

JJCC Meeting May 12, 2022
Written Public Comments Submitted via E-mail
Agenda Item V.

1. Mark Kemp

Reviewing the history of public comments from prior meetings, live, recording, and the written comments that have been posted.

It seems committee members hears only one voice. Why is that?

I thought the idea of public comments was to hear what everyone has to say.

It seems this committee has selected people based on their points of view.

This should be fair and impartial and committee. It does not feel that way. It feels like you only listen to one voice, one opinion, forget anything outside of that.

Last, why is there a strong focus and bias to only negative comments about the probations department, accompanied by dismissals of the good they do.

I thought this was supposed to be a public service committee, from I've heard and seen, This is not a public service.
