2. Cookie Lommel

My name is Cookie Lommel, I work with the LA County Deputy Probation Officers Union

Until the Board of Supervisors, commissioners' advocates, and attorneys hear the stories of victims, hears the stories of youth who tell you their positive stories concerning their experiences with their probation officer and hear the stories of present probation line staff who interact with youth daily, you don't really have enough information to make an informed and balanced decision concerning issues being discussed about probation reform. Local 685 has produced a short (13 Minutes) video entitled "In Their Own Words" where former probation clients talk about their experiences with their probation officers.
