**SUBJECT: JUVENILE CASE MANAGEMENT SYSTEM  
School Information**

DPO's are to enter and update school information on all cases. During investigation, the DPO is to verify that school information is current and accurate. During the course of supervision, the supervision DPO is to update school information as needed so that it is always current.

JCMS is designed to produce automated reports that will take the place of the hand counts that we have done in the past. It is critical that the school information be accurate. Assessment on School-Based programming depends upon current, accurate school information. Ongoing reports showing the enrollment information for probation minors will be used to assess the allocation of resources in School-Based operations. If the information does not correspond to actual school enrollment at the various schools, the Department will have to go to hand counts to resolve the problem.

  
Virginia L. Snapp, Chief  
Juvenile Field Services Bureau

  
Jitahadi Imara, Chief  
Juvenile Special Services Bureau

  
Richard M. Saenz, Chief  
Residential Treatment Services Bureau
