive Office (CEO) to report back to the Board on a quarterly basis regarding their implementation. On December 6, 2016, the Board approved four new strategies as part of the Measure H Ordinance, and they are also included in the CEO's Quarterly Report (QR). In April 2022, the Board approved the HI's New Framework to End Homelessness (New Framework). The QR began reflecting the New Framework beginning in QR 25.

Attached is HI's 32nd QR, which includes data for the second quarter of Fiscal Year (FY) 2024-2025, as well as cumulative data from the beginning of Measure H implementation in July 2017. As noted in QR 31, the data presented in the attached report reflects quarterly totals rather than cumulative totals, consistent with our efforts to improve and refine data quality.

This QR continues to align with HI's New Framework, which was approved by the Board in April 2022. The updates in the report are organized around the Framework's five pillars: Coordinate, Prevent, Connect, House, and Stabilize. The report also outlines key developments that took place during the QR reporting period, including the passage of Measure A, ongoing partnerships with local jurisdictions in addressing unsheltered homelessness through Pathway Home,

continued progress on resolving encampments in Skid Row, and the County's partnership with the City of Los Angeles in addressing unsheltered homelessness. The QR also provides updates on the outcomes of current HI programs, including prevention, outreach, interim housing, permanent housing, and supportive and stabilizing services. The report highlights the ongoing work of County departments, agencies, and community-based organizations to implement the New Framework, including compelling narratives that highlight the transformative impact of HI- funded programs.

Key Outcomes in the Quarterly Report

For most strategies, outcomes in the second quarter have either remained stable or improved. In instances where outcomes declined, the report explains the underlying causes. The Time-Limited Subsidy (TLS) program, managed by the Los Angeles Homeless Services Authority (LAHSA), saw improvements this quarter across all reported metrics. Compared to last quarter, the percentage of participants who secured permanent housing with a TLS and managed to remain housed upon exit from the TLS program increased from 85 percent to 89 percent in this quarter. Through the County's increased investments in permanent supportive housing, and in partnership with the Department of Health Services – Housing for Health, the number of participants newly enrolled and linked to Intensive Case Management Services grew from 1,698 in the first quarter to 1,860 in the second.

The next QR will highlight recent updates on HI's annual funding recommendation process and community engagement for FY 2025-2026, progress in year two of the Emergency Declaration on Homelessness, how the Emergency Centralized Response Center was put to use to evacuate hundreds of people experiencing homelessness who were in shelters in response to the Pacific Palisades and Altadena fires, and more.

Additional key outcomes include:

From October 2024 – December 2024:

- 126 families and 182 individuals in LAHSA's prevention programs were prevented from becoming homeless.
- 4,876 individuals were newly engaged by outreach teams.
- 8,470 individuals and family members were active in LAHSA's interim housing program, and 242 individuals were active in LAHSA's interim housing program for people exiting institutions.

Los Angeles County **HOMELESS INITIATIVE**

Quarterly Report #32

The [Homeless Initiative](#) (HI) is the central coordinating body for Los Angeles County's (County) ongoing effort to expand and enhance services for people experiencing homelessness or at risk of losing their homes.

Created by the Board of Supervisors (Board) in August 2015, HI is part of the County's Chief Executive Office. HI directs, oversees, and evaluates strategies to end and prevent homelessness, in addition to administering Measure H and other funding.

[Measure H](#) is the landmark ¼- cent sales tax approved by County voters in March 2017, creating a 10-year revenue stream that began in July 2017 and was set to expire in September 2027.

As of April 1, Measure H will be repealed and replaced by [Measure A](#), a ½- cent sales tax.

For more information, see Additional Developments (page 9) and visit our [website](#).

HI is leading the County's response to the [Los Angeles County Proclamation of a Local Emergency for Homelessness](#) approved by the Board on January 10, 2023, which focused initially on three missions:

- **Encampment Resolution** – reduce unsheltered homelessness in partnership with cities and Councils of Government (COGs)
- **Housing** – increase interim and permanent housing placements
- **Mental Health and Substance Use Disorder Services** – provided to sheltered and unsheltered people at the level required to meet their needs

In October 2023, the Board added **Eviction Prevention** as a fourth mission, with a goal to reduce inflow into homelessness by helping at-risk households remain housed.

HI's [New Framework to End Homelessness](#), approved by the Board in April 2022, laid out key roles for three partners, each taking action to **Coordinate**, **Prevent**, **Connect**, **House**, and **Stabilize** people experiencing or at risk of homelessness.

- **Mainstream Government Systems** identify and prioritize the most at-risk households for prevention services to reduce the inflow into homelessness and ensure there is "no wrong door" for people seeking help.
- **Homeless Rehousing System** prioritizes housing the "persistently underserved" – those with the most complex challenges who require ongoing, resource-heavy intervention.
- **Local Jurisdictions** collaborate and creatively co-invest with the County to develop more permanent housing and decommission encampments while providing pathways to housing and services.

Ending homelessness in the County requires an all-hands-on-deck approach. HI works with several departments and agencies serving County residents. These include, but are not limited to:

- [Los Angeles County](#)
 - [Aging and Disabilities \(AD\)](#)
 - [Children and Family Services \(DCFS\)](#)
 - [Economic Opportunity \(DEO\)](#)
 - [Health Services \(DHS\)](#)
 - [Mental Health \(DMH\)](#)
 - [Public Health \(DPH\)](#)
 - [Public Social Services \(DPSS\)](#)
 - [Sheriff's Department \(LASD\)](#)
 - [Probation](#)
 - [Public Defender \(PD\)](#)
- [Los Angeles County Development Authority \(LACDA\)](#)
- [Los Angeles Homeless Services Authority \(LAHSA\)](#)

HI allocates Measure H revenue and other funding to enable County departments and agencies to contract with over 200 community-based [nonprofits](#) to provide:

- [homeless prevention](#) for individuals and families at imminent risk of homelessness who are exiting institutions such as foster care, hospitals, and the criminal justice system;
- [outreach](#) to build relationships with people living outdoors or in vehicles and connect them to housing and services;
- [interim housing](#), which offers temporary accommodations, such as emergency shelters, recuperative care facilities, and more;
- [permanent housing](#) secured through short- or long-term rental subsidies accompanied by supportive services; and
- [supportive services](#), which can include case management and connections to physical and/or mental healthcare, substance use disorder treatment, criminal record clearing, employment support, and more.

HI also maintains key partnerships with cities and COGs, supplementing their funding with Measure H and additional revenue sources, as well as providing technical assistance and other resources. Some of the County's recent and upcoming investments in local governments include the Local Solutions Fund, Cities and COGs Interim Housing Solutions Fund ([CCOGIHS](#)), and [Project Homekey](#). HI also supports COGs in facilitating regional coordination and innovation among their member city governments.

Exhibits

- Exhibit 1: Homeless Initiative Performance Data by Pillar
- Exhibit 2: Select Strategy Performance Data by Service Planning Area
- Exhibit 3A: Demographic Enrollment/Service Data for Select Pillars/Programs
- Exhibit 3B: Visualization of Demographic Service Data for Select Pillars/Programs

This **32nd Quarterly Report** reflects continued progress made during the State of Emergency on Homelessness, as well as updates from ongoing efforts to implement the HI's New Framework to End Homelessness, with a particular focus on the homeless rehousing system.

The dashboard below highlights data beginning **July 1, 2017, through December 31, 2024**, capturing seven years and two months of progress since Measure H funding first became available. During this time frame, the County has implemented strategies on homeless prevention, outreach, interim housing, permanent housing, and supportive services.

Period Covered: July 1, 2017 – December 31, 2024 (90 months total)

131,294 people were placed in permanent housing.

48,840 of permanent housing placements (**37.2%**) were completely or partially funded through **Measure H**.

171,010 people were placed in interim housing.

90,064 of interim housing placements (**52.7%**) were completely or partially funded through **Measure H**.

45,679 people were prevented from becoming homeless.

11,991 of people prevented from becoming homeless (**26.3%**) were completely or partially funded through **Measure H**.

This report also tracks progress from the second quarter of FY 2024-25 (**October 1, 2024, through December 31, 2024**), also referred to as the “reporting period.”

During this reporting period, the homeless rehousing system moved **8,798** people into permanent housing, provided interim housing to **11,063** people, and prevented **2,984** people from becoming homeless. Of these individuals, **2,919** people were moved into permanent housing, **3,901** were moved into interim housing, and **774** people were prevented from becoming homeless through Measure H-funded programs.

STATE OF EMERGENCY

On January 10, 2023, the Board unanimously declared a State of Emergency on homelessness. The County’s local emergency declaration provided HI and other County departments with increased authority to expedite and streamline the creation of housing, expand services, more effectively and efficiently use funds, and facilitate other administrative processes enabling the County to respond more nimbly to homelessness.

As part of the emergency declaration, the Board tasked HI to lead new collaboration between County departments, elected officials, local jurisdictions, service providers, and people who have experienced homelessness to address this issue that affects all County residents. Together, we have a shared plan and focus: we’re tightening our region’s social safety net, increasing efforts to prevent homelessness, and scaling up bold new solutions to end it.

Several initiatives within this shared plan were noted in Quarterly Report 31, and updates on these efforts are provided below.

Emergency Centralized Response Center (ECRC)

Established through a motion adopted by the Board in September 2024, ECRC was created as a central coordinating entity that assists in **overseeing the dispatch of more than 150 outreach teams** supporting individuals experiencing unsheltered homelessness across the County.

In October 2024, HI, LAHSA, and key County departments including DMH, DHS, and DPH participated in planning workshops to help shape ECRC’s design and functionality. In December 2024, local jurisdictions were invited to participate by sending a representative to the workshops and/or sharing other ways they’d like to

be involved. ECRC officially launched in December 2024, less than three months after the Board’s motion was adopted.

ECRC is designed specifically for elected officials, jurisdictions, governmental agencies, and outreach teams. Some of its functions include:

- Establishing a site with staff from HI, DMH, DHS, DPH, LAHSA, and others;
- Providing real-time updates on interim housing and other resource availability for unsheltered individuals; and
- Supporting the County Office of Emergency Management in coordinating life-saving responses during emergencies or inclement weather for people experiencing unsheltered homelessness.

Los Angeles County Encampment Resolution – Pathway Home

Resolving encampments — outdoor locations where people live unsheltered on the streets — is a critical component of the County’s comprehensive response to the local emergency on homelessness.

Pathway Home, the County’s signature encampment resolution program that was launched in August 2023, is a full-circle solution designed to promote system flow by bringing people off the streets and into immediately available interim housing

accompanied by a comprehensive suite of supportive services and, ultimately, into safe, permanent homes. The program also removes unsafe recreational vehicles (RVs) and other debris from community spaces, whether freeway underpasses or side streets, returning them to their intended uses.

During this reporting period (second quarter of FY 2024-25), HI partnered with local jurisdictions, County departments, service providers, and LAHSA to execute **nine Pathway Home encampment resolution operations**, including three separate operations in Palmdale and one operation in Long Beach. These operations brought **259 people** off the streets and into safe interim housing, where they began receiving supportive services and other resources to put them on a path to permanent housing. The operations also removed **38** dilapidated RVs being used as makeshift dwellings from community streets. As of December 2024, a cumulative

total of **1,072** unsheltered individuals have been moved into interim housing through Pathway Home.

In July 2023, the County began providing **Pathway Home Service Connection Events** at interim housing sites for both Pathway Home and Inside Safe, the City of Los Angeles's (City) Encampment Resolution program. Service Connection Events are County organized "one-stop-shops" for people transitioning out of homelessness. The County mobilizes government and nonprofit partners to activate a day of local, State, and federal resource navigation, providing Pathway Home and Inside Safe program participants access to a comprehensive suite of supportive services. Service Connection Events usually take place at the motel-based interim housing sites a few weeks after move-in day.

Six Service Connection Events took place during the second quarter of FY 2024-25, connecting approximately **320 Inside Safe and Pathway Home participants** with County services and resources. These include health, mental health, and substance use disorder services; DPSS resources including Medi-Cal, CalFresh, and General Relief resources for veterans and immigrants; and more.

Support for the City of Los Angeles Homeless Emergency Declaration

HI and County departments including DHS, DMH, DPH, DPSS, and LACDA support the City's State of Emergency on homelessness by aligning County-operated and contracted resources (i.e., outreach teams, interim and permanent housing resources, and County department services) to support City-led Inside Safe operations. The County has played a key role in all Inside Safe operations to date.

Twelve Inside Safe

encampment resolutions took place during the second quarter of FY 2024-25, bringing an estimated **168** people inside.

Measure A Approved

On November 6, 2024, County voters approved **Measure A**, a ½ cent countywide sales tax which will allow the region to continue progress on ending homelessness with housing and services, while greatly expanding efforts to address the drivers of homelessness through affordable housing construction, homelessness prevention, and support for vulnerable renters.

Generating over \$1 billion annually, Measure A funding will be shared by the County, cities and COGs, LACDA, and the Los Angeles County Affordable Housing Solutions Agency (LACAHS).

Measure A requires that **goals be established every five years**, with regular oversight and reporting, on the following outcomes:

- Increase the number of people moving from encampments into permanent housing to reduce unsheltered homelessness
- Reduce the number of people with mental illness and/or substance use disorder who experience homelessness
- Increase the number of people permanently leaving homelessness
- Prevent people from falling into homelessness
- Increase the number of affordable housing units in the County

The measure went into effect April 1, 2025.

Motel Owner Partnerships

The County is partnering with motel owners to bring more people indoors through safe, accessible interim housing, particularly through the Pathway Home program. During this quarter, we expanded our efforts to recruit motel owners through a [dedicated webpage](#) on the HI website, garnered testimony from current owners, and created presentations for business owners to highlight the benefits of partnering with the County.

Motel owners receive competitive market room rates, payment for full occupancy, on-site 24/7 security, coverage for property damage, and coverage for required Transient Occupancy Taxes. To date, Pathway Home has partnered with **18 motel owners** in neighborhoods including San Gabriel Valley, Santa Monica, Antelope Valley, and Long Beach, housing a total of **1,072 previously unsheltered individuals** who are now on a path to a permanent home.

COORDINATE

The County's Coordinated Entry System (CES), managed by LAHSA, is the network that aligns homeless services to ensure resources are efficiently and equitably distributed countywide to support people experiencing homelessness. CES serves as the organizational backbone of the homeless response system, enabling service providers to connect people experiencing homelessness to solutions as quickly as possible.

Highlights

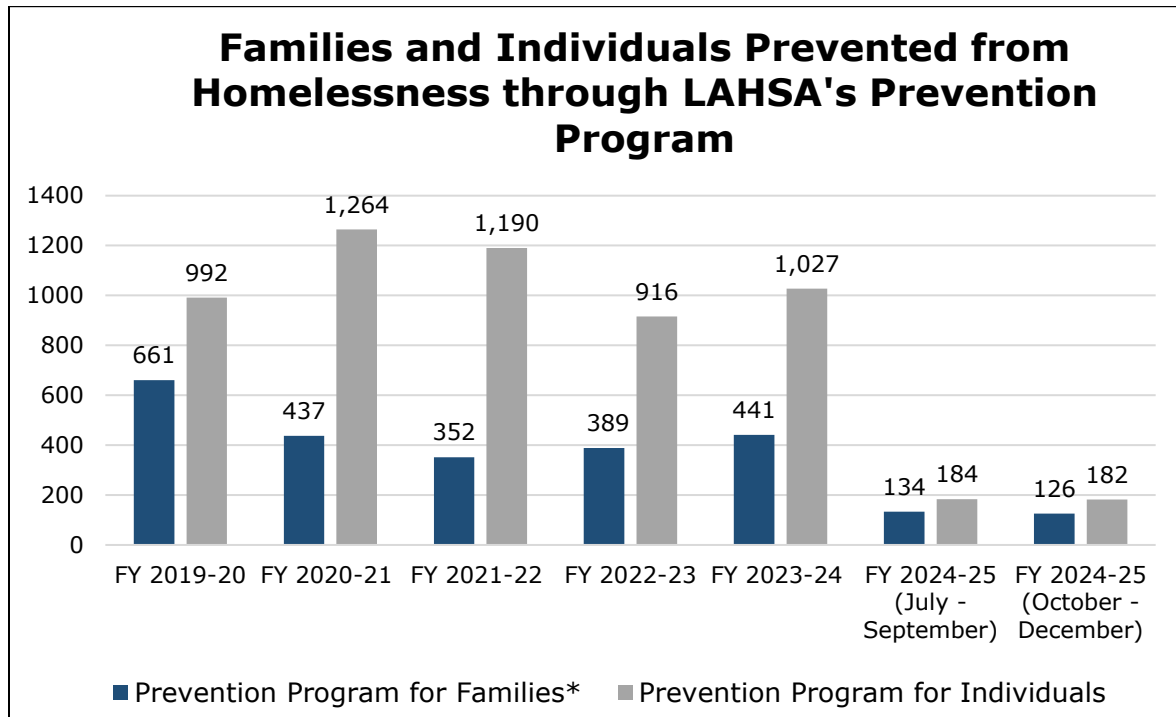

- **LAHSA Centralized Training Academy (CTA):** During this quarter, the CTA had **20,891 training registrations** representing staff from 161 LAHSA-contracted agencies. A total of **113 training topics** were available for homeless service provider staff to support professional development across the homeless services sector.
- In December 2024, CTA partnered with LAHSA's Equity Department and several provider agencies to deliver a virtual **Engaging Latina/o/e/x Communities in Street Outreach** training. A recording of this training was also made available on CTA's online platform.
- LAHSA also aims to launch a three-module eLearning course on American Indian/Alaskan Native Equity Building in February 2025. Additional projects under development include Role-Specific Learning Paths focused on interim housing case managers, housing navigators, and Time-Limited Subsidy (TLS) staff (target launch of July 2025), and onboarding

programs for interim housing managers and frontline staff (target launch of May 2025 and July 2025, respectively).

PREVENT

Homeless Prevention services support rent-burdened, low-income families, and individuals in resolving crises that could cause the loss of their home. Homeless prevention services include short-term rental subsidies; housing conflict resolution; mediation with landlords and/or property managers; legal defense against eviction; and problem-solving.

Problem-Solving is a person-centered, short-term housing intervention that assists households in maintaining their current housing or identifying an immediate and safe housing alternative within their own social network. This strategy uses exploratory conversation, mediation, empowerment methods, and financial assistance to resolve the household’s crises or quickly connect them to existing emergency housing services.

*This metric reflects the number of households enrolled in the program, rather than the total number of individuals in each household

Highlights

- **LAHSA Prevention:** During the reporting period, LAHSA coordinators partnered with Public Counsel to provide a comprehensive prevention training for all contracted service providers, focusing on valuable resources for immigrant communities. To further strengthen support, coordinators have been visiting providers across all Service Planning Areas (SPAs), conducting monthly check-ins to offer real-time assistance to case managers accessing prevention resources. These visits create opportunities for hands-on support, troubleshooting challenges, and engaging in collaborative case discussions. By being on-site, LAHSA coordinators gain a deeper understanding of the obstacles providers face and work alongside teams to enhance service delivery. Lastly, coordinators continue to hold monthly office hour sessions for providers to have space to ask questions, share concerns, provide resources, and collaborate with one another. Despite challenges such as staffing shortages and high rental arrears, **99% of families** and **98% of individuals** enrolled in LAHSA’s prevention program avoided homelessness during this reporting period.

*This metric reflects the number of households enrolled in the program, rather than the total number of individuals in each household.

- **LAHSA Problem-Solving:** During the second quarter of FY 2024-25, LAHSA continued to expand the implementation of the Problem-Solving intervention model by providing targeted training to staff from key partner agencies, including DMH, the Los Angeles Unified School District, state universities, city council offices, and organizations serving indigenous communities such as the American Indian Counseling Center and Pukuu Cultural Community Services. Once trained, staff were granted access to LAHSA’s centralized Problem-Solving Assistance Funds to equip them with the tools to identify immediate, creative housing solutions for households in crisis and reduce inflow into CES.

As of November 2024, the Problem-Solving model has been formally implemented across the Los Angeles Continuum of Care for five years. In recognition of this milestone, the LAHSA Problem-Solving Unit hosted a convening featuring a panel of case managers who presented successful strategies and outcomes achieved through the intervention.

During this reporting period, **330 individuals and 179 families** who engaged in at least one problem-solving conversation moved into a permanent home.

CECILIA

Lead County Dept: DCFS | **Agency:** All for Kids | **Pillar:** Prevent

When Cecilia, 50, came to All for Kids (AFK) for help, her family was facing imminent eviction. Her landlord had been ignoring a hazardous home infestation for months and Cecilia did not want to pay rent until the issue was resolved.

AFK stepped in with several months of rental assistance and helped Cecilia make a housing plan. She needed to find a home her family could afford, and most importantly, where her children felt safe. Unfortunately, there were setbacks: during their housing search, the family was scammed into sending money in exchange for viewing a home. AFK’s family support counselor quickly connected them with a landlord who had previously housed another family. Everything went smoothly and Cecilia’s family was able to move into a new home very soon after. Today the family is relieved to live without the constant worry about their health and safety. Cecilia and her children feel blessed to be in a calm space they can call their own.

Street-Based Outreach involves experienced teams building trusting relationships with people experiencing unsheltered homelessness and connecting them to housing and supportive services, such as health and mental health care and substance use disorder treatment. This process varies in length and is customized to meet individuals’ unique needs.

The County deploys different teams to conduct street-based outreach, including DHS-HFH’s Multidisciplinary Teams, which serve clients with more complex health and/or behavioral health needs, and DMH’s Homeless Outreach and Mobile Engagement specialist teams that serve clients with serious mental illness.

LAHSA’s CES teams and Homeless Engagement Teams make initial contact and maintain ongoing engagement with people experiencing unsheltered homelessness, while LASD and LAHSA’s Homeless Outreach Services Teams conduct outreach at larger encampments and hard-to-reach areas.

Highlights

- **Outreach:** As the homeless services delivery system continues to evolve, the Coordinated Outreach System plays a critical role in aligning messaging, training, and operational support to ensure outreach teams remain effective in connecting individuals to housing and supportive services. Leadership from DHS, DMH, and LAHSA meet twice weekly to coordinate on emerging priorities, strategies, and resource developments. This cross-agency

leadership team co-facilitates monthly Countywide Outreach Learning Collaboratives and hosts biannual, multi-day Outreach Bootcamps for new outreach staff. These initiatives promote consistent communication of best practices, updated resource information, and alignment on systemwide outreach priorities.

Topics covered during this reporting period included: training on the new outreach referral process for TLS; an overview of upcoming Measure A language and requirements; a recap of the September Outreach Bootcamp; a Winter Shelter program presentation; a training on the Hepatitis A outbreak and available health resources; a demonstration of the new HMIS Encampment Module; and a briefing on the County's new ECRC program.

During this reporting period, Measure H-funded outreach teams successfully moved **1,050** unsheltered individuals into **interim housing**, connected **169** people to a **permanent housing resource**, and directly placed **163** people into **permanent housing**.

- **LAHSA Housing Navigation:** The LAHSA Housing Navigation Adult Programs continue to foster cross-SPA collaboration and system-wide coordination through monthly SPA-Wide Implementation Meetings. This effort has resulted in some notable trends this quarter, including a rising number of participants successfully securing housing and being referred to TLS for rental assistance and case management. There has also been an increase in staffing among housing navigation providers, which has significantly improved their capacity to support referrals from interim housing.

Additionally, the LAHSA Housing Navigation Adult Programs continue to play a key role in supporting encampment resolution initiatives, including Inside Safe and Pathway Home, with the support of federal grant funding (CoC Supplemental to Address Unsheltered and Rural Homelessness Special Notice of Funding Opportunity). To enhance system-wide efficiency, additional one-on-one training is being provided to new providers involved in these efforts. These programs focus on prioritizing document-ready participants by offering critical services such as unit searches, transportation, application fee coverage, and other essential support. Current efforts include:

- **Inside Safe:** 12 Housing Navigation providers are dedicated to supporting the Inside Safe initiative.
- **Pathway Home:** 25 Housing Navigation contracts are actively supporting the Pathway Home program.

Lead County Dept: LAHSA/DHS | **Agency:** PATH | **Pillar:** Connect

At the onset of the pandemic, Krystal, 41, experienced a significant decline in her mental health and her marriage collapsed. She lost her apartment and lived in a tent in Hollywood for four years before moving to an encampment.

Galilea, a PATH case manager, met Krystal during an encampment outreach visit. Krystal shared she had a housing voucher but hadn't yet been matched to housing. Over several months, Galilea helped Krystal navigate a complicated and frustrating situation. They discovered Krystal needed a care coordinator in order to be linked to her housing voucher, but the process had

been stalled. Devastated by the news, Krystal's depression and anxiety worsened.

However, Galilea persevered and eventually connected Krystal to a TLS. With the support of PATH's Housing Navigation team, Krystal was successfully matched to an apartment. Krystal is excited about moving into her own place. After years of feeling her life was on hold, she can now focus on her future goals.

[Interim Housing](#) provides safe, temporary housing for people transitioning out of homelessness. Types of interim housing include emergency shelter, stabilization housing for individuals with complex health and/or behavioral health conditions, bridge housing for people exiting institutions such as jails or hospitals, and recovery bridge housing for people undergoing outpatient treatment for substance use disorder. The County also provides recuperative care facilities for people recovering from acute illness or injury.

Additionally, Enriched Residential Care Facilities, also known as Board and Care, provide 24/7 care and supervision in licensed residential facilities that are either interim or permanent housing.

Systemwide, **171,010** people experiencing homelessness have used interim housing since Measure H funding began in July 2017. Of those people, **90,064** lived in interim housing completely or partially funded by Measure H. During this reporting period, **11,063** people were placed in interim housing. Of those people, **3,901** lived in interim housing completely or partially funded by Measure H.

Highlights

- DHS Interim Housing:** The DHS-HFH Interim Housing program offers shelter and supportive services to people with medically vulnerable and complex diagnoses as they work toward securing permanent housing. During this reporting period, **1,817** clients were served, with **639** new enrollments and **208** clients transitioning to permanent housing, resulting in a total of **37%** of exits from homelessness. The program has continued to successfully match interim housing participants to permanent supportive housing (PSH) resources due to recent changes in matching criteria. These changes enable the program to identify “match-ready” interim housing participants, who are then connected to project-based PSH resources within the same geographic area.

BERNARD

Lead County Dept: DPH | **Agency:** Omni Center | **Pillar:** House

Bernard, 41, had been struggling for years with a chronic substance use disorder that landed him in and out of homelessness and jail. Standing before a judge, once again, Bernard felt like he had let himself and his family down. When he was offered an inpatient treatment program, he seized the opportunity to turn his life around.

While in residential treatment and interim housing, Bernard thrived: he secured full-time employment, opened his first savings account, and began rebuilding his self-esteem. DPH Housing Coordinators April and Raymond worked tirelessly to find Bernard interim housing. They also secured his placement on low-income housing waiting lists.

Bernard now rents a room in a loving family's home while he waits for the right apartment to open. He finds a sense of purpose in his job as a forklift operator and has a newfound confidence from earning a living, paying rent, and contributing to society.

"Today I count my blessings. I feel like a grown man now, not a broken man with a shattered self-esteem."

- **LAHSA Interim Housing for Individuals Exiting Institutions:** During the second quarter of FY 2024-2025, LAHSA continued to strengthen collaboration with service providers by sharing resources tailored to the specific needs of individuals exiting institutions. A key development was LAHSA's engagement with Los Angeles County's Justice Care and Opportunities Department (JCOD), through which LAHSA shared their interim housing bed availability and coordinated cross-referrals for participants enrolled in both programs. This partnership supports better utilization of available resources and ensures participants have access to the services they need. LAHSA hopes to deepen this collaboration with JCOD and

explore additional system resources to enhance support for participants exiting institutions.

Throughout the quarter, LAHSA also maintained technical assistance and monitoring efforts to improve connectivity to housing navigation resources. Additionally, they expanded their reach to connect participants to batch-matched housing opportunities, helping streamline the path to permanent housing. As a result of these efforts, 15 participants in the B7 Interim Housing program secured permanent housing during the second quarter, representing 13% of program exits.

While the total number of housing placements saw a slight decline due to the closure of one program related to contract issues, the percentage of successful housing exits increased, reflecting continued progress in housing outcomes.

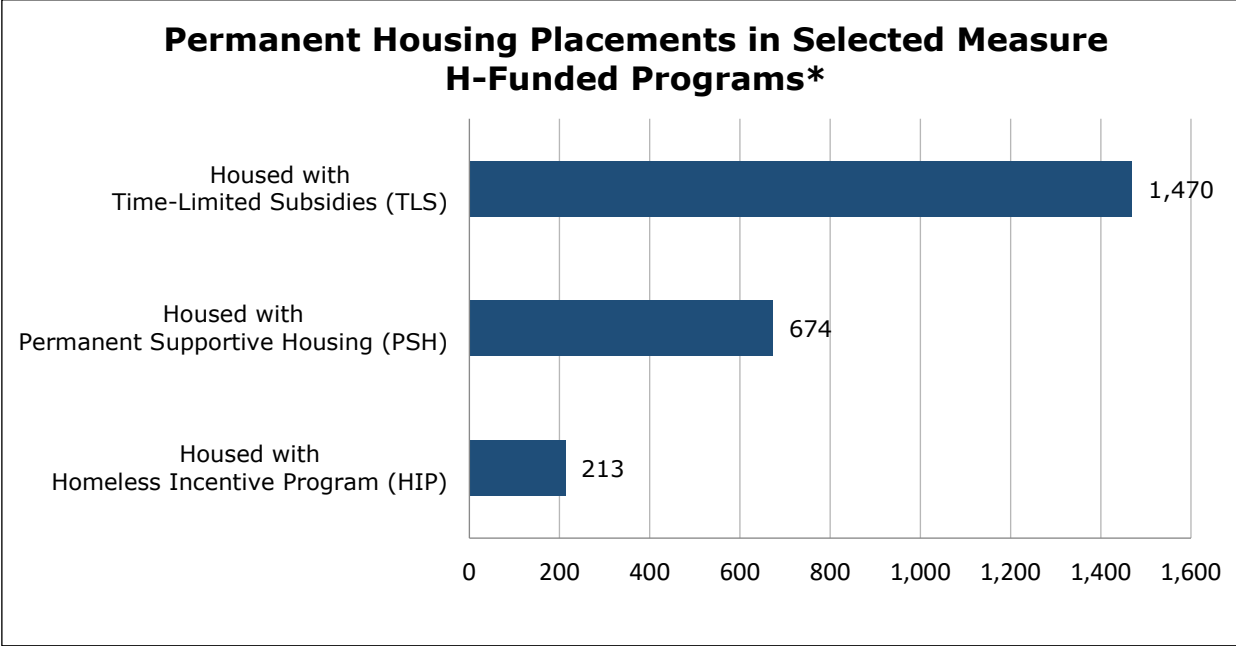

*LAHSA Interim Housing programs aim to provide temporary housing solutions to individuals experiencing homelessness in Los Angeles County, including, but not limited to, A Bridge Home, Bridge Housing, County Pathway Home, Crisis Housing, Enhanced Bridge Housing for Older Adults, Enhanced Bridge Housing for Women, Project Homekey, Roadmap Interim Housing, Safe Parking, and Tiny Home Village.

HOUSE (PERMANENT HOUSING)

[Permanent Housing](#) strategies lift people out of homelessness by offering short- or long-term rental subsidies in combination with varied levels of supportive services. PSH, for example, provides long-term rental subsidies and supportive services to individuals who have experienced chronic homelessness and have disabilities, chronic medical conditions, and/or behavioral health conditions. Since July 1, 2017, the County has placed **131,294** people in permanent housing, with **48,840** of the placements completely or partially funded by Measure H funding.

During this reporting period, **8,798** people were placed in permanent housing throughout the County, including **2,357** placements completely or partially funded by Measure H.

*There may be duplication between clients who obtained housing with support from the Landlord Incentive Program and clients who were housed in PSH because the first program is used to incentivize landlords to accept PSH vouchers.

Highlights

- **LAHSA Time Limited Subsidy:** As of this quarter, **27 TLS Pathway Home contracts** have been executed, enabling service providers engaged in encampment resolution to coordinate more effectively with other LAHSA-funded programs—including outreach, access and engagement, interim housing, and housing navigation. This integrated approach is helping expedite transitions from unsheltered homelessness to emergency shelter and permanent housing. In the adult system, much of the TLS-supported activity is being implemented through Master Leasing, which expands available housing inventory and accelerates placements.

While TLS providers continue to increase enrollments to maximize slot utilization, challenges remain. One of the main barriers, especially in our encampment resolution projects, is that many participants are securing PSH vouchers and thus do not require TLS subsidies, leading to underutilization of available TLS slots. LAHSA and its partners are actively exploring alternative pathways to address this gap and optimize the use of resources.

RAMIRO

Lead County Dept: DHS | **Agency:** Brilliant Corners | **Pillar:** House

Facing chronic medical conditions and partial blindness due to a stroke, Ramiro, 62, found it impossible to manage day-to-day life. With no consistent medical support or secure income, he struggled to stay afloat and landed into homelessness.

When Ramiro enrolled in Intensive Case Management Services (ICMS) in March 2024, he was immediately connected with the Interim Housing Case Management (IHCG) team. Through the combined efforts of Brilliant Corners, ICMS, IHCG and DHS Countywide Benefits Entitlement Services Team (CBEST), a comprehensive plan was developed to support Ramiro.

In just a few months, he began receiving Supplemental Security Income retirement benefits and through Medi-Cal found a primary care provider. Ramiro's IHCG caregiver played a crucial role, helping him to navigate multiple medical and provider appointments. In October 2024, Ramiro successfully moved into PSH. With his new home, medical team, and financial stability, he is now able to live more fully and engage in life with a renewed sense of independence. Ramiro is steadily moving toward greater self-sufficiency and well-being.

- **DHS-HFH Permanent Supportive Housing (PSH):** In this reporting period, DHS helped open **14 new buildings across five regions** in the County, adding **685 new slots for ICMS**. These services provide ongoing support for people living in PSH, helping them stay housed and connected to resources. A total of **1,860 individuals were newly enrolled in PSH with ICMS support**. Of those, 1,499 received help through federal rental assistance programs and 114 received local rental support. New ICMS enrollments included individuals at various stages of the housing process — some were preparing to be matched to housing, others were waiting for a unit, and many had already moved into their new homes. In total, **674 people successfully moved into housing** during this time.

The ICMS program serves a diverse group of participants. During this reporting period, individuals enrolled identified as the following: Black or African American (46%), White (40%), or Hispanic/Latina/e/o (29%). Smaller numbers identified as American Indian/Alaskan Native (2%), Asian/Asian American (2%), Native Hawaiian/Pacific Islander (1%), or Middle Eastern/North African (less than 1%). *Note: Because participants can identify with more than one group, the percentages add up to more than 100%.*

STABILIZE

Most families and individuals experiencing homelessness benefit from some level of case management and [supportive services](#) to secure and maintain permanent housing, though their needs vary depending on individual circumstances. Through these stabilizing services, appropriate case management and supportive services enable families and individuals transitioning out of homelessness to use rental subsidies, increase their income, and access public services and benefits. Additionally, individuals experiencing homelessness who live with a severe disability can increase their income through federal disability benefits or by securing employment

Highlights

- **CBEST:** Due to reduced funding, CBEST ended service agreements with nine non-profit partners at the close of FY 2023–24. Beginning July 1, 2024, CBEST assumed full responsibility for all referrals and intakes, including those for General Relief participants referred by DPSS. This transition provides an opportunity to strengthen and streamline the “front door” process, with a focus on reducing the volume and percentage of referrals that do not result in submitted applications.

Data from the previous quarter and this quarter have demonstrated early positive impacts, with the number of intakes significantly reduced while the number of applications submitted remaining relatively stable. As CBEST continues to refine and improve how people connect with their services, the intent is to shift more staff to focus on helping with applications and appeals to better support individuals throughout the entire process and improve outcomes for the community.

MICHELLE

Lead County Dept: DEO | **Agency:** Goodwill | **Pillar:** Stabilize

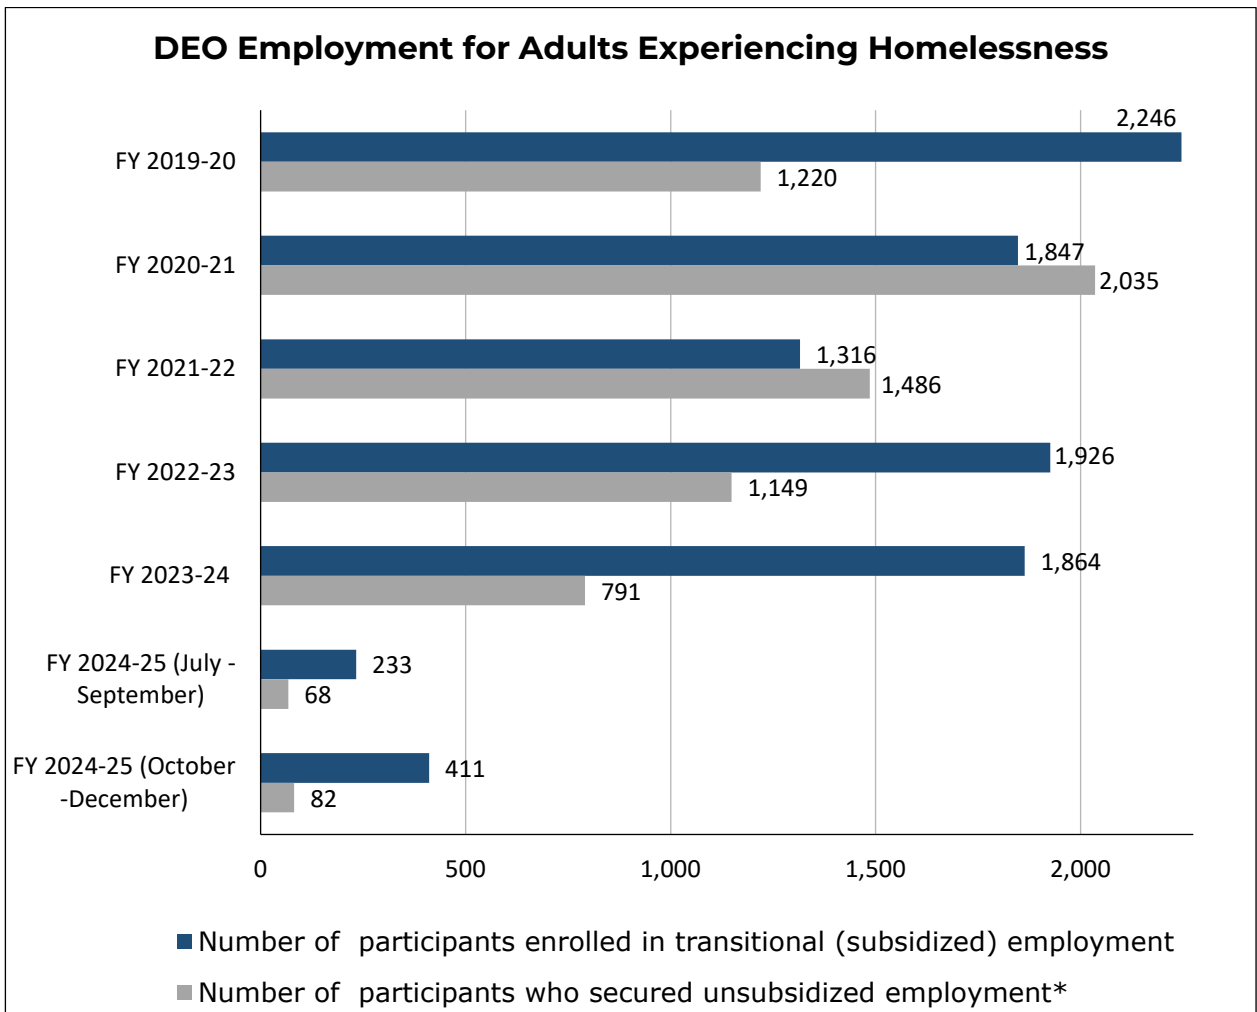

Michelle, 56, had spent most of her life in prison. A cycle of substance abuse and intermittent robbery charges led to four prison terms within a 30-year period. When her mother passed away, Michelle’s life crumbled and she began living on the street.

As a requirement of her parole, Michelle attended a job fair where she connected with a representative from Goodwill. The following day, she was enrolled in the LA:RISE program for Paid Work Experience at Goodwill. Throughout the program Michelle’s case manager worked closely with her, offering her counseling and feedback to ensure her successful transition into the workforce. Michelle felt belonging, support, and the freedom to build a future.

LA:RISE provided Michelle the opportunity to step into a new life and she is now in a place of stability. She is employed, owns a vehicle, has secure housing, and is surrounded by a strong support system. She plans to stay with Goodwill and to climb the ladder toward managerial roles.

“The program gave me a renewed way of looking at life and surround

- DEO: The LA:RISE 10th Anniversary Event**, held on October 24, 2024, at The California Endowment, celebrated a decade of impactful workforce development in the County. Since 2014, LA:RISE has fostered vital partnerships to support vulnerable Angelenos in securing sustainable employment. Driven by DEO, the City’s Economic Workforce Development Department, and REDF, the initiative has helped **over 9,500 individuals** overcome employment barriers. The event highlighted LA:RISE’s success in addressing issues like homelessness and justice system involvement, assisting over 5,700 participants into transitional jobs and 4,700 into competitive employment. The event featured keynotes, personal success stories, and discussions on collaborative strategies to strengthen workforce pathways.

*Data for unsubsidized employment is generated based on base wage data reported to the California Employment Development Department and is updated as it becomes available. Note the decline in numbers between FY 2022-23 to FY 2023-24 is due to the loss of key staff, which affected referrals and participant engagement. High dropout rates before program completion also compounded this decline. All these issues are being addressed and monitored closely by DEO.

Notes:

- Beginning in FY 2024-25, data in the QR is being reported quarterly rather than cumulatively. As such, figures reflect a snapshot of a specific period and may fluctuate due to a variety of factors.

Notes:

- Countywide Outreach System data is categorized by the Service Planning Area (SPA) in which participants were served. The data includes information from the Department of Health Services' Multidisciplinary Teams (MDTs) and the Los Angeles Homeless Services Authority (LAHSA) Homeless Engagement Teams (HET). Because participants may be enrolled in multiple programs across different outreach teams, the total number per SPA does not equal the sum of all teams combined. The metrics for services/referrals, crisis housing, and permanent housing include individuals engaged during the reporting period, including those who may have been first engaged in a previous period. As a result, the total number of individuals who received services/referrals exceeds the total number of individuals newly engaged.

*Due to the transition to U.S. Department of Housing and Urban Development Homeless Management Information System Data Standards regarding demographic data, most departments have adopted alignment with race/ethnicity and gender standards allowing "multi-selection." These selections now count clients in every category that applies, subsequently leading to the removal of the multiracial category. Previously consolidated fields, "Client doesn't know," "Client prefers not to answer" and "Data not collected" will now be listed.

Note: "Number Served" refers to all participants served during the reporting period, some of whom were enrolled prior to the reporting period.

Note: This report includes data for families and individuals in homeless prevention programs for the following metrics: newly enrolled, number served, exits to permanent housing, and housing retention at six months. For Problem Solving programs, only clients who achieved a permanent housing outcome are reported. While additional metrics may be collected, they are not reflected in this report.

Note: Beginning in FY 2024-25, data in the QR is being reported quarterly rather than cumulatively. As such, figures reflect a snapshot of a specific period and may fluctuate due to a variety of factors.
