A total of 131 live birds and 2 live reptiles were collected between 5/23/2026 and 6/7/2026. Thirty-one dead birds were collected between 5/23/2026 and 6/12/2027. Four Black-necked stilt eggs were collected from an abandoned nest and deemed non-viable (counted as dead on arrival). Twenty-eight animals died or were humanely euthanized. Three birds requiring long term care were transferred to another accredited facility on 9/7/2026. One hundred and two birds were rehabilitated and released. With all birds being cleaned and then released or transfered, Care Operations for the 400 Eastern Ave Response were demobilized on 9/7/2026.*

NOTE: All live birds were visibly oiled. Not all dead birds or mammals have been found to be visibly oiled.
