## Summary Corrective Action Plan

The intent of this form is to assist departments in writing a corrective action plan summary for attachment to the settlement documents developed for the Board of Supervisors and/or the County of Los Angeles Claims Board. The summary should be a specific overview of the claims/lawsuits' identified root causes and corrective actions (status, time frame, and responsible party). This summary does not replace the Corrective Action Plan form. If there is a question related to confidentiality, please consult County Counsel.

Date of incident/event:	March 15, 2006
Briefly provide a description of the incident/event:	Plaintiff was a 12 year old African-American Male that was approximately 5'6" and 130 lbs., when he was detained in March 2006 related to petty theft charges. On the day of the incident the plaintiff was being held in Compton Court holding tank #2 waiting for his court appearance. While in the holding tank the plaintiff was sexually assaulted by two African-American Males. One of the perpetrators was a 17 year old African-American Male that was approximately 5'6" and 140 lbs and the other was a 14 year old African-American Male that was approximately 5'3" and 124 lbs. In May 2007 the plaintiff filed a lawsuit alleging that the department and staff were negligent by failing to supervise, control, oversee activities, etc.

1. Briefly describe the root cause(s) of the claim/lawsuit:

### Root Cause Analysis:

The initial incident stems from plaintiff's court holding tank assignment with juvenile wards that violated rules prohibiting assaultive and sexual behavior. A root cause factor analysis was conducted including, but not limited to:

- Exposure area relates to plaintiff being placed in a holding tank with older and more sophisticated minors that sexually assaulted him in the presence of a witness.
- **Compounding factors include:**
  - Employees lack of adherence to supervision policy and poor judgment.
  - Staff observation window was covered with a tint without management approval.
  - Witness issues.
  - Witnesses reference to staff watching television.
  - Formatting of investigation report.

Based upon the outcome of the above-referenced root cause analysis the Department has determined root cause factors include:

- **Minor's non-compliance with policy about assaultive and sexual behavior.**
- **Four Transportation Deputies violation of Department policies.**

This matter is being settled to mitigate associated legal costs and to avoid a potentially adverse verdict associated with the root/non-root cause factors.

2. Briefly describe recommended corrective actions:  
(Include each corrective action, due date, responsible party, and any disciplinary actions if appropriate)

**Recommended Root Cause Corrective Action:**

**Task #1 Name:** Non-Disciplinary and/or Disciplinary Action for Staff

**System Issue:** ☒ Process/Procedure/Personnel

**Responsible Person:** Rahman Williams

**Task Description:**

1. **Appropriate Non-Disciplinary (Policy Guidance) &/or Disciplinary Action for Staff Members.**
  - i. The Department will take appropriate non-disciplinary and/or disciplinary action against employees with clear documented policy violations associated with this matter. Action taken will be consistent with current Performance Management/Discipline Guidelines, which include, but is not limited to:
    1. Non-Disciplinary Action (deemed appropriate in some cases to inform the employee of a performance problem that may result in discipline if it continues)
      - a. Policy Guidance/Instructional Memo
    2. Disciplinary Action
      - a. Discharge

**This task was completed by the end of August 2006 and on-going based on appeals.**

**Task #2 Name:** Probation Department Policy Manual (PDPM) Reinforcement

**System Issue:** ☒ Process/Procedure/Personnel

**Responsible Person:** Scott Sanders or designee

**Task Description:**

1. The Department Transportation Managers will reinforce policy in

the PDPM. Reinforcement was done by using at least one of the following: (1) Discussion in staff meetings, (2) Individual staff review with supervisors, (3) Posted in an area frequented by staff, or (4) Electronic distribution. The policy includes, but is not limited to the following information:

  - ii. Supervision of wards at all times
  - iii. Observance of Work Hours
  - iv. Break Periods/Lunch
  - v. Assignments/Scheduling
  - vi. Requirements for minors under the age of 13 years, and others that require special consideration and observation during a transportation activity (also in Directive #1099 that was issued in June 2006).

**This task was completed by the end of June 2010.**

**Task #4 Name:           Electronic Devices Policy Reinforcement**

**System Issue:           ☒ Process/Procedure/Personnel**

**Responsible Person:   Scott Sanders or designee**

**Task Description:**

1. The Department implemented and issued Policy Directive #1121

related to electronic devices that are prohibited from being brought into Probation facilities. Transportation Managers will **reinforce** this policy. Reinforcement was done by using at least one of the following: (1) Discussion in staff meetings, (2) Individual staff review with supervisors, (3) Posted in an area frequented by staff, or (4) Electronic distribution. The policy includes, but is not limited to the following information related to prohibited devices:

- i. Radios
- ii. iPods
- iii. DVD Players
- iv. MP3 Players
- v. Televisions
- vi. Laptops
- vii. Game Boys

Situations where an exception to the above are made will be handled on a case-by-case basis with the pre-approval of the workplace Director.

**This task was completed by the end of April 2007 and is on-going based on operational needs.**

**Task #5 Name:** Crime Scene Evidence Preservation

**System Issue:** ☒ Process/Procedure/Personnel

**Responsible Person:** Scott Sanders or designee

**Task Description:**

1. The Department implemented and issued Policy Directive #1123 related to Crime Scene Evidence Preservation. Transportation Managers will **reinforce** this policy. Reinforcement was done by using at least one of the following: (1) Discussion in staff meetings, (2) Individual staff review with supervisors, (3) Posted in an area frequented by staff, or (4) Electronic distribution. The policy includes, but is not limited to the following information:
  - i. Establishing a crime scene to ensure that critical evidence is not disturbed or contaminated.
  - ii. Supervisor shall cordon off the area pending appropriate processing of the evidence at the crime scene.
  - iii. Proper evidence handling.
  - iv. Responsibilities of the evidence custodian.
  - v. Labeling evidence.

**This task was completed by the end of April 2007 and is on-going based on operational needs.**

<b>Task #6 Name:</b>	<b>Special Investigations Unit</b>
<b>System Issue:</b>	<input checked="" type="checkbox"/> Process/Procedure
<b>Responsible Person:</b>	David Grkinich
<b>Task Description:</b>	<p>1. <u>The Office of Child Abuse &amp; Special Investigations (SIU)</u> reports directly to the Chief Probation Officer and <u>responds to/conducts investigations</u> associated with allegations of suspected child abuse and use of force situations in the juvenile halls and camps. In addition, this office also receives referrals from the Chief or other Executive Leadership Team Members on high profile or priority matters involving the care and treatment issues of wards. This operation <u>would</u> receive a referral to respond to and investigate such incidents.</p> <p><b>This task was completed by the end of April 2009.</b></p>

## Summary Corrective Action Plan

The intent of this form is to assist departments in writing a corrective action plan summary for attachment to the settlement documents developed for the Board of Supervisors and/or the County of Los Angeles Claims Board. The summary should be a specific overview of the claims/lawsuits' identified root causes and corrective actions (status, time frame, and responsible party). This summary does not replace the Corrective Action Plan form. If there is a question related to confidentiality, please consult County Counsel.

Date of incident/event:	June 1, 2009
Briefly provide a description of the incident/event:	<p>At approximately 1:30 p.m., a DBH employee was driving a DBH trash truck northbound on PCH when the front end of the DBH truck collided with the back end of a VW Jetta also traveling northbound on PCH. This collision occurred at the intersection of PCH and Entrada Drive in the City of Los Angeles (Pacific Palisades area). The DBH driver reported that the Jetta came to a sudden stop in the intersection at PCH and Entrada. Not expecting that driver to stop, our driver was surprised and rapidly braked but could not avoid hitting the Jetta. The Jetta sustained extensive rear end damage. DBH staff were not injured and nobody received medical attention at the accident scene. The driver of the Jetta declined medical assistance.</p>

1. Briefly describe the root cause(s) of the claim/lawsuit:

1. The police report states that the primary cause of the collision was the DBH employee's violation of Vehicle Code Section 21703, following too close to the vehicle in front of it.
2. The DBH investigation suggests that the person who was hit by the DBH vehicle may also have contributed to this accident by suddenly stopping her vehicle in an intersection, past the vehicle limit line, in violation of Sections 21453 and 22109 of the Vehicle Code.

Date of incident/event:	Saturday, October 25, 2008; approximately 6:53 p.m.
Briefly provide a description of the incident/event:	<p><b><u>Yen Jue Hsiao v. County of Los Angeles, et al.</u></b> Summary Corrective Action Plan No. 2011-022</p> <p>On Saturday, October 25, 2008, at approximately 6:53 p.m., deputies assigned to the Los Angeles County Sheriff's Department's Lennox Station responded to an emergent radio call of a mentally-ill man armed with a golf club and a knife, yelling incoherently and chasing people. When the deputies arrived, they saw the man (plaintiff) standing in the driveway of a residence, armed with a golf club and a screwdriver. The plaintiff advanced toward the deputies in a threatening manner, swinging the golf club and making stabbing motions with the screwdriver.</p> <p>At the direction of a supervisor, a deputy deployed a TASER device on the plaintiff. When the TASER device had no effect on the plaintiff, the deputies employed additional less-lethal-force options. Following the deployment of a diversionary device, a group of deputies was able to use protective shields to subdue the plaintiff and take him into custody.</p> <p>The plaintiff was treated for his injuries and subsequently transported to a local medical facility for further evaluation and treatment. He was arrested for a violation of California Penal Code section 245(b), Assault with a Deadly Weapon on a Peace Officer, and detained pursuant to California Welfare and Institutions Code section 5150, Dangerous or Gravely Disabled Person.</p>

1. Briefly describe the root cause(s) of the claim/lawsuit:

The plaintiff claims he was subjected to excessive force and falsely arrested and imprisoned.

County of Los Angeles  
Summary Corrective Action Plan

2. Briefly describe recommended corrective actions:  
(Include each corrective action, due date, responsible party, and any disciplinary actions if appropriate)

The Los Angeles County Sheriff's Department had relevant policies and procedures/protocols in effect at the time of this incident.

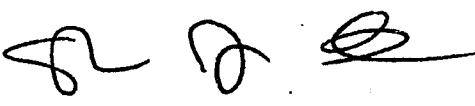

The Los Angeles County Sheriff's Department's training curriculum addresses the circumstances which occurred in this incident.

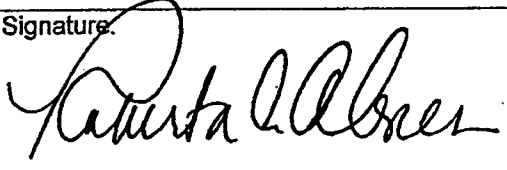

On October 22, 2009, the Los Angeles County Sheriff's Department's Executive Force Review Committee convened and conducted a thorough review of this incident. The members of the committee concluded that the physical force used by the deputies was reasonable, necessary, and in compliance with Department policy. The members of the committee also concluded that the tactics employed by all personnel in this incident were within Department policy. Consequently, no administrative action was taken and no corrective action measures were implemented.

3. State if the corrective actions are applicable to only your department or other County departments:  
(If unsure, please contact the Chief Executive Office Risk Management Branch for assistance).

- ☐ Potentially has Countywide implications.
- ☐ Potentially has an implication to other departments (i.e., all human services; all safety departments, or one or more other departments).

## Summary Corrective Action Plan

### County of Los Angeles Department of Public Works

The intent of this form is to assist departments in writing a corrective action plan summary for attachment to the settlement documents developed for the Board of Supervisors and/or the County of Los Angeles Claims Board. The summary should be a specific overview of the claims/lawsuits' identified root causes and corrective actions (status, time frame, and responsible party). This summary does not replace the Corrective Action Plan form. If there is a question related to confidentiality, please consult County Counsel.

Claim/Lawsuit: Date of incident/event:	Lincoln Avenue Water Company October, 2006
Briefly provide a description of the incident/event:	In October and November of 2006, the Department of Public Works (Public Works) instructed the Lincoln Avenue Water Company (LAWC) of Altadena to relocate 200 feet of pipeline at the intersection of North Fair Oaks and Mariposa Street, which caused LAWC to incur relocation costs in the amount of \$66,134 98. LAWC claimed that they had prior rights over Public Works at the roadway project reconstruction site and were therefore entitled to reimbursement.

1. Briefly describe the root cause of the claim/lawsuit:

Based on our findings, Public Works relied upon the prior rights information submitted by LAWC as the basis of our review of their prior rights claim. The information submitted did not show that LAWC had prior rights in the area in question, thus Public Works rejected their assertions. However, after several resubmittals of various documentation by LAWC, and based upon our own research, we were able to confirm that LAWC may have a basis for a claim of prior rights in the vicinity of the County's project location.

Public Works does research on a claim of prior rights by a utility company. It is started by an examination of the memos documenting any previous research for that entity at or near the location in question. Any documentation provided by that entity is reviewed and considered and that information will be part of our future file for that entity at that location. The result of these research efforts is a memo listing the interests of the utility company and the County at that location in chronological order.

Public Works retains all of the records for their previous prior rights investigations for a given geographical location and when any future research is requested for that location, those records will serve as the basis of that future investigation.

2. Briefly describe recommended corrective actions.  
(Include each corrective action, due date, responsible party, and any disciplinary actions if appropriate)

Public Works will pay to LAWC the sum of \$45,000 to settle their claims of prior rights. Public Works does not contemplate any corrective actions.

The summary should be a specific overview of the claims/lawsuits' identified root causes and corrective actions (status, time frame, and responsible party). This summary does not replace the Corrective Action Plan form. If there is a question related to confidentiality, please consult County Counsel.

Lawsuit: Date of incident/event:	Harlan Dejongh November 10, 2007
Briefly provide a description of the incident/event:	On November 10, 2007, at 6:40 p.m., 56-year-old Harlan Dejongh was driving his motorcycle southbound on Sage Tree Street, near Elizabeth Lake Road in the unincorporated area of Palmdale, when he lost control of his vehicle due to loose gravel on the roadway. As a result, Mr. Dejongh fell to the ground and sustained injuries to his right hip, shoulder, and head.

1. Briefly describe the root cause of the claim/lawsuit:

On November 7, 2007, Public Works Road Maintenance Division (RMD) performed a Thin Bituminous Repair of the roadway at the northwest corner of Sage Tree Street and Elizabeth Lake Road, which apparently unraveled within 3 days after installation. Based on our review, we believe that the repair failed due to inexperience in the use of the PG64-10 Performance Graded asphalt. This particular asphalt was adopted for Statewide use in 2006 and was incorporated for use by Public Works shortly thereafter.

2. Briefly describe recommended corrective actions:  
(Include each corrective action, due date, responsible party, and any disciplinary actions if appropriate)

Upon notification of loose gravel in the roadway around the incident date of November 10, 2007, the RMD Superintendant immediately dispatched a sweeper to sweep the roadway and clear it of all debris, and placed loose gravel warning signs in the area as an added precautionary measure.

RMD believes that this incident does not require a systematic review of all thin bituminous repairs placed either during this period of time or in the area. In an effort to avoid future instances of thin bituminous repair features, RMD in conjunction with Geotechnical & Materials Engineering Division will prepare a memorandum to all RMD personnel, which will include guidance on the application of thin bituminous repairs on the roadways. The guidelines will be finalized and approved by July 30, 2011, and will be incorporated into the RMD Tailgate Training Documents to be reviewed annually.

**DEPARTMENT OF PUBLIC WORKS  
CORRECTIVE ACTION PLAN**

**LAWSUIT OF:** Dejongh, Harlan

**INCIDENT DATE:** November 10, 2007

**INCIDENT LOCATION:** Sage Tree Street, near Elizabeth Lake Road, unincorporated Palmdale area

**RISK ISSUE:**

The County is responsible for inspecting and maintaining the roadway at the incident location and could be held liable for personal injuries due to failing to correct a dangerous condition on public property

**INVESTIGATIVE REVIEW:**

On November 10, 2007, at 6:40 p.m., 56-year-old Harlan Dejongh was driving his motorcycle southbound on Sage Tree Street, near Elizabeth Lake Road in the unincorporated area of Palmdale, when he lost control of his vehicle due to loose gravel on the roadway. As a result, Mr. Dejongh fell to the ground and sustained injuries to his right hip, shoulder, and head.

On November 7, 2007, Public Works Road Maintenance Division (RMD) performed a Thin Bituminous Repair of the roadway at the northwest corner of Sage Tree Street and Elizabeth Lake Road, which apparently unraveled prior to the incident. Based on our review, we believe that the repair failed due to inexperience with installation using PG64-10 Performance Graded asphalt. The asphalt being applied must be at a minimum temperature and it must be thoroughly raked, especially on thin sections and at feathered edges to avoid aggregate breaking loose after completion of the patch. This particular asphalt binder was adopted for statewide use in 2006 and was incorporated for use by Public Works shortly thereafter. Based on our findings, we believe that the use of this particular asphalt may not be suitable for Thin Bituminous Repair work except during hot weather conditions.

**POLICY ISSUES:**

As part of their maintenance operations, RMD reviews all improvements within the road right of way at least once a month and when maintenance problem conditions are found, corrective actions are taken. Issues arose as to the appropriateness and quality of a Thin Bituminous Repair at the incident location.

**DEPARTMENT OF PUBLIC WORKS  
CORRECTIVE ACTION PLAN**

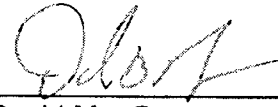

**CORRECTIVE ACTION:**

Upon notification of loose gravel in the roadway around the incident date November 10, 2007, the RMD Superintendant immediately dispatched a sweeper to sweep the roadway and clear it of all debris, and placed loose gravel warning signs in the area as an added precautionary measure.

RMD believes that this incident does not require a systematic review of all thin bituminous repairs placed either during this period of time or in the area. In an effort to avoid future instances of thin bituminous repair features, RMD in conjunction with Geotechnical & Materials Engineering Division will prepare a memorandum to all RMD personnel, which will include guidance on the application of thin bituminous repairs on the roadways. The new guidelines will be finalized and approved by July 30, 2011, and will be incorporated into the RMD Tailgate Training Documents to be reviewed annually

## Summary Corrective Action Plan

The intent of this form is to assist departments in writing a corrective action plan summary for attachment to the settlement documents developed for the Board of Supervisors and/or the County of Los Angeles Claims Board. Claim:	Cassandra Robinson vs. County of Los Angeles, et al.
Date of incident/event:	March 14, 2008
Briefly provide a description of the incident/event:	This claim is the result of a bodily injury. Cassandra Robinson was injured when she stepped into an open subterranean water meter box located at 553 East Jackman Street in the City of Lancaster, due to a broken water meter box lid. Ms. Robinson sustained a torn knee ligament requiring surgery.

1. Briefly describe the root cause of the claim/lawsuit:

On March 11, 2008, three days before the incident occurred, the tenant at the incident location called Waterworks Division to inform them of the broken water meter lid. A work order was generated, but the lid was not repaired until April 30, 2008.

2. Briefly describe recommended corrective actions.

(Include each corrective action, due date, responsible party, and any disciplinary actions if appropriate)

Meter reading staff have been instructed to leave a cone or other safety warning device in any area of potential liability. In February 2010, a new safety code (Code 74) was implemented that Waterworks Division's water service meter readers will input into handheld data collection devices when a potential safety hazard is noted at the meter. Also, meter readers have been instructed to call the maintenance office the same day the safety hazard is observed. Water Service Supervisors will then initiate a work order to repair the safety hazard that same day or, at the latest, by the following morning.

Additionally, on March 10, 2010, Waterworks Division began conducting periodic tailgate meetings for all field staff to emphasize the importance of reporting any safety liabilities they may observe in the performance of their duties, and new meter-reading staff will be instructed as part of their initiation to follow these procedures as well. These meetings shall be memorialized in the County of Los Angeles Department of Public Works Tailgate Safety Meeting Reports.
