

MOTION BY SUPERVISOR DON KNABE

September 1, 2015

My office has received dozens of complaints and inquiries regarding a private, permitted fireworks show in Marina del Rey. It is outrageous that a show of this nature was allowed to occur very late on a weeknight in an area impacting so many residents.

Steps should be taken to prevent this from occurring in the future and a process should be in place to provide timely notice to affected area residents. This includes better coordination among County departments as well as with other local and federal agencies.

**I, THEREFORE, MOVE** that the Board instruct the Fire Chief to report back in 30 days on a corrective action plan to ensure that an event of this nature is not repeated.
